

## Reptile to Mammal Jaw Evolution

S: squamosa Ar: articular  
Q: quadrate An: angular  
D: dentary

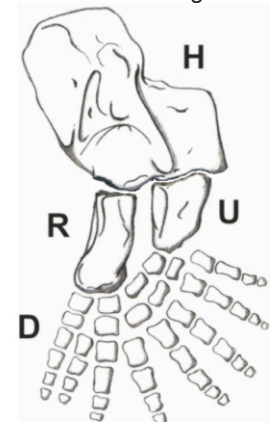

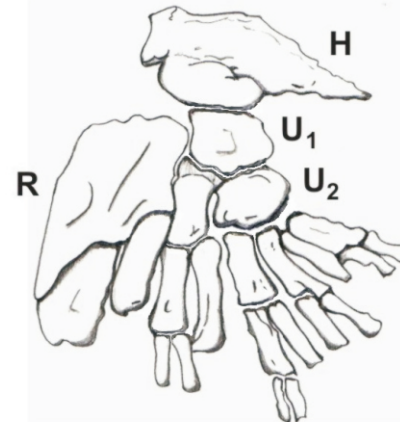

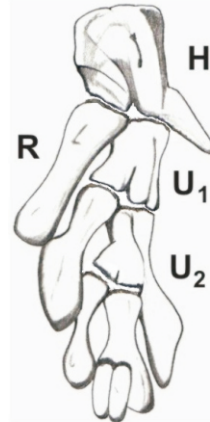

## Fish to Amphibian

## Fish Fin to Amphibian Upper Limb

H: humerus U: ulna  
D: digits R: radius

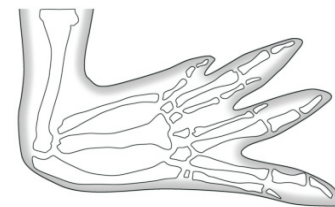

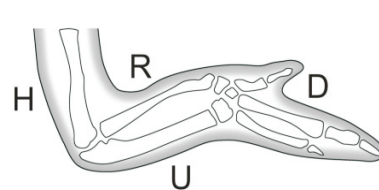

## Conclusions

- Two problems:
  1. Origins dichotomy
  2. Scientific concordism
- Information problem

**Not HOW God created,  
but THAT God created.**

## Development of Experimental Hen Upper Limbs

**Experimental Limbs**
