

## Airstream mechanisms: Ejectives, implosives and clicks

Rogers chapter 12

### NOTE

- This is a web-publishable version with copyrighted material shown in class removed. There isn't much left of the classroom presentation.  
I've added a few references to similar things in your text.

### Egressive pulmonic air

- Most sounds made with egressive pulmonic air
  - Egressive: Air pushed out
  - Pulmonic: from lungs
- A few marginal sounds made with ingressive pulmonic air
  - Hollywood society matron's expression of shocked outrage
    - ? Margaret Dumont as Mrs. Gloria Teasdale in "Duck Soup"
  - Continuation form in Swedish
    - [j ↓ a↓] (extended IPA)
