WORLD DAY OF THE POOR

November 13, the 33rd Sunday in Ordinary Time, is the World Day of the Poor. Your Society of Saint Vincent de Paul invites you to help our less fortunate brothers and sisters, especially at this uncertain time. They encourage you to lend a hand by donating non-perishable food items or making a financial gift. In this very busy period, they also welcome volunteers who are willing to serve the poor in our community.

You may donate to the local Society of Saint Vincent de Paul online at <https://www.canadahelps.org/en/charities/The-Society-of-Saint-Vincent-de-Paul-Divine-Mercy-Conference/> or by using envelopes that will be available at the church on the weekend of November 12-13. This year, we need your help more than ever. For more information, contact Maria at mariakssvp@gmail.com

BOOK OF REMEMBRANCE

The month of November is a traditional time to pray for the dead, especially those who died in the past year. Please write the names of your beloved dead in the book near the St. Joseph Statue. This Friday is November 11; let us especially remember our war dead on that day.

GOLD MASS

The Society of Catholic Scientists (SCS) will be holding a 'Gold Mass' on November 15, 2022, the feast day of St. Albert the Great (patron saint of natural science) at 5:30pm at St. Joseph's College. Archbishop Richard Smith will be presiding. Reception to follow. All are welcome. Parking available on a first-come basis in the St. Joseph's College parking lot.

About a Gold Mass: Gold Masses follow in the tradition of special masses for members of particular professions. The oldest, the Red Mass for lawyers and lawmakers, was introduced in the 13th century. By promoting Gold Masses for scientists around the world, SCS hopes to create spiritual fellowship among Catholic scientists, science educators and science students at the local level.

Gold Masses bring together Catholics from a particular region who are or have been involved with science, including scientists, retired or former scientists, science teachers at university, high school or grade school level, science graduate students, undergraduate science majors, and advanced high school students interested in science. A Gold Mass is intended to foster the development of local communities and networks of Catholics involved with science. Such communities and networks, in turn, may lead to collaborations on various projects, such as study groups and public lectures, or Catholic scientists visiting classes in Catholic schools.
