

NOTE: Draft Table of Contents. Do not cite!

Textbook Title *Phonological Acquisition: Child language and constraint-based grammar*
Author Anne-Michelle Tessier, University of Alberta

Table of Contents (Sept 2010)

- Prologue:** Introduction to Students and Teachers, and How to Use this Textbook
Prologue .1 A very brief overview
Prologue. 2 A teaser of what this textbook is about
Prologue. 3 How the chapters are organized
Prologue.4 How to use this textbook
- Chapter 1:** Background I: A phonological refresher
1.1 Some basics of phonology
1.2 Phonology at and below the segment
1.3 Phonology above the segment
1.4 Two Conceptual issues
1.5 Further Reading
- Chapter 2:** Background II: Early learning about speech sounds
2.1 Methodologies: Experiments with infants
2.2 Speech perception in the first year of life
2.3 Speech perception in the second year of life: adding meaning
2.4 The beginnings of speech production
2.5 Further reading
- Chapter 3:** Early Phonology: the shapes of syllables
3.1 Syllable shape inventories
3.2 Optimizing syllable shapes
3.3 Discussions and consequences
3.4 Some alternatives
3.5 Summarizing the theory so far
3.6 Methodologies: Longitudinal vs cross-sectional studies
- Chapter 4:** Early Phonology: the shape of words
4.1 Early word shapes
4.2 Later word shapes
4.3 Other word shapes
4.4 Early word stress
4.5 Summarizing the theory so far
4.6 Methodologies: Elicitation
- Chapter 5:** Early Phonology: consonants and vowels
5.1 Acquiring consonants
5.2 Interactions between syllables and segments
5.3 Acquiring vowels
5.4 Consonant harmony
5.5 The issue of variation

5.6 Sidenote: Comparing rules and constraints

- Chapters 6:** **Taking Stock I: Perception, word learning and URs**
6.1 The effects of perception
6.2 Taking words and URs into account
6.3 Sidenote: Child-specific perception?
6.4 Sidenote: The influence of lexical categories
6.5 Methodology: Lexical avoidance
- Chapter 7:** **Later Development: acquiring morpho-phonology**
7.1 Methodology: Wug-tests
7.2 Acquiring basic alternations
7.3 U-shaped development
7.4 Paradigm Uniformity
7.5 Sidenote: Adult wug-tests
7.6 Sidenote: Learning to read
- Chapter 8:** **Phonological Acquisition in Other Populations**
8.1 Conceptual issues: Bilingual and L2 acquisition
8.2 Adult L2 Phonology above the segment
8.3 Adult L2 Phonology below the segment
8.4 Child L2 phonology
8.5 Bilingual phonologies
8.6 Theoretical discussion of L2 acquisition
8.7 Methodology: Artificial language learning
8.8 Conceptual Issues: Atypical phonological acquisition
8.9 Phonological delays
8.10 Phonological disorders?
8.11 Methodology: Clinically assessing phonological acquisition
- Chapter 9:** **Taking Stock II: Theories of phonological learning**
9.1 Basic questions of learnability
9.2 Learning constraint-based grammars
9.3 Methodology: Computational methods
9.4 Learning other kinds of grammars
- Epilogue:** **Suggested Readings for Further Study**
- Indices:** **Index of Topics**
Index of Languages
