

# **NURSING 295: COMMUNITY HEALTH INITIATIVE PROPOSAL**

ROGER GRAVES

DIRECTOR, WRITING ACROSS THE CURRICULUM

# FROM THE ASSIGNMENT

Process:

1. Select a target group.
2. Identify a model for working with that group.
3. *Propose an initiative for this group?*

# THE DELIVERABLE

Hand in a paper following APA style including:

Title page

Reference page

Appendices (table of goals/objectives/activities/expected outcomes)

Main body of paper = 6-7 pages

**Abstract?**

# FROM THE GRADING RUBRIC

Background

Goal/objectives, activities, outcomes

Is this an outline?

Description of model/approach

Discussion of determinants

Discussion of CHNSP (Community Health Nursing Standards of Practice)

Evaluation

References

# QUESTIONS

How much research do you need to do?

# BACKGROUND

Names the initiative

Provides demographic data of target group

Includes community needs assessment and findings

Integrates evidence with findings to support rationale

# GOALS

	Example
Goal (comprehensive)	
Objectives (SMART!)	
Activities (linked to objectives; realistic)	
Outcomes (specific, actual)	

# DESCRIPTION OF MODEL

Appropriateness/"fit" of model

Clearly defined

Applicable elements analyzed

Show how model is used in all aspects of the project

Include examples of how it is used

# DISCUSSION OF DETERMINANTS

Appropriate

Integrate evidence to support definition and health influence

Examples for each determinant

# CHNSP

Appropriate

Clearly defined

Show relevance to practice, initiative/project, and target group

Provide examples that apply each CHNSP to the project

# EVALUATION

Reflect insightfully and thoughtfully on strengths and weaknesses of project

Insight on how the project could continue

If applicable, reflect on group processes

# STYLE, REFERENCES

Well- organized

Few errors in grammar/spelling

APA format correct
