WE ARE

creating an education for change makers.

We’re here to surround you with rich opportunities and help you get that much closer to lifelong goals — and unexpected achievements too!

Territorial Acknowledgement

The University of Alberta acknowledges that we are located on Treaty 6 territory, and respects the histories, languages, and cultures of First Nations, Métis, Inuit, and all First Peoples of Canada, whose presence continues to enrich our vibrant community.

45+ GRADUATE PROGRAMS

When you choose the Faculty of Arts, you choose to be the catalyst for change. You choose to dive deep into the hearts and minds of people past and present, near and far, to build a stronger society and to create a better world.

Established in 1908 as one of the University of Alberta’s founding faculties, the Faculty of Arts now boasts one of the most diverse faculties in Canada. We offer top quality programs in the social sciences, humanities and fine arts.

When you become a student at the U of A, you are joining one of the very best universities in the country — and one of the top 100 in the entire world!
THE FACULTY OF ARTS

A Degree Your Way
As part of a large research institution, degree programs in the Faculty of Arts ensures students are exposed to a broad range of educational experiences — from exemplary classroom and online instruction to community and global-based learning opportunities. Students can align their interests and create their own path with customizable degrees, taking one or more majors, multiple minors and certificates.

Teaching and Research Excellence
Faculty members bring their latest research into the classroom. After all, research in the social sciences, humanities and fine arts is essential to the advancement of our society — innovation is key to success! We can better understand the world we live in and find the tools to improve it. Arts is keeping pace with changing technologies and contributes to the well-being of our city, our province and our world.

BY THE NUMBERS

Our People
- 700+ faculty members and academic teaching staff
- 104 staff
- 7,000+ undergraduates
- 700+ grad students
- 1 in 5 Arts undergraduates are international students
- 50,000+ alumni
- 325 undergraduate Indigenous students

Experiential Learning
- 300+ students study abroad annually
- 1,500+ students complete community service-learning projects
- 100 students study at our school in Cortona annually
- 60,000+ hours worked by work experience students
- 240+ undergraduate students enroll in work experience annually

300+ STUDENTS STUDY ABROAD ANNUALLY
240+ UNDERGRADUATES ENROLL IN WORK EXPERIENCE ANNUALLY

ARTS INDIGENOUS COMMUNITY
Our faculty is diverse, with a strong commitment to Indigenous students, research, teaching and learning, community engagement and language revitalization. Arts supports Indigenous initiatives and is dedicated to hiring and featuring Indigenous scholars — several scholars who identify as Indigenous are in our departments.
The University of Alberta has more than 1,800 Indigenous students, with more than 300 in our faculty. Arts has the second largest Indigenous student community on campus!

Designated Space for Arts Indigenous Students
4-65 Humanities Centre is a student space dedicated to the arts Indigenous community. Meet with friends, have lunch or read a book — it’s a cozy, welcoming spot for Indigenous students to relax between classes.

Indigenous Recruitment and Engagement Specialist
Our faculty has a dedicated support person for Arts Indigenous students to help ease the transition to university, provide academic advising and host engagement activities. The Indigenous Recruitment and Engagement Specialist is a unique position within the Faculty of Arts Undergraduate Student Services office and can help deliver valuable resources to students across campus.

Have a Question? Email arts.indigenous@ualberta.ca

THE ORGANIZATION FOR ARTS STUDENTS AND INTERDISCIPLINARY STUDIES (OASIS)
arts-oasis.com
OASIS is the student representative body within the Faculty of Arts, made up entirely of undergraduate students within the faculty. We ensure arts students’ voices are heard on all levels of university governance and offer programs, events, and services that make life on campus more enjoyable and accessible for everyone.
• Established in 2014
• 7,000+ undergraduate students
• Fosters Arts pride
• Creates an inclusive and welcoming community
• Provides services to enhance students’ time in the Faculty of Arts

HUSSAIN
BA - POLITICAL SCIENCE (HONORS) 2023/24 OASIS PRESIDENT
Coming into university, I knew I wanted to use my education to create positive change through improving the lives of individuals with disabilities. Studying political science at the U of A has been nothing short of rewarding. It is providing me with the knowledge and expertise I will need to fight for equity and opportunity in a society that excludes physically and neurologically unique individuals. If I could give one piece of advice to anyone looking to pursue post-secondary education, it would be to choose something you truly want to do. Things might seem difficult, but the one who perseveres is the one who succeeds. You can do it!

Hussain is a bilingual (English and Arabic) second-year Honors Political Science student beginning his thesis on the inequities in education and employment for individuals with disabilities. Hussain has cerebral palsy and creates and hosts an annual Cerebral Palsy Awareness Conference to inform and share a different perspective. Hussain loves playing and watching hockey (go Oilers!) and enjoying theatre performances.

Have a Question? Email arts.indigenous@ualberta.ca

7
My overall fear coming out of high school was my practicum in Program Evaluations with the Justice and Solicitor General that I completed just this semester. Going into this practicum was nerve-racking as I had no prior experience and there’s only so much one can learn within a classroom setting. But, it allowed me to apply my classroom knowledge and theories to real-world experiences and further develop my qualitative research and interviewing skills. Working one-on-one with clients navigating the legal system and hearing their stories first-hand was a valuable opportunity for me as it opened doors to a deeper understanding of how inequality plays a factor in navigating the complex legal system. Overall, my practicum experience allowed me to understand how important it is to be empathetic. If I could give one piece of advice to others: make use of any work experience, internship, or practicum opportunity that comes your way!

Waniza is a fourth-year Arts student pursuing a Criminology degree in the field-placement stream. She is also working towards a certificate in Applied Social Science Research. Outside of her studies, Waniza likes to experiment with film photography and is a huge foodie and loves trying new places around the city.
ANTHROPOLOGY

Anthropologists seek to understand the human condition by investigating biological, cultural, and linguistic diversity in populations. Anthropology provides perspectives on our origins, the immediacy of our lived experiences, global challenges and what kind of futures we face.

Our vibrant department has expertise in the four major subfields of the discipline of anthropology: archeological, biological, linguistic and cultural anthropology. Faculty members have deep knowledge in a range of societies and cultures, both past and present, including First Nations and Métis.

Course Examples
- Introduction to Archaeology
- World Prehistory
- Anthropology of Food
- Forensic Anthropology

HUMAN GEOGRAPHY

Human geography focuses on the relationships between human societies and their built and natural environments. Students learn about topics of real world concern and are challenged to think about how individuals, households, institutions and communities interact with and experience environments. Our professors have a wide range of interests —including cities, communities, hazards, housing, resources and sustainability. Their research takes them to all corners of Canada, and many other regions of the world.

Course Examples
- Cities and Urbanism
- Human Dimensions of Environmental Change
- Professional Planning Practice and Ethics

ECONOMICS

Economics is a social science that studies businesses, markets, governments, consumers, workers and all components that make up an economy. Economists research, analyze and interpret information as well as offer ideas for solutions and effective policies that contribute to a society’s well-being. Economics uses a well defined method of analysis, in conjunction with mathematics and statistics, to help make decisions in business and public affairs.

Course Examples
- International Economics
- Industrial Organization
- Money and Banking
LINGUISTICS

We offer comprehensive coverage of all major areas of linguistics, with the department actively involved in a wide range of data driven linguistic research. Our focus is the empirical study of language through observation, fieldwork, and experimentation, with many labs and research groups in areas spanning language technology, phonetics, comparative psycholinguistics, language acquisition and language documentation.

Course Examples
- Sociolinguistics
- Endangered Languages
- Psycholinguistics

POLITICAL SCIENCE

Political science is the study of power and governance. Where is it exercised? What happens when power is misused? How do we use power for good? Students are challenged to think broadly about the many different faces of power and the responsibilities of an engaged citizenship. Our classes equip students with knowledge and skills to address social problems in Canada and around the world. Students can also choose to minor in international studies.

Course Examples
- Ethnicity, Immigration and Social Policy
- Media and Politics in Canada
- Politics of Gender

PLANNING

Professional planners envision how cities, towns, and regions should develop in the future. They want built environments in rural and urban areas to develop in ways that promote sustainability, prosperity and a better quality of life for all. Our students get to engage with planning issues both inside and outside of the classroom, thanks to a dedicated planning studio space, a state-of-the-art digital imaging facility and co-op opportunities.

Course Examples
- Health, Space and Place
- Natural Resource & Environmental Management
- Land Use Planning and Policy

PSYCHOLOGY

Psychology is the scientific study of the brain and behaviour. Psychologists explore phenomena such as cognition, behaviour, emotion, language, learning, memory, development, and brain-behaviour relations, and many others. From that very first psychology course, students will be pulled into a world of fascinating and engaging topics. Our general courses build a strong foundation in the field and our diverse course offerings allow students to pursue areas they’re most passionate about.

Course Examples
- Developmental Psychology
- Abnormal Psychology
- Adolescent Development
SOCIOLOGY
Sociology is the study of the social aspects of human existence. How do social forces shape various identities, relations, and practices? Students work with leading scholars and outstanding teachers to learn about multiple interrelated facets of social life including gender and sexuality, families and communities, health and disability, race and racism, globalization and colonization, work and organizations, and natural and built environments. Students build knowledge and skills in research methods and social theory.

Course Examples
• Population and Society
• Social Movement
• Sociology of Youth

CRIMINOLOGY
Criminology critically examines relations of power — exploring how patterns of structural inequality influence who and what are labeled criminal and with what consequences. It informs decisions around processes of making laws, reintegrating offenders, building communities, developing sound policies and critically engaging with information about crime and punishment. Our experiential learning allows students to apply and extend their knowledge with real world situations.

Course Examples
• Youth, Crime and Society
• Criminal Justice Administration in Canada
• Deviance and Conformity

WOMEN’S AND GENDER STUDIES
Are you ready to ask big questions about the way that gender impacts how we think, how we live, and how we understand ourselves and others? Within Women's and Gender Studies (WGS) we place emphasis on the ways gender, indigeneity, race, class, age, sexuality, ability, and size work together. We are a hub for feminism, social justice studies and engaged citizenship at the University of Alberta.

Course Examples
• Representations of Girls and Women
• Feminism and Popular Culture
• Feminism and Sexuality

SOCIAL SCIENCES (CONTINUED)
CLASSICS
Our students dive into diverse and innovative courses from award-winning teachers and researchers. Together they explore the Ancient Mediterranean world through Greek and Roman history, art and architecture, archaeology, science and technology, myth and religion, philosophy, women’s studies, and literature. We offer Ancient Greek and Latin language courses at all levels, as well as field school opportunities.

Course Examples
• Warfare in Greco-Roman Antiquity
• Greek & Roman Mythology
• Women, Gender and Sexuality in the Ancient World

ENGLISH / WRITING STUDIES
Instead of reciting facts — discover, think and see in new ways! Students have access to internationally renowned professors and take courses spanning cultures, histories and perspectives. You can study Renaissance, Victorian, Canadian, Indigenous and children’s literature. Additional studies include popular culture, creative writing, film studies, new media and writing studies.

Course Examples
• Literature and the Environment
• Indigenous Literature
• Popular Culture

FILM STUDIES
Ready to understand the vast and complex media landscape of the 21st century? Students will develop a theoretical and historical perspective on the evolution of film and understand moving images as a medium of self expression and a carrier of cultural values. Our award-winning faculty bring expertise in many different cinematic styles and traditions from around the world, allowing students to explore genres that interest them most.

Course Examples
• Television from broadcasting to screen cultures
• Film and Technology
• Monsters, Slashers and Ghosts

EAST ASIAN STUDIES
As the only university department between Toronto and Vancouver devoted solely to the study of East Asia, we allow our students to build a solid foundation for a career involving this exciting and economically vigorous part of the world. Our department offers undergraduate and graduate programs in Chinese, Korean and Japanese language, linguistics, and literature. We also offer a range of courses on the histories, cultures, and religions of East Asia.

Course Examples
• Understanding East Asia
• East Asian Religions
• Interculturalism and East Asian Music

HISTORY
Our diverse and innovative courses, led by award-winning teachers and researchers, consider peoples, conflicts, experiences and ideas from across the world — from ancient times to the present. We examine topics ranging from religious to environmental history, intellectual to gender history, the history of colonialism to economic history, and more.

Course Examples
• War, Revolution and Society
• Pre-Confederation Canada
• Video Games, History and Storytelling

PHILOSOPHY
Philosophy is the critical study of ideas, experiences, and meaning. Philosophy is devoted to rational inquiry itself, rather than memorizing facts and received theories. Whether your inclinations are those of a mathematician, poet, scholar, or an activist, there is certain to be an area of philosophy that will grab your interest. Along the way, philosophy majors acquire a unique skill set and are exposed to national and international conferences that are hosted at the University of Alberta.

Course Examples
- Philosophy of Mind
- Risk, Choice and Rationality
- Ethics and Artificial Intelligence

We Offer Courses In:*
- American Sign Language (ASL)
- Arabic
- French
- German
- Italian
- Norwegian
- Polish
- Russian
- Swedish
- Spanish
- Ukrainian

MODERN LANGUAGES & CULTURAL STUDIES (MLCS)
Today’s students will be the leaders of tomorrow’s increasingly multicultural societies. MLCS helps students develop critical thinking in cross-cultural perspectives and hone their oral and written communication skills. Our award winning teachers and small classes offer individual attention and an in-depth language-learning experience where students discover how language, literature, and cultures are interconnected.

Course Examples
- Video Games Across Cultures
- Cultural Representations, World Media and Ethnic
- Folklore and the Internet

We Offer Courses In:*
- American Sign Language (ASL)
- Arabic
- French
- German
- Italian
- Norwegian
- Polish
- Russian
- Swedish
- Spanish
- Ukrainian

RELIGIOUS STUDIES
What is religion? How has it functioned in societies past and present? How do religious groups answer the enduring questions of human existence? We ask these questions and more as we take on the critical study of religious beliefs, practices, texts, institutions, and communities — with an interdisciplinary, non-religious and often comparative approach.

Course Examples
- Introduction to Buddhism
- The Qur’an
- Women in World Religions

HUMANITIES (CONTINUED)

MEDIA STUDIES
Learn how to navigate, analyze and critically evaluate today’s global media landscape. The core media studies courses introduce students to media theories and the history of various media — from Gutenberg’s printing press to Zuckerberg’s Facebook empire, from computer gaming and reality TV to fake news on Instagram. Topics also include the cultural, political and social contexts within which producers and users operate.

Course Examples
- Understanding Video Games
- Comics, Memes and Tattoos
- Contemporary Media Culture

SCIENCE, TECHNOLOGY & SOCIETY
We explore the role and impact of scientific and technological developments on human societies of past, present and future. Our program helps you to think critically about how social, political, and cultural values affect technological innovation and scientific research, and how research and innovations affect human life.

Course Examples
- Philosophy of Science
- Gender and Science
- Science Fiction Film

BA ENVIRONMENTAL STUDIES
Environmental studies focuses on the human and social dimensions of environmental issues using an interdisciplinary approach. You’ll get a uniquely nuanced understanding of environmental issues through our explicitly interdisciplinary approach, combining theories and practices from different disciplines including environmental history, politics, philosophy, and sociology. Students have the opportunity to align their coursework with the area of environmental studies that they are most interested in, and prepare themselves to be leaders of an environmentally sustainable future.

Course Examples
- The Plate, the Planet and Society
- Sustainable Development and Environmental Management
- Introduction to Global Change

FINE ARTS

ART & DESIGN
The Department of Art & Design is devoted to the practice, history and theory of the visual arts and design. Made up of three divisions — Design Studies, Fine Arts, and the History of Art, Design and Visual Culture — our department’s award-winning faculty and staff provide students with one of the best university educations available in North America.

Programs
- Bachelor of Arts (BA)
- Major/minor in Art & Design or History of Art, Design and Visual Culture
- Bachelor of Arts (HONORS)
- History of Art, Design and Visual Culture
- Bachelor of Fine Arts (BFA) in Art & Design (portfolio required)
- Four Studio Disciplines:
  - Painting
  - Printmaking
  - Sculpture
  - Drawing/Intermedia
- Bachelor of Design (BDES) (portfolio required)
- Visual Communication Design and/or Industrial Design
- Four Routes Of Focus Available:
  - Business/Marketing
  - Engineering
  - Social Sciences
  - General Route

DRAMA
Our drama department is a leader in Canadian theatre, recognized as one of the foremost theatre programs in Canada and home to a roster of expert faculty members with extensive professional credentials. Our Timms Centre is considered among the top five professional theatre training facilities in North America. Studio Theatre in The Timms Centre features the graduating BFA acting class ensemble in four shows over the year, representing the culmination of their training. Students from the technical and stage management programs work on all six plays, benefitting from the exceptional teaching opportunities the season provides.

Programs
- Bachelor of Arts (BA)
- Major/minor in Drama
- Bachelor of Fine Arts (BFA)
- Production (direct entry) or Acting (non-direct entry)
- audition, interview or portfolio required
- Bachelor of Design (BDES) (portfolio required)
- Bachelor of Design (BDES)

- Bachelor of Arts (HONORS)
- Drama
- Bachelor of Arts (Drama) / Bachelor of Education (Secondary)
FINE ARTS (CONTINUED)

MUSIC

Music covers a range of fields: the academic fields, including music history, music theory and world music studies; and the performance fields, mostly in classical music but also selectively in new music. We also offer courses to non-music students in music appreciation, basic theory and popular music history.

Programs
- Bachelor of Arts (BA)
  - Major/minor in Music
  - audition required for select courses
- Bachelor of Arts (HONORS)
  - Music
  - audition required for select course
- Bachelor of Music (BMUS)
  - audition required
  - Routes:
    - General Route,
    - Performance (Piano, Organ, Voice, Strings And Harp, Wind And Percussion),
    - Composition And Sonic Arts
- Bachelor of Music / Bachelor of Education (BMUS/BED) (Elementary or Secondary)
  - audition required

STUDY HONORS IN ARTS

Would you like to challenge yourself with independent study? Work closely with faculty mentors and connect with peers who have similar academic interests and passions? Gain research experience for graduate studies, or develop your writing and research skills for a professional career? Honors is your answer! We foster a tight-knit community of academically-minded undergraduate students who share ideas, collaborate, get mentorship from upper-year peers and access specialized support from department and faculty teams at every stage of their studies.

Consider honors the best way to dip your toe into the research process, develop connections with professors and other academics in your field, and get a feel for what graduate school will be like for you as you complete your undergraduate degree. If you’re interested in two different disciplines, consider a combined honors program. Programs are available in every department.

Get ready for the most academically challenging and enriching undergraduate experience!

CERTIFICATES

Complement Your Degree
Certificate programs can be completed in conjunction with your degree, allowing you to enhance your understanding of particular topics. Level up your credentials to assist you when you enter the workforce or pursue graduate studies.

COMMUNITY SERVICE-LEARNING (CSL)

What is CSL?
Learning comes alive by connecting academic coursework to community-based experiences. Students bring their time and talents to community organizations as part of their studies, challenging them to learn in fresh new ways and explore relationships between theory and practice.

uab.ca/csl

How Does CSL Work?
CSL is integrated into a course through an ongoing, collaborative process. Community partners describe their volunteer and research needs to us, and instructors design their course projects and goals to integrate these community-based experiences into the course curriculum for students.

What are the Benefits of CSL?
There are so many! Students develop personal, critical thinking and problem solving skills while enhancing their communication, collaboration and leadership. They will increase understanding of course material and learn to apply course material to new situations, gain hands-on experience in the not-for-profit sector and dive deeper into social issues and their root causes.

STUDY ABROAD

Learn Chinese in Harbin. Be a policy intern in Washington, D.C. Get your hands dirty on a dig in Greece. Give your design skills a try in Berlin. Test out your French skills in France. Escape winter for a year and go to Australia for a semester!

If you can dream it, there’s a good chance we have a study abroad program to make it happen. We have agreements with universities worldwide, as well as our school in Cortona, Italy, to offer you countless global-level opportunities.

More than 2/3 of our study abroad students receive funding to help them study abroad!

Students can now study at Cortona in their FIRST year!

uab.ca/cortona

ARTS WORK EXPERIENCE (AWE)

Arts Work Experience (AWE) gives our undergraduate students the opportunity to further develop and integrate the skills gained in the classroom with full-time, paid work experience positions. This program is open to Arts undergraduate students who have completed 30 to 105 units of course weight and have a minimum 2.3 GPA.

AWE is awesome:
• Receive Co-op designation on degree
• Apply the skills you learn at university in a workplace setting
• Gain invaluable experience and contacts in your future profession
• Develop interpersonal and professional skills
• Explore and evaluate future employment opportunities
• Earn an income!
• Bring a hands-on perspective to your studies
• Maintain your full-time student status for scholarship and loan repayment

The Faculty of Arts Work Experience Co-op Program is accredited by Co-operative Education and Work-Integrated Learning Canada (CEWIL). This accreditation demonstrates the faculty’s commitment to upholding the recognized standards for co-operative education experiences across the country by providing positive and enriching experiences for students and employers.
