

Student Spending Plan

AN (ALMOST) PAINLESS GUIDE TO MONEY MANAGEMENT

>> Creating a Student Spending Plan

Budgeting for your post-secondary education can be challenging; expenses like moving, vehicle repairs or prescriptions can arise unexpectedly and costs can be difficult to predict. Many first-year students are caught off-guard by unexpected expenses, which can really impact your studies. It's not easy to focus on school work if you're worried about money. Setting up a spending plan before you start school can help you manage your money and save you a lot of stress.

All that's required is a little organization and about an hour of your time each month to record, review and revise. Use the spending plan on the next page to identify your resources and expenses and create a student spending plan that begins with your first month of school and ends one month after your studies are done for the year.

If you're applying for government student loans, there are a few things you need to know about eligibility and allowable costs that will be covered before you start creating a spending plan. Check out the Students Finance section on the ALIS website(alis.alberta.ca/studentsfinance) and come back to this spending plan and tip sheet when you're ready!

>> Spending Tips for Students

Tip: Stay on track with your educational goals by creating a summer spending plan to guide you during the summer months.

Tip: Always have one or two months of expense funds saved for unexpected costs and unplanned income delays. It can take up to a month after you start a summer job before you get your first cheque. Tuition deposits are often due before loan certificates are cashed and RESP redemption forms can take 4-6 months to process.

Tip: GST cheques are sent out in October, January, April and July. Use these to cover unexpected expenses.

Tip: April tax refunds are a great way to pay off any debts incurred during the school year. Save extra refund money to supplement your fall income.

>> Available Resources to Help you Budget

EDULINX edulinx.ca

The EDULINX Entrance and Exit Counselling sessions will provide you with important information about the Alberta Student Loan process.

CanLearn canlearn.ca

An online resource providing information and services that help students manage their money. Includes an Education Cost Calculator, Budget Estimator, and Online Budget Planner.
