The state-of-the-art LPAC seats 580 and is completely solar powered! It is the first theatre in North America to use entirely LED lighting.

The Classroom Building & Science Extension houses the majority of our classrooms, our largest lecture theatre, faculty offices, and recently renovated science labs!

Founders’ Hall AKA “Old Main,” is Augustana’s signature landmark. While the building was renovated and modernized in 2014, the building’s architecture remains true to the original 1917 design by the school’s first principal, JP Tanberg.

The first year dorms or Hoyme coples was named for Inanda Hoyme who attended school here then later returned to teach. Hoyme is comprised of 3 halls: East for male students and Hoyme and West for female students. Residence is a great way to transition into life away from home and to meet your peers!

First Year dorms are card-locked for security and contain the essentials: bed, desk, bookshelves, lamp, drawers, closet space, and WiFi access.

The Auxillary Building or Ravine Studio contains some classrooms as well as our visual art studio as well as a practice space for our Augustana choir!

This statue entitled “Young Luther” depicts a young Martin Luther and is reminiscent of Augustana’s past Lutheran tradition. There is a student superstition that if you rub the top of his head, you’ll receive good luck for your exams.

This massive 3 piece installation is entitled “Augustana: Beyond a Certain Phrase”. The bell is used twice a year, once to ring in the start of our first years time at Augustana and again to ring out our graduating students!

Our Ravine residence is our senior student residence and consists of 6 buildings which houses 6-8 students per wing. This residence allows for a bit more privacy with the bathrooms being shared with only one other room.

Our state-of-the-art library contains over 130,000 titles, 75 study stations, self-checkout and 24 hour bookable focus group rooms. We also offer a peer-led writing center service to assist students in writing essays and reports.

The upper level of the library contains our newest study space: The Rashmi Bale Learning Commons that was dedicated in 2019.

In the lower level of our forum, our cafeteria is ready to serve you! The all-you-can-eat cafeteria meal plan serves 3 meals a day plus a snack in the evening and is included in residence fees. A computer meal plan can be purchased for lunch Monday-Friday for those who live off-campus.

The forum is the main traffic route for students at Augustana. It makes for a great place to study with our easily operable fireplaces or to hangout with friends at our cafe: Monica’s.

Our convocation center is the home of our Augustana Vikings! Come out to cheer on our Men’s and Women’s Basketball and Volleyball teams! Our coaches offices are located here as well as our fitness centre on the upper level. Located in the back of the convocation centre is our climbing which is student operated! To watch our Men’s hockey team, take the short trip out to the Encana arena.
