For generations, the foundation of Canadian business has been built on the commitment and determination of enterprising families.

The Alberta Business Family Institute is a place where business families receive guidance and tools to build on their success. Resources from around the world and our local communities assist our members to understand the unique dynamics of business families.

The Institute is "run by families for families." It provides a direct link between business families and the research and study of family enterprise at the University of Alberta's School of Business, Centre for Entrepreneurship and Family Enterprise.
