We work with you on your post-secondary recruitment needs

Connect with Alberta’s best and brightest through the University of Alberta (U of A) Career Centre. We help small, medium, and large employers—local, national, and international—recruit and hire U of A students, postdoctoral fellows and alumni. We have adapted our services to be delivered remotely in response to these challenging times so that you can continue to connect with U of A students and graduates.

Post a Job

The Career Centre’s online job board, campusBRIDGE, provides a single location for employers to post jobs (permanent, summer, temporary, gig opportunities, work experience/internship) for students and alumni from all faculties and levels of studies. There is no cost to post. Posting jobs at campusBRIDGE is an excellent way to advertise your employment opportunities to U of A students and graduates. Submit your job postings at campusbridge.ualberta.ca

Career Fairs

Career fairs are a cost-effective way to gain access to bright employee prospects and raise campus brand awareness. We will take care of all the organizational details including advertising to the target groups of students. For the 2020-2021 academic year, the Career Centre will conduct all career fairs virtually.

2020–2021 Career Fairs

Career Days—Science, Technology, Engineering, Math:
Wednesday, Oct. 7, 2020, 10:00 a.m. – 3:00 p.m.
• Engage with students from Science, Technology, Engineering and Math (STEM) disciplines.

Pharmacy Career Fair:
Friday, Nov. 6, 2020

Summer Job Fair:
Friday, Feb. 9, 2021

Education Career Fair & Foire d’emploi en Éducation:
Monday, Jan. 25, 2021, 10:00 a.m. - 3:00 p.m.

Career Days—Humanities, Social Sciences, Business:
Thursday, Oct. 8, 2020, 10:00 a.m. – 3:00 p.m.
• Engage with students from the Humanities, Social Sciences and Business disciplines.
Employer Information Sessions

Connect directly with students and alumni through employer information sessions. Hosting an information session helps you build brand awareness of your organization and allows students the opportunity to explore possible career options with your company.

We can coordinate all event logistics and planning or support you in the promotion of an upcoming event. Employer information sessions booked for September to December will be hosted virtually.

Internship and Work Experience Programs

Hiring U of A students through the Career Centre’s internship and work experience programs allows organizations to fill their short term hiring needs while potentially adding to their future talent pool. The internship programs provide students with valuable workplace experience where they can apply their education and skills. All internship and work experience programs at the U of A are adjusting during these difficult times to ensure the best outcomes for students and employers.

The Career Centre coordinates the following internship and work experience programs:

- **Accessibility Work Experience Program (AWEP)** provides meaningful employment opportunities for U of A students and recent graduates who have permanent disabilities and/or mental health diagnoses. A wage subsidy is available.

- **Arts Work Experience (AWE) Program** offers 4, 8, 12, or 16-month paid internships for current undergraduate students in the U of A Faculty of Arts.

- **Agricultural, Life and Environmental Sciences (ALES) Internship Program** gives U of A ALES students opportunities to apply knowledge gained in academic studies to the workplace through a full time, paid 4, 8, 12 or 16-month internship experience.

- **Graduate Student Internship Program (GSIP)** provides flexible, short-term paid work experience opportunities for U of A graduate students.

Looking for other ways to engage with students and alumni?

Take part in our virtual Career Exploration Interviews (CEI) and provide new professionals with the support you had (or wish you had) when you started your career.

Become a mentor in our Career Mentoring Program. Through mentoring relationships, students and postdoctoral fellows develop and enhance the skills, knowledge, attitudes, and connections they need to transition into the world of work.
