

HOW TO STAY SAFE ON CAMPUS

We're closely following public health measures and cleaning standards, but we need your help to minimize any risks.

BEFORE YOU GO, PLAN AHEAD

Health check. Use the COVID-19 Alberta Health Daily Checklist. If you're feeling sick, stay home, notify your supervisor or instructor, and follow Alberta Health Services advice.

Minimize time on campus. Travel directly to your destination—your classroom, lab, or office. Take advantage of remote student and campus services.

Stay informed. Visit [UAlberta.ca/COVID19](https://ualberta.ca/COVID19) regularly to learn what resources or safety protocols apply to you.

Support accurate tracing. Use Here@UAlberta and the ABTraceTogether mobile app to help prevent the spread of COVID-19 while protecting your privacy.

WHILE ON CAMPUS

Practice good hygiene. Wash or sanitize your hands before and after touching surfaces.

Keep your distance. Stay at least 2 metres (about the length of a hockey stick) from people outside your household or cohort.

Wear a mask. Face masks are mandatory in all indoor common spaces, classrooms, labs and meeting rooms. Follow all PPE protocols for your work area.

Be patient. Don't overcrowd shared or enclosed spaces like elevators, washrooms, and hallways.

Follow provincial gathering limits. Most on-campus events have moved online.

When in doubt, look for the official campus safety signage nearby.
Coming back to campus safely. [UAlberta.ca/COVID19](https://ualberta.ca/COVID19)
