

UAH/MAZ/KEC/AKC-N/Stollery 2026 Site Seasonal Immunization Campaign

INFLUENZA SEASON IS UPON US AND THAT MEANS SO IS OUR SEASONAL IMMUNIZATION CAMPAIGN!!

- ❖ **The Immunization Campaign will launch Oct 13- Nov 6.**
- ❖ **Protect yourself. Protect your patients.** Without vaccination, you are vulnerable to influenza and can unknowingly spread it to those in your care.
- ❖ **Feeling well doesn't always mean you're not infectious.**
- ❖ **Save time by getting both your COVID-19 and influenza vaccines in one visit.** The vaccines are given as separate doses and can be safely administered together.

Don't forget:

- **Employee ID + PHN (Personal Health Number)** are required for immunization. Your PHN can be provided from a card, photo, or by verbally confirming the number.
- **On-Site Rexall Pharmacy at UAH and KEC** – Campaign Dates: Oct 19-Oct 30
 - Open to staff and the public through one of their kiosks.
 - **Vaccines available: Regular Dose & High Dose Influenza, COVID-19**
 - If you receive your influenza vaccine through Rexall Pharmacy Please remember to submit your immunization through **GOT MY SHOT** so your record can be updated.

Site Influenza Immunizers

- We will have stationary pop-up stations throughout the site to assist in immunizing all Staff and Physicians.
- Hours will vary by program.
- They will encompass days, evenings and weekends!
- Immunization hours will be adjusted to accommodate night staff.
- **NEW:** The immunizers will be administering **both** the influenza vaccine and COVID-19 vaccine from their carts

WHS Clinics

- WHS clinics will be offering **both** the influenza vaccine and COVID-19 mRNA vaccine to workers at sites across the Edmonton corridor.
[Clinic Schedule Look-Up Tool](#)
