Dr. Svetlana Komarova

Professor, ENG Biomedical Engineering
Chair, ENG Biomedical Engineering

Gravity's Grip: Space Physiology of Bone and Vascular Adaptation

CAB 239

Thursday February 26th, 2026

3:00pm - 4:00pm

Join the Institute for Space Science, Exploration, and Technology for our brand new seminar series. This month, "Gravity's Grip: Space Physiology of Bone and Vascular Adaptation" by Professor Svetlana Komarova will explore cutting edge research from the Biomedical Engineering Department. Make some space for us in your afternoon, learn everything you've always wanted to know about the interaction between gravity, bones, and joints, and meet the other far out members of the space exploration community at the U of A!
