

Bachelor of Science - Major in Psychology - Program Planner (as of Fall 2024)

There are 40 lines in this chart, you need 40 individual courses to complete your degree.

Each course is *3 units = *120 units for a degree.

You can use a course for more than one purpose but only on one line.

Example:

| Requirements | Course Taken | SCI | 100 level |
|-----------------------------|-------------------------------|-----|-----------|
| PSYCH 105 | PSYCH 105 (record class here) | | 3 |
| Any 400-level SCIENCE PSYCH | PSYCH 471 | 3 | |

| | |
|---|-------|
| <u>Please double check and indicate your totals:</u> If you go over the maximum number of units, the extra course will not be counted towards your degree and will be declared "extra to degree" on your transcript. | Total |
| You must have at least *72 in Science courses (you can include Science PSYCH courses) | |
| You cannot have more than *42 at the 100-level (include all your courses) | |

Notes:
 If you are using a course listed elsewhere to fulfill the requirements of Communication/Writing, Breadth Outside of Science, Breadth Within Science or Indigenous Course please record an option in its place on the chart. For example, you can use PSYCH 223 to fulfill one of the Breadth outside of Science requirements (Social Sciences) - you'd record an option in its place. Or you could use BIOL 107 to fulfill both a Basic Science and the Field/Lab Experience course - only record it in one place, record an option in the other place.

++ Courses taken to satisfy Major/Minor/Honors requirements may also be used to satisfy these breadth requirements.
