

APPLICATION FOR LEAVE OF ABSENCE

STUDENT INFORMATION

Student Name	
Student Program	

A leave of absence is intended to support students experiencing extenuating personal circumstances beyond their control which impede their ability to contribute to their studies. Students may be granted a leave of absence from an academic program for any of the following three reasons: parental leave, medical leave, and compassionate leave. A compassionate leave of absence is not intended to cover circumstances related to course scheduling, employment, or financial concerns. During the leave of absence period, students are relieved both from making progress towards completing the requirements of their program and from paying program fees. Students cannot complete practicum hours, consult with Faculty Advisors/Supervisors, or do any academic work toward their program while they are on a leave of absence. During a leave of absence, students are not permitted to take courses at St. Stephen's College, nor will any course work done at another institution be accepted for transfer into a St. Stephen's program. The time limit for completion of the degree will be extended by the duration of any approved leave of absence. **Students returning from a leave of absence are required to meet with their Program Chair to review their academic goals.**

Length and Timing: Once granted, the start date for a leave of absence must coincide with one of the following quarterly dates: (1) July 1, (2) October 1, (3) January 1, or (4) April 1. A leave of absence will be for a period of not less than six months and usually not more than 12 months. If at the point of going on leave, a student has outstanding coursework for a course taken prior to the leave start date, the student will be required either to (a) complete that coursework (if they are able) in accordance with due dates as outlined in the course syllabus, (b) request a course extension (so long as the duration of the leave aligns with the permitted timeframe of a course extension), or (c) petition for a Withdrawal with Cause from the course. As set by Immigration Canada, **international students are not permitted to take a leave of absence longer than 150 days**, and they cannot work during a leave of absence period. A leave of absence will not be granted retroactively to previous quarters and students will be considered for a leave of absence only if their program fees for the previous fiscal bi-annual period have been paid in full. A second request for a leave of absence will be considered only in exceptional circumstances. If at the point of coming off of leave, the student wishes to take a course within their first month back, that student will be permitted to receive the course syllabus one month prior to the course start date and to complete all pre-course readings and assignments, even when those requirements fall within the last month of the student's leave of absence.

Financial implications for students in the tuition model consisting of four years of program fees followed by a continuation phase:

Leave of Absence during first four years of Program: If the annual program fee has already been paid for the academic year in which a leave of absence is granted, a refund will be issued to the student based on the number of months of leave (either 6, 9, or 12 months). If the annual program fee has not yet been paid in the academic year in which a leave of absence is granted, the student must pay a prorated amount, equivalent to the months of active status. The program fee payment schedule will be extended by the duration of any approved leave of absence. The amount of program fees equivalent to the leave period will be deferred to either: (1) the first year of the student's Continuation Phase (the continuation fee will be reduced accordingly), or (2) before graduation (in cases when the student graduates before reaching the Continuation Phase).

Leave of Absence during Continuation Phase: If the annual Continuation Fee has already been paid in the academic year in which a leave of absence is approved, a refund will be issued to the student for the number of months of leave approved (either 6, 9, or 12 months). If the annual Continuation Fee has not yet been paid in the academic year in which a leave of absence is requested, the student must pay a prorated amount (equivalent to the months of active status).

Financial implications for students in the tuition model consisting of a flat annual program fee with no continuation phase:

If the annual program fee has already been paid for the academic year in which a leave of absence is granted, a refund will be issued to the student based on the number of months of leave (either 6, 9, or 12 months). If the annual program fee has not yet been paid in the academic year in which a leave of absence is granted, the student must pay a prorated amount, equivalent to the months of active status.
