The FEM+ Program is a 7-month mentorship for high school students who are women, feminine-presenting or identifying, and non-binary, that are interested in exploring all the possibilities within engineering (or are unsure, or considering several programs)!

- Be mentored by a current student in the Engineering at Alberta program
- Attend group info sessions and social events
- Meet others interested in engineering
- Find out if engineering is a program and career you'd like to explore
VIRTUAL EVENTS

Info Sessions:
- “What Even is Engineering?”
- What Courses to Take in High School
- Application to University Help Session
- Real-World Application of Engineering (Work Experience, Co-op Program, Research & More!)
- How to Make your Scholarship Application Stand Out (and How to Apply for Scholarships)
- Being a Member of an Underrepresented group in Engineering
- Academic and Mental Health Resources
- Areas of Engineering

Social Events:
- Online Pictionary
- Jackbox Games
- Tie Dye Event
- Sharpie Mug Art
- Zoom Yoga
- Paint & Draw Night
- Trivia Night
