We are each committed to providing high quality research and education in a safe and healthy work environment.

_I understand that I am responsible for the health and safety of all individuals working in my classrooms, laboratories, other work sites on university property, and field research sites. I am the supervisor of this operation._

As a supervisor, I will comply with all university and legislative policies and regulations:

- I understand my obligations as a supervisor under the Occupational Health and Safety Act (OHS) Chapter O-2.1 Part 1 Section 4.
- I understand the University of Alberta Policies and Procedures (UAPPOL), relating to my responsibilities as a supervisor under the Environment, Health, and Safety policy.
- I will assess all hazardous work under my supervision, and ensure hazard assessments and Safe Work Procedures and Standard Operating Procedures are available and up to date.
- I will ensure hazard assessments are completed before my workers start new tasks.
- I will ensure all workers review and understand the hazards associated to their work, under my supervision.
- I will ensure all workers under my supervision use all hazard controls, and properly use or wear personal protective equipment designated or provided by me or required to be used or worn by the OHS Act, the regulations or the OHS code,
- I will ensure workers have completed all required safety training and maintain currency.
- I will ensure my field research activities are registered and approved, and a Field Activities Plan is created prior to research.
- I have completed the Environment, Health, and Safety Supervisory Professional Development training. In addition, all my lab supervisors will be required to complete this mandatory training and will ensure that they have done so.
- I understand that I am legally required to report any concern(s) about an unsafe or harmful act that occurs or has occurred with any worksite using the University of Alberta incident-reporting portal.

This pledge is my personal and professional commitment to safety at my work site. I understand that my laboratory, classrooms, and workspaces are my work site, and I am legally and ethically liable for any unsafe work practices or activities.

_Engineering at Alberta_ is committed to a collaborative work environment. You can reach out to the Faculty Safety Advisor (Syed Biyabani via email: biyabani@ualberta.ca) for assistance with any health and safety concern or OHS code requirements.
