   - Temporary Measures, Undergraduate International Enrolment

Presenter(s): David Turpin, President and Vice-Chancellor, Chair of GFC Executive Committee; Andrew Sharman, Vice-President (Facilities and Operations); Melissa Padfield, Vice-Provost and Registrar

Discussion:
The Chair spoke about the university’s response to the COVID-19 pandemic. He noted that this was a time of uncertainty and that the university was making every effort to model the best behaviour possible as events unfolded in real time.

The Chair listed the measures that had been taken to date, including: convening the PHRT, suspending in-person delivery of classes and exams; initiating online delivery of all classes; suspending university related travel outside of Canada; asking students abroad to return to Canada; suspending campus events; and the Faculty of Graduate Studies and Research modified guidelines for remote candidacy and oral exams.
The Chair also acknowledged the challenges to students and staff as a result of the province's cancellation of K-12 schools and daycare services and emphasized the need for understanding and support for each member of the community.

Andrew Sharman, in his role as Executive Lead of the university's crisis response, spoke to: directives from the federal and provincial government; the requirement for clear lines of authority and communication for critical operations; residence operations; concentrated cleaning and disinfecting of areas in use; the closing of fitness centres; financial services; exams; spring convocation; and communication through updates to the university website and various social media posts.

Melissa Padfield, in her role as the Chair of the Covid-19 PHRT Subcommittee on Academic Impacts, noted that the subcommittee was currently working to address syllabus adjustments needed for the change to online delivery, and to help to coordinate communications to instructors and students.

The Chair concluded that the top priorities for the university were the health and safety of the community, and maintaining academic integrity while allowing students to progress in their programs.

DISCUSSION ITEMS

7. University of Alberta Non-Credit Credential Framework - Micro Credentials
Materials before members are contained in the official meeting file.

Presenter(s): Tammy Hopper, Vice-Provost (Programs)

Purpose of the Proposal: To discuss and receive feedback on the proposed development of a Non-Credit Credential Framework for approval by GFC.

Discussion:
Dr Hopper explained the work of the task force and noted that they hoped to have a framework in place by the summer.

Members discussed: the need for consistency across the university for both internal understanding, and for communicating to those outside the institution regarding University of Alberta standards; that Extension certificates require governance approval and that in the interest of fairness, legitimacy, and consistency, governance approval should be required for all certificates; balancing the time required for a certificate to seek governance approval with the legitimacy added by said approval; the efforts currently underway to streamline program development and approval processes; the importance of administrative and governance oversight in regard to the university's brand; and the fact that non-credit credential approval would stop at the appropriate GFC committee and not require Board of Governors or Ministry approval.

8. Budget (no documents)
   - Update
   - Investment Management Agreements

Presenter(s): Steven Dew, Provost and Vice-President (Academic)

Discussion:
Dr Dew outlined the impact of the provincial budget on the university's budget and the resulting changes that were required.
Members discussed: that there would be no additional changes to tuition, fees, or residence rates; restructuring changes that would be necessary because the university’s current organizational structure could not be sustained; the impacts of the new budget model to Faculties; challenges with the required format of financial reporting and the Ministry’s consideration of research and endowment funding; and efforts to communicate concerns with government.

9.  Question Period (no documents)

Presenter(s): David Turpin, President and Vice-Chancellor, Chair of GFC Executive Committee

Discussion:
A member asked a question about why the University of Alberta had been given a larger than average cut to their provincial funding.

The Chair responded that the message from the government was that the cut was based on the average funding per student across institutions. He noted that discrepancies could have been exacerbated by not accounting for differences in expenses: for example: between an Arts degree and a Medical degree. He also noted that the university had asked to see the calculations used to make these decisions but had not been seen the data yet.

A member asked about inconsistency in messaging across the university regarding responses to COVID-19.

The Chair noted that there were efforts underway to coordinate information and messaging across the university.
