The Chair invited Dr. Huang to provide a high-level overview of the International Strategy Implementation Plan. During her overview Dr. Huang confirmed the following:
that the plan is an evolving living document, with multiple phases; and
that the plan will be modified over time with oversight from the steering committee.

Member questions included:

• A request for clarification on how the plan will align with performance-based benchmarks recently implemented by the Ministry of Advanced Education;
  o The Chair confirmed the only intersection between the two matters arises in the international enrolment section of the Integrated Management Agreement.
    ▪ He further offered that the plan is intended to be an internal strategic document and that the question of alignment was likely premature.
  o A request for clarification on why some parts of the plan were more developed that others, particularly objectives 2 and 3 dealing with international research and faculty engagement;
    ▪ Whether there were any specific targets, at this time, in relation to the aforementioned objectives; and
    ▪ Whether there will be a focus on international undergraduate student enrolment as a method to increase international enrolment.
      • In response, the Chair reconfirmed the plan is phased, likely prudent given the inherent uncertainty with the Covid-19 Global Pandemic.
      • He then invited Dr. Huang and Mr. Weir to add any additional commentary:
        o Dr. Huang reiterated this is a working document.
        o Mr. Weir confirmed the purpose of the document is to identify opportunities at the institutional level and not to constrain individual Faculty decisions.
• In relation to Objective 5, the Student Union President asked whether there are any tangible plans at this time, to target students;
• In relation to Objective 10 – a member asked for clarification regarding the composition and responsibilities of the steering committee;
