Before opening the meeting the Chair read the following territorial recognition:

The University of Alberta resides on Treaty 6 territory and the homeland of the Métis. This territory is a traditional gathering place for diverse Indigenous peoples whose histories, languages and cultures continue to influence our community. To acknowledge the territory is to recognize the longer history of these lands. The acknowledgement signifies our commitment to working in Good Relations with First Nations, Métis and Inuit peoples as we engage in our institutional work, uplifting the whole people, for the University for Tomorrow.

6. Health and Wellness Surveys (no documents)

Presenter(s): Kevin Friese, Assistant Dean, Health and Wellness, Office of the Dean of Students

Discussion:
K Friese noted that there was a need for additional data on the health and wellness of students and that to present, there are only smaller or micro-level methods used for collection. COSA was informed a new survey will be implemented in the University of Alberta in the coming year with survey topics such as mental health, exercise, food security, addictions, and substance abuse. The survey will run for two consecutive years to account for outlier data based on the experience of students during the COVID pandemic. The data will be used to inform decisions on programming and to provide a clearer overview of the student perspective over time.

Committee members asked about health and wellness services and uptake across the University which has increased since the early months of the pandemic with the support of partnerships with student groups. COSA members discussed the significant rise in use of mental health services and counselling and community health supports across the University.

Presenter(s): Kate Peters, GFC Secretary and Manager, GFC Services

Discussion:
K Peters thanked members for their work over the 2021-2022 academic year and asked members to review the COSA terms of reference. In particular, members discussed the possibility that a proportion of student members on COSA could be optionally members of GFC. Rationale for making this change was discussed including the need to respect the workload of student members of GFC, the approach to composition of student members on GFC Standing committees more generally, and the need to ensure that student representatives are balanced.

COSA then discussed meeting format and K Peters asked for feedback on the hybrid meeting format. Members discussed the need for a discussion on principles for meeting format for GFC and its standing committees and that the University was an in-person institution. Students related the desire to have some options for example to accommodate students who are on field placements to ensure inclusivity of student members while allowing them to meet their academic obligations.
