The following Motions and Documents were considered by the GFC Facilities Development Committee at its Thursday, September 23, 2021 meeting:

---

**Agenda Title:** Long Range Development Plan Amendment 2021 (South Campus Sector 14)

**CARRIED MOTION:**
THAT the GFC Facilities Development Committee, under delegated authority from GFC, recommend that the Board of Governors approve the removal of South Campus – Sector 14 (Section 6.2.2) from the Long Range Development Plan 2002.

---

**FINAL Item 5**
Governance Executive Summary
Action Item

| Agenda Title | Long Range Development Plan Amendment 2021 (South Campus Sector 14) |

Motion
THAT the GFC Facilities Development Committee, under delegated authority from GFC, recommend that the Board of Governors approve the removal of South Campus – Sector 14 (Section 6.2.2) from the Long Range Development Plan 2002.

Item
| Action Requested | ☐ Approval  ☒ Recommendation |

Proposed by Andrew Sharman, Vice-President (Facilities and Operations)

Presenter(s)
- Emily Ball, Director, Community Relations, Government and Community Relations, External Relations
- Ben Louie, University Architect and Director, Campus Planning and Space Optimization, Integrated Planning and Partnerships, Facilities and Operations.

<tbody>
<tr>
<td>The Purpose of the Proposal is (please be specific)</td>
<td>To amend the university’s Long Range Development Plan (LRDP) by removing Sector 14, located on South Campus.</td>
</tr>
<tr>
<td>Executive Summary (outline the specific item – and remember your audience)</td>
<td>Development of university lands is governed through the Post-secondary Learning Act (PSLA) by means of a Long-Range Development Plan (LRDP). An LRDP guides the planning and development over a 30-year window, directing physical growth at campus sites across the university. An LRDP is derived from, and is responsive to, the university’s strategic directions and is, therefore, a flexible document that is amended as substantial alterations are made to the university’s guiding directions. The PSLA also outlines the consultation process required for amending an LRDP including a defined consultation protocol. As changes to the LRDP are made over time, the original 2002 document remains physically unchanged, but amendments are posted to the Campus Planning website: <a href="https://www.ualberta.ca/vice-president-facilities-operations/planning/office-of-the-university-architect/campus-planning/index.html">https://www.ualberta.ca/vice-president-facilities-operations/planning/office-of-the-university-architect/campus-planning/index.html</a> The university has received approval from the Government of Alberta to transfer Sector 14 to the University of Alberta Properties Trust Inc. (UAPTI) for future development, although such a transfer has yet to occur. Sector 14 is currently zoned as an Alternate Jurisdiction and planned under section 6.2.2 of the University of Alberta Long Range Development Plan 2002. At the point Sector 14 is transferred to the UAPTI, it would no longer be appropriate for its use to be guided by the LRDP. Rather, it will fall under the municipal zoning regulations and any development will follow the municipal planning and development process. As a result, it is necessary to delete section 6.2.2 of the University of Alberta Long Range Development Plan. This would be the</td>
</tr>
</tbody>
</table>
second instance of the University of Alberta removing a parcel of land from its LRDP. The first will be the transfer of Michener Park to the UAPTI.

The Board of Governors has the authority to amend the LRDP. If approved, the Board of Governors will submit a package to the Minister of Advanced Education including details of the consultative process. The role of the Minister is to ensure the university has met the obligations of the government’s community consultation protocol; not to approve the amendment itself.

A summary of the university’s community consultation is included in Attachments 2 and 3.

**Supplementary Notes and context**

Consultation Report

The University of Alberta (U of A) follows the Post-Secondary Learning Act (PSLA), which outlines the consultation process required for an amendment for the Long Range Development Plan (LRDP). The university also follows a consultation protocol outlined in Appendix 18 of the LRDP, which was submitted to the Minister in 2004. An outline of community engagement and how the U of A fulfilled the consultation requirements outlined in Appendix 18 is demonstrated below.

Appendix 18 Processes and U of A Actions

Appendix 18 states:

Long Range Development Planning and Amendments

a) When the University undertakes a new Long Range Development Plan, or amends its existing LRDP, owners of land within 60 metres of the University's land and the host municipality will be notified. Such notification will include date, time and location for an information session to present the conceptual plans, or substantive changes, and an invitation to review, and comment on the planning, in writing 21 days following the presentation.

I. U of A action - The U of A mailed letters of notification to owners of land within 60 metres of the U of A South Campus which contained the date, time and location for an information session (open house) to present the amendment for South Campus – Sector 14 and an invitation to review, and comment on the amendment in writing 21 days following the presentation (open house). The University also e-mailed letters of notification for the open house to the host municipality, The City of Edmonton. The mailing list was identified by the City of Edmonton, Urban Form and Corporate Strategic Development, City Planning, according to homeowner title information. The letters to residents 60 metres of the University of Alberta South Campus and the City of Edmonton were mailed to allow two-three weeks advanced notification.

b) Notification will take the form of a directed letter to each identified stakeholder in a). The planning document will be available through the communications website of the University.
I. U of A action – The notification in section a) indicated where information for the amendment planning document could be found on U of A website. Please note additional communication tools were used to advertise the June 29, 2021 open house:
   i. Portable road signs were placed in two locations two weeks prior to the open houses advertising the open houses.
   ii. An advertisement was placed in the Edmonton Journal newspaper on June 7, 2021 advertising information about the June 29, 2021 open house.
   iii. Information about the open house was placed on the U of A website on the Community Relations website and the main U of A homepage under Events.
   iv. Letters of invitation to the open house were also emailed to:
      • Councillor Michael Walters, City of Edmonton
      • Member of the Legislative Assembly of Alberta for Edmonton – Riverview, Lori Sigurdson
      • Member of Parliament for Edmonton Strathcona - Heather MacPherson

c) Following this presentation the University shall publish, within a newspaper, newsletter or publication circulating in the areas in which the University’s lands are located, notification of the public of its opportunity to review the proposed LRDP, or amendments, and comment upon it (them). The proposed plan/amendments will be available upon the University’s communications website. Comments will be received in writing up to 21 days of the notice.

I. U of A Action - An ad was placed following the June 29, 2021 open house (which presented the amendment) in the Edmonton Journal newspaper on June 30, 2021 inviting the public to review the proposed amendment and provide comments indicating input would be received in writing up to 21 days of the notice/ad. The proposed amendment was made available on the University’s communications website. Portable road signs were placed in two locations on June 30, 2021 for 21 days providing information on where to find the June 29, 2021 open house information and invited the public to view and comment on the materials presented at the open house.

d) University administration will prepare a summary document that they believe accurately reflects the major concerns and comment expressed. This document will be reviewed by the stakeholders identified in a), and will be modified until agreement is reach on accuracy. During the planning stage, these concerns will be considered.
I. U of A action – A summary document from the June 29, 2021 open house (which presented the amendment) that reflected the major concerns and comments expressed from stakeholders was mailed to stakeholders identified in a) on August 6, 2021 with an invitation for stakeholders to send in comments regarding the summary document by August 27, 2021.

e) Recommendations to the Board of Governors with respect to the LRDP and/or its amendments will include the consultation summary documents(s), and a document highlighting how administration has used these comments to develop the Plan and recommendations.

I. U of A action – Attached please find the summary document and information on how administration will use the comments from the June 29, 2021 open house to further develop the amendment.

f) Upon Board of Governors approval, the LRDP and/or amendments will be sent to the Minister for review and confirmation that the contents of the amendment/LRDP comply with the Regulations of the Post-Secondary Learning Act.

I. U of A action – Once the LRDP Amendment is approved by the Board of Governors, the amendment will be sent to the Minister of Advanced Education for confirmation that the consultation process has been followed.
University of Alberta  
South Campus – Sector 14  
Long Range Development Plan Amendment  
Open House  

Tuesday, June 29, 2021  
5:00 – 8:00 p.m.  
Foote Field, Multipurpose Room  
11601-68 Avenue  

Summary of Comments

Approximately 70 attended the open house

45 comment forms submitted

2. If you chose “Other” above, please tell us about yourself.

   Resident of Grandview Heights, BPE '64 - currently love to walk on the farm
3. Please check the age category that describes you.

4. How did you hear about this open house?
5. Are you familiar with the purpose of the South Campus - Sector 14 Long Range Development Plan Amendment?

6. Did the material that was presented explain the purpose of the South Campus - Sector 14 Long Range Development Plan Amendment?

7. Please provide comments regarding Board #2. Board #2 contained information regarding the purpose for the June 29, 2021 open house and an explanation of what a long range development plan (LRDP) is.

Open house logistics, communication:
- Map is inaccurate and therefore misleading. Unsure which one is board #2. Not really a question - the board states what is being proposed. Obvious and process. LRDP's are seemingly meaningless as amendments and amendment to amendment are always available.
• Explains that the amendment is to transfer the West 240 to the UAPTI. Clear, good explanation. Clear and concise.
• Usual vague description with no real details.

Do not approve of transferring Sector 14 to UAPTI:
• Sector 14 needs to remain a U of A asset, or be turned over to the City of Edmonton to be held in its inventory of parkland. Protect the majority of the 240 acre of land for agricultural use. The purpose of Section 14 was always educational. Sad to witness the slow demise of this unique resource over the past decade. The process to repurpose Sector 14 seems very rushed and unimaginative. The community leagues should be appointments to the UAPTI Board

Financial:
• It is clear the process that needs to be followed to move forward and the importance of balancing the needs of the neighbourhoods with the need for the university to create revenue. The TRUST will only answer and account to U of A. Money/profit first. Interesting to know how much the land is worth.

Faculty of ALES and research:
• Why does it needs to be transferred after all these years? Where will the things currently taking place on this land be moved to? Although research activities can be transferred to other areas they will not be near the University.

8. Please provide comments regarding the proposed South Campus – Sector 14 LRDP Amendment on Board #4. Board #4 highlighted 3 maps of Sector 14: map of Sector 14 from the 2002 LRDP, map showing the boundaries of Sector 14, map of the proposed LRDP amendment demonstrating that Sector 14 would be removed from the LRDP.

Positive move for the U of A:
• Great to hear that progress is being made to remove this sector and transfer this parcel to the UAPTI which hopefully will develop this land in a respectful manner that meets the needs of all stakeholders.

Presented information, communication:
• Map is inaccurate and therefor misleading. The community leagues should be appointed to the UAPTI Board. The Board does not explain why lands being used for a purpose central to the University's academic mission is intended to be transferred to an entity to development lands not central to the University's academic mission. There is no context provided about why sector 14 is being transferred to the UAPTI.
• Very clear. Very helpful. Vague on detail, though understandably so. Was reassured by attending staff.

Financial:
• You’re selling out pristine land for capital gain due to poor government support. The entire project is focused on generating income for the U of A - no vision. Premature - other options for generating liquidity should be considered. Very disappointed to see that the university is driven by money rather than preserving green space and a unique environment. Why not just say "we want to sell the land and realize $$".
Faculty of ALES and research:

- I think the University is being short-sighted in its plan to allow developers to take over this property. It is prime farmland and should be used for agricultural purposes. It is close to the University and therefore easy to access for students and professors working on the farm. I'm sure the Faculty of Agriculture has objected to your plans. Please reconsider this move. We need to preserve the best farmland in the area. Isn't the University supposed to be environmentally friendly? Don't really understand why all the research buildings are not part of the research land, e.g. poultry research is academic land. If these agricultural things aren't part of research, what is the classification for the Sector 14 land?

9. Please provide any further general comments you may have:

Loss to community:

- The loss of this parcel is going to be very hard on the surrounding communities who have grown to love and embrace the farm.
- I find value in having this beautiful peaceful farm as part of our U of A history and in our community. I come to walk and ski here as an alumni.

Financial, UAPTI, Michener Park development:

- Ideally Sector 14 would remain part of the LRDP as the university may ultimately regret the lack of land for expansion in the future.
- The amount of money the University expects to gain from selling this land was not disclosed. This is a one of a kind area within the city. It is disappointing the university's only plan is to replace it with yet more real estate development.
- The UAPTI was incorporated “to develop or re-develop lands deemed by U of A as not central to its academic mission of teaching and research.” The transfer of Michener Park from the University to the UAPTI was consistent with creation of the UAPTI. At the time of that transfer, Michener Park was being used for housing, which is a purpose not central to the University’s academic mission. Since continuing to use Michener Park for housing or to redevelop for another purpose would require substantial capital investment, the transfer was consistent with the purpose of the UAPTI and sensible as the alternative would have been to leave the property derelict.
- It is not explicitly clear how this is ‘for the public good’. This should be the overriding principle in this development, rather than ‘university bottom line $$’.
- Setting aside the inconsistency of the amendment with the purpose of the UAPTI, the decision to amend the LRDP is premature. The intention of the amendment is to permit Sector 14 to be developed for the same purpose as Michener Park. However, as Sector 14 is a greenfield site and Michener Park requires demolition, including environmental remediation, there is a substantial risk that the development of Sector 14 will proceed in advance of the redevelopment of Michener Park.

Sustainability

- All of south campus needs to focus on how can community groups be supported to explore, practice and teach various approaches to tackling food insecurity and the related poverty that goes along with it. I realize the U of A is facing major cutbacks,
but during this time it must realize it needs to play a leadership role in the
preservation of areas of the city that are easily accessible for activities that improve
the common goal of building community.

- My whole life I have lived beside the University. I have seen many University
schemes come and go-- including the takeover of Windsor Park (thwarted by
professors and doctors who worked for the U) and the expropriation of North
Garneau (which still has not been developed). Instead of developing Section 14 into
residential homes, I think you would do better to develop some of your other
property which is less arable.

Other:
- Very much in favour of this - having a world class, property funded University is a
tremendously positive thing for Edmonton and Alberta
- Looking forward to vision and planned development documents.

Response from neighbours residing within 60 meters of South Campus regarding the
June 29, 2021 Open House Summary of Comments document:

Two responses received:

- Thanks for the information that I received in today's post. I think your Office continues
to do a good job in holding Open Houses and in communicating with the relevant
Community Leagues and neighbourhoods. It is hard to address the problem facing all
open houses of receiving a wide range of input (positive alongside negative) and then
appearing to proceed with the original intention. Many local residents have
considerable sympathy for the economic plight of the UofA given the extensive cutbacks
imposed by the provincial government. However, I believe there is suspicion of the
UAPTI. This suspicion seems partly based on:
  o its role "developing university land for the public good" without much clarity in
    defining the public good.
  o the make-up of its Board with developers appearing to play a more explicit role
    than those potentially representing "the public good".
  o mixed responses regarding the University of Calgary's Properties Trust (I believe
    used as a model for the UofA) concerning accountability in its "arms length"
    distance from the University itself.
  o some rumours of turnover in board membership or dissatisfaction concerning
    the role they are expected to play.

Overall, many residents seem to have welcomed the delay in Westcorp's development
of a high rise on Golflands, and are happy that derelict buildings in Michener Park have
begun to be removed. LRT parking issues seem to have subsided in Lendrum (although
the move to online classes may have played a role in this), but there continues to be
disappointment that Sector 12 is not as based on "green" and smart growth principles as
was originally proposed--especially regarding parking (both the actual surface lots
around the Saville Centre and the proposed lots for the yet-to-be-funded ice arenas).

Several residents continue to express the belief that some of the University Farm land
was donated with the expectation that it was to be used for educational purposes, but
no-one seems to have come up with concrete evidence of this. There is also concern for the future of the Faculty of ALES with land for agricultural research becoming more remote from campus.

Sector 14's current use is certainly valued by local communities. I feel residents do understand the tug-of-war between the need for green space versus the need for urban infill. I would echo the views expressed regarding the significant need to balance the need of the UofA to obtain revenue with the community expectations regarding our environment. There are various examples in Edmonton of projects which mention sustainability and 21st century designs at the outset, but end up capitulating to developers seeking to continue 20th century ideas in terms of square footage, parking allocations, etc.

- Response from the City of Edmonton:

Good morning,

I have been asked by the City Manager's Office to provide you with the City's response to your August 13, 2021 email (University of Alberta Long Range Development Plan Amendment Summary of Comments).

We thank the University for providing the City with information and a summary regarding the June 29, 2021 Long Range Development Plan (LRDP) amendment open house. The City does not object to the proposed removal of Sector 14 from the LRDP. We look forward to early conversations about any development proposed for this area.

Kent Snyder RPP, MCIP
BRANCH MANAGER
PLANNING AND ENVIRONMENT SERVICES
URBAN PLANNING AND ECONOMY

University of Alberta response to comments from the June 29, 2021 open house and comments regarding the June 29, 2021 summary of comments:

All comments regarding the South Campus – Sector 14 amendment have been documented and will be forwarded to the Board of Governors for future considerations and decisions.

Once the South Campus – Sector 14 Long Range Development Plan amendment is approved by the Board of Governors and the consultation for the amendment is confirmed by the Minister of Advanced Education, the Board of Governors will consider a motion to transfer Sector 14 to the UAPTI.
