Dr Rodgers provided a high-level overview of the changes to the policy suite; framed the importance of the policy suite; highlighted the efforts of Provost-Fellow Malinda Smith and Senior Legal Counsel Jaxine Oltean in the completion of the work; and highlighted the Council’s responsibility in upholding the tenor of the policy suite.

Questions from members:

Presenter(s): David Turpin, President and Vice-Chancellor and Chair of GFC; Bill Flanagan, President-elect; Steven Dew, Provost and Vice-President (Academic); Gitta Kulczycki, Vice-President (Finance and Administration)
Discussion:
President-elect Bill Flanagan, presented the “University of Alberta for Tomorrow”, a strategy to transform the university to meet current challenges by changing how both administrative services, and Faculties, are structured.

He began his comments by thanking the community for the warm welcome he had received thus far and confirming his plan would be discussed in more detail at a Town Hall scheduled to take place on June 2, 2020.

He then explained how this strategy would put the university in an even stronger position to deliver on its mandate, mission and vision and proffered the importance of the plan as a solution to the funding crisis. Highlights of his presentation included:

- a review of the work completed thus far, in collaboration with international management consultancy the NOUS Group, using the UNIFORM system;
- an assertion of the yet untapped potential in realizing significant savings, the opportunities to expand new programs, and continue to attract students;
- an affirmation of the university’s commitment to equity, diversity, inclusion, and truth and reconciliation; and
- the confirmation that the process would move forward with transparency and extensive consultation;

He concluded his presentation by:

- asserting that the project scope must be pan-University with GFC, and the Board of Governors, playing a central role;
- challenging the university community to be open to different way of working; and
- confirming next steps would include setting up the governance structure of this work.

- A request for clarification on the current cost of retaining the NOUS group;
  - To which the Vice-President (Finance and Administration) responded less than $100,000.
- A request for clarification on why the necessary cuts, as depicted in the President-elect’s presentation, appear to be mainly to the Faculties;
- A request for clarification on the reference, in the presentation, to a reduction in dependency on government funding;
- A request for confirmation on whether the plan, as depicted in the presentation, has been made in consideration of the accreditation-related implications of these structural changes;
- A request for clarification on the NOUS group’s role in the review of the university’s UNIFORM data;
- A request for further clarification on the timeline for the implementation of the proposed plan and whether there was an opportunity to ask for additional funding from the Government of Alberta to take the time needed to implement such structural changes;
- A request for clarification around how existing programming would be grandfathered into the new structure; and
- A request for specific details on efforts to ensure the university’s commitments to equity, diversity, inclusion and truth and reconciliation are kept as part of the process.

Member comments included:

- that it is likely inadvisable to rely on reinvestment in the next few years;
- expressions of excitement at the paradigm shift ahead;
the importance of centering the university’s unique values, and remembering Canada’s dual linguistic identity, as part of this work;
the importance of being mindful of how further job-losses will disproportionately affect already marginalised members of the university community; and
the importance of meaningful engagement as part of the process;
