1. Rehab Med SUSPENSION Stroke Rehab Certificate Sep2022

*Prepared by:* Bernadette Martin, Associate Dean - Rehab Med (berni.martin@ualberta.ca)
Proposal Template: Program Suspension and Extension of Suspension

Use this template for proposals to suspend approved programs or specializations or to propose an extension to a current suspension.

Fill in the section below that is relevant to your proposal:

● Section A: if you are proposing a suspension of a ministry-approved program or specialization;
● Section B: if you are proposing an extension to a suspension previously approved by the ministry which is still in effect for a program or specialization.

Institutions should:
● ensure that submission content is concise. Any additional information may be appended;
● indicate “not applicable” when questions are not relevant to a particular proposal; and
● ensure that applicable supporting documents are attached to the proposal.

SECTION A: PROGRAM SUSPENSION

SECTION A: RATIONALE

1. Suspension Rationale

a. Identify the purpose for the suspension with supporting rationale and evidence (e.g., low student demand, declining labour market demand, institutional capacity, need for program redevelopment, quality assurance review recommendation, etc.).

● This Graduate Certificate was developed in consultation with the AB Stroke Council and received Ministry Approval in 2010 as a non-funded / tuition supported program. It has been offered by the Faculty of Rehabilitation Medicine (FRM) Continuing Professional Education (CPE) Unit for 11 years. Unfortunately enrollment numbers have never met projected targets and have decreased from an initial cohort of 20 (2011) to 8 (2022) with a relatively low completion rate of ~ 49% overall. This current enrollment level is not financially sustainable. During a formal curriculum review, the Certificate courses were significantly revised and updated based on student and instructor feedback (2018) but that has not led to more applicants or improved the Certificate completion rate. CPE would like to explore a transition of the current
Graduate Certificate to a series of non-credit CPE courses.

b. Document enrolments (by head count) for the most recent 5-year period, including the current academic year if available.

Reviewer’s Comment:

a. Indicate when admissions into program/specialization will be or were closed.
   - July 1, 2023

b. Briefly explain how the proposed end date of the suspension was determined.
   - The typical five-year suspension period will ensure adequate time for any necessary teach-out.

c. Provide specific information about which internal governance body approved the suspension, and provide date of approval.
   - Graduate Studies Support Team October 3, 2022
   - FRM Faculty Council Oct 26, 2022
   - UA Programs Committee TBD
   - UA Academic Planning Committee (APC) TBD
   - UA General Faculties Council (GFC) TBD
   - UA Board Learning Research Student Experience Committee (BLRSEC) TBD
   - UA Board of Governors TBD

d. Check the applicable box to specify the longer-term plan.
   - ✔ To terminate the program.
   - □ To reactivate the program.

SECTION B: ACCESS
a. Identify potential student access considerations and risks to the Alberta Adult Learning System that the suspension of this program could pose (include both (a) information about related programs available to prospective students internally at your institution; and (b) externally at other Alberta institutions).
   - The Faculty of Rehabilitation Medicine (FRM) offers non-credit coursework in the same content area. The FRM Masters of Science in Rehabilitation Science (MScRS) is exploring the possibility of transferring some of the coursework from the Certificate to the MScRS curriculum. There are currently no other graduate certificates in stroke rehabilitation offered in Alberta.

b. If the program or specialization is unique in the province, briefly describe consultation within the Alberta Adult Learning System to investigate feasibility of program/specialization transfer.
   - The Faculty has consulted with professionals and team leads within Alberta Health Services to explore options but the designation as a graduate level certificate and the associated work required has made it challenging to support professionals in enrolling and completing the Certificate, especially while working. The proposed transition to a non-credit format currently under consideration by the CPE unit has been positively received.

c. Briefly describe the consultation process that occurred with students at your institution regarding this programming change.
   - Students enrolled in or considering application were individually emailed with information regarding the plan to suspend the Certificate. They were also informed of the timetable for the Certificate courses over the next year.

d. Briefly describe your institution’s plans to assist active students, if any remain, in completing graduation requirements during the suspension period, including information about formal communication and student advising plans.
   - Each student has been contacted by email and informed of the timetable for the Certificate courses over the next year.

e. Briefly describe your institution’s plans to accommodate stop-out students, if any have been identified, including information about formal communication plans.
   - All active students have been notified and offered the ability to complete the Certificate within program timelines.

Reviewer’s Comment:

SECTION C: IMPACT

a. Identify which stakeholder groups were consulted regarding demand/need for this program:
   - ✔ Faculty
   - □ Regulator and/or accreditation bodies
   - ✔ Employers and professional associations
   - □ Advisory Committee(s)
   - ✔ Other (please identify) Survey of Certificate Students
b. Briefly describe the consultation process conducted with these stakeholders and summarize the feedback received.
   - Discussions were held with clinicians, current Certificate instructors and faculty members who have taught in this content area in other programs. Current students were notified and asked for feedback about a non-credit certificate as an alternative – most were supportive of that change.

c. Identify financial impacts and plans for reallocation of internal resources, particularly staff and classroom and lab space.
   - Given that the Certificate courses have always been offered as distance based / online courses, there are no classroom or lab space considerations. CPE staff support several programs, therefore the suspension of this Certificate will not impact staff members.

SECTION A: PROGRAM SUSPENSION

SECTION A: RATIONALE

1. Suspension Rationale
a. Identify the purpose for the suspension with supporting rationale and evidence (e.g., low student demand, declining labour market demand, institutional capacity, need for program redevelopment, quality assurance review recommendation, etc.).

- This Graduate Certificate was developed with a Health Canada grant (2013-2015) and received Ministry Approval as a non-funded / tuition supported Graduate Certificate program in 2016. The Certificate has been offered since the 2017-18 academic year. Unfortunately the enrollment numbers have declined consistently each year since the inception of the Certificate and it is not financially sustainable. CPE would like to explore a transition from the current Graduate Certificate to a series of non-credit CPE courses that will continue to support the learning needs of internationally educated Physical Therapists (IEPTs) entering the healthcare workforce in Canada.
b. Document enrolments (by head count) for the most recent 5-year period, including the current academic year if available.

   ● July 1 2023

b. Briefly explain how the proposed end date of the suspension was determined.
   ● The typical five-year suspension period will ensure adequate time for any necessary teach-out.

c. Provide specific information about which internal governance body approved the suspension, and provide date of approval.
   ● Graduate Studies Support Team October 3, 2022
   ● FRM Faculty Council October 26, 2022
   ● Policy Review Committee November 10, 2022
   ● UA Programs Committee TBD
   ● UA Academic Planning Committee (APC) TBD
   ● UA General Faculties Council (GFC) TBD
   ● UA Board Learning Research Student Experience Committee (BLRSEC) TBD
   ● UA Board of Governors TBD

d. Check the applicable box to specify the longer-term plan.
   ✔ To terminate the program.
   □ To reactivate the program.

SECTION B: ACCESS

a. Identify potential student access considerations and risks to the Alberta Adult Learning System that the suspension of this program could pose (include both (a) information about related programs available to prospective students internally at your institution; and (b) externally at other Alberta institutions).
   ● The Faculty of Rehabilitation Medicine (FRM) offers non-credit coursework in some of the same content area as is covered within the Certificate. There are currently no other graduate certificates in bridging to Canadian PT practice offered in Alberta.
b. If the program or specialization is unique in the province, briefly describe consultation within the Alberta Adult Learning System to investigate feasibility of program/specialization transfer.
   ● The Faculty has consulted with IEPTs, clinicians and the College of Physiotherapist of Alberta. There is ongoing discussion about a more modular series of non-credit courses to meet the learning needs of IEPTs. There is consensus that more accessibility to education and mentorship to successfully bridge is desired.

c. Briefly describe the consultation process that occurred with students at your institution regarding this programming change.
   ● Certificate graduates and students currently enrolled have been consulted through email or in discussions with the program director. Those inquiring or considering application for 2023 have been advised that the format will likely be changing and they will be provided with more information when available.

d. Briefly describe your institution’s plans to assist active students, if any remain, in completing graduation requirements during the suspension period, including information about formal communication and student advising plans.
   ● The current cohort will not see any change and should be able to complete the Certificate in the 1-year timeframe. Typically most students complete this Certificate within a year with their admission cohort and deferral of courses is rare. Offering a course(s) to allow student completion will be scheduled as needed.

e. Briefly describe your institution’s plans to accommodate stop-out students, if any have been identified, including information about formal communication plans.
   ● There are currently no stop-out students in this Certificate.

Reviewer’s Comment:

SECTION C: IMPACT

a. Identify which stakeholder groups were consulted regarding demand/need for this program:
   ✔ Faculty
   ✔ Regulator and/or accreditation bodies
   ✔ Employers and professional associations
   □ Advisory Committee(s)
   ✔ Other (please identify) Survey of Certificate Students

b. Briefly describe the consultation process conducted with these stakeholders and summarize the feedback received.
   ● Discussions were held with clinicians, current Certificate instructors and faculty members who have taught in this content area in other programs. Early discussions with the College of PTs of AB have also been held. Generally there is support for a series of courses that can be customized for an individual IEPT and which are less expensive and accessible more often during the calendar year. The graduate certificate level of credential is not considered essential.
Identify financial impacts and plans for reallocation of internal resources, particularly staff and classroom and lab space.

- Given that the Certificate courses have always been offered using a hybrid format with mainly online learning and a few days of weekend in-person lab sessions, and some of the content is offered at affiliated clinical sites, there are no space impacts. As the Certificate instructors are hired on short term contracts, and staff members support several programs, the suspension of this Certificate will not impact staff.

### SECTION B: SUSPENSION EXTENSION

### SECTION A: RATIONALE

a. Briefly describe the rationale for original suspension request. (Attach ministry approval letter for the original suspension.)

- N/A

b. Briefly explain why the extension is needed and include supporting evidence (e.g., active students have not completed graduation requirements).

- N/A

c. If there are students still in the program, describe how they will be supported to complete graduation requirements while the suspension is in place.

- N/A

d. Explain how the duration of the suspension extension was determined.

- N/A

**(Reviewer's Comment:**

---

### SECTION B: OTHER CONSIDERATIONS

**Other considerations**

a. Are there other factors or considerations the Ministry should take into account when reviewing this proposal?

- Many professionals are inquiring and enrolling in the easily accessible, non-credit, lower cost micro-credential courses within our Faculty. These tend to fit with the schedule and budget for working professionals. IEPTs are a unique student population who truly appreciate educational opportunities that can advance their integration into the Canadian workplace. Most IEPTs have limited budgets and are not seeking a graduate certificate credential.

The Purpose of the Proposal is (please be specific)
The proposal is before the committee to provide a final version of the revisions to the Appendix A of the Teaching, Learning and Evaluation Policy suite, and seek recommendation of approval of the revised Appendix A: Student Perspectives of Teaching (SPOT) Survey for the University of Alberta.

Executive Summary (outline the specific item – and remember your audience)
Background
The Teaching, Learning, and Evaluation (TLE) Policy suite was approved March 25, 2022, by the Board of Governors, alongside the rescission of GFC Policy Manual section 111. The Policy suite’s Appendix A is the new home for questions to be used for capturing the input of student perspectives on teaching. Appendix A that is currently in use contains the historical “USRI” questions with slight modifications to the survey tool to reflect the TLE procedure, which includes: the inclusion of the preamble (taken directly from the Policy suite), individual comment fields following each question (as opposed to large “catch all” field at survey’s end), and slight changes to the language of the responses (i.e., instead of “strongly agree” as a choice, the survey reads “I strongly agree”). This survey tool is now referred to as “SPOT” and was adopted by the General Faculties Council effective July 1, 2022.

Commitment to EDI and Involvement of Institutional Experts
Throughout the development of these new questions, feedback gathered through earlier efforts to modify the USRI process was considered; best practice and current research was incorporated; and the work to date of the CLE on the Effective Teaching Framework has been reflected. These questions also incorporate and show sensitivity toward the considerations raised through the overall Policy consultation process. These revised questions intend to minimize the impact of biases that exist within survey evaluation and encourage feedback that is timely, specific and actionable.
The attached revised Appendix A reflects the new proposed SPOT questions (18 total) (initially developed by the 2021 Working Group set that was further refined by CLE in late 2021) that have followed initial piloting and validation as led by our institutional experts in the Centre for Research in Applied Measurement and Evaluation (CRAME). An update is reflected in the appended Summary Report report prepared by CRAME.

These proposed questions represent a significant shift from the historical “USRI” questions, and are built following careful work of the community to reflect the new TLE Policy suite and the Framework for Effective Teaching as referenced in the Teaching, Learning and Evaluation Policy (Section A., pages 2 - 3).

Pilot and Validation
Please see the two reports from CRAME (attachment 2: CRAME SPOT Validation Summary (January 2023); attachment 4: Interim Validation Report) for details about the extensive work done to develop questions and pilot them during 2022.

Next Steps
As confirmed by Dr. John Nychka (Vice-Provost (Learning Initiatives)) at the February 28, 2022, GFC meeting, GFC would be asked to approve the revised Appendix A containing the first new questions for student input.

Feedback can be shared at tleinput@ualberta.ca.

<td>Comments from the Committee on the Learning Environment (CLE): CLE unanimously recommends that GFC approve these questions after careful thought and discussion were given to the changes. This consensus was reached by CLE members in a series of two Circles offered to them and joined by an Indigenous community member. Through that circle, committee members were able to express concerns and discuss how they were comfortable approving the SPOT questions because student questionnaire was only one mechanism in multifaceted evaluation of teaching and the collective agreement states that evaluation at FEC should not rely on any one approach (A6.03.4.2). Committee members suggested that GFC should take into consideration the role of its standing committee in developing the questions in collaboration with the U of A teaching and learning community over the past five years. Members emphasized that they are committed to continuing to work on the development of a multifaceted evaluation of teaching through the use of additional appendices, to monitor the implementation of questions once approved, and to regularly review the implementation using an innovation and design approach to facilitate favourable outcomes for all stakeholders.</td>

Teaching, Learning and Evaluation Policy
Appendix A: Student Perspectives of Teaching (SPOT) Survey

Office of Accountability: Provost and Vice-President (Academic)
Office of Administrative Responsibility: Provost and Vice-President (Academic)
Approver: GFC Committee on the Learning Environment

YOUR VOICE MATTERS - For this survey to be as comprehensive as possible, the University of Alberta would appreciate receiving your input. The results are used as one component of a multi-faceted approach to the evaluation of teaching and learning, therefore, they contribute to your instructor’s self-reflection and evaluation. They also help initiate change in curriculum and instruction.

CIVILITY AND RESPECT - These are shared norms in our work and learning environment and we encourage a healthy exchange of ideas and perspectives. Feedback should be provided in a manner that reflects our commitment to collegiality and inclusivity, while acknowledging that we all have unique and particular needs within this environment.

BIAS AWARENESS - Please be aware of biases that you may hold and make an effort to resist stereotypes about particular identities and groups of people (related to perceived race, gender, age, religion, ability, sexual orientation, and/or ethnicity of the instructor).

WHAT WE WANT TO HEAR - Please provide specific feedback on your experience in the comment section as appropriate for each question. The most helpful feedback is actionable, thoughtful, and concrete. Focus on your experiences with term work, course resources, and other instructional materials and not on personal characteristics such as the course instructor’s appearance or speaking style.

ANONYMITY - The survey will be accessible only by CCID and students’ anonymity will be protected. Summary results will be made available to instructors only after grades are finalized. If you are concerned about the anonymity of any typwritten comments, those may be provided directly to the Chair, Director or Dean noting the course number, section and name of the instructor. Please be aware, however, that the University may be required to intervene based upon assessment of potentially threatening or harmful comments.

ABOUT THE RESULTS - The numerical SPOT Report for the standard questions listed below will be available to you as well as the Students’ Union and the Graduate Students’ Association for the sole purpose of providing information for future course selections.

QUESTIONS - Should be addressed to students@ualberta.ca.
