5. Exceptional Tuition Fee Proposal

Materials before members are contained in the official meeting file.

Presenter(s): Steven Dew; Todd Gilchrist

Purpose of the Proposal: The proposal is before the Board to ask approval for exceptional tuition increase proposals for Fall 2022.

Discussion:
Ms Butler introduced the item, reviewing the Finance and Property Committee’s (BFPC) consideration of the proposal. Dr Dew then reviewed the background of the proposal’s original submission to Advanced Education in June after early consultation, student feedback regarding insufficient consultation, and Advanced Education’s decision to grant an extension and require the proposals be approved by the Board of Governors prior to returning for government approval. He reviewed the proposal, noting: that the increases would apply to new, domestic students only and that Fall 2022 international student tuition had been previously approved in June 2021; that supplemental material was included at the request of BFPC, including updates to the U15 comparators; and that 20 percent of revenue was set-aside for student financial aid. He also reviewed government reporting requirements regarding the use of tuition revenue.

The Provost responded to questions from the Board regarding: the consultation and approval process; whether the proposed increases to domestic tuition would affect future international student tuition; whether the increases would negatively affect demand; how the proposal related to enrolment growth strategies; whether the exceptional tuition fees would demonstrate increased quality of the learning environments in the programs affected; the affordability for students under current levels of provincial student financial aid; whether it was possible to amend the proposal to make the package more appealing to the Minister; and concerns about whether the proposal was in the best interests of the university and its students.
The motion was moved and seconded.

THAT the Board of Governors, on the recommendation of the Board Finance and Property Committee and the GFC Academic Planning Committee, approve the following proposed exceptional tuition increases, to take effect for the Fall 2022 term for incoming students only, and pending approval of the Minister of Advanced Education:

*Because tuition is assigned by the course, and not at the program level, there may be a difference of pennies for some increases.*

6. Academic Restructuring Implementation
   • College Update

Presenter(s): Steven Dew

Purpose of the Proposal: To update the Board of Governors on the process of implementing the new College Model, as approved by the Board of Governors on December 11, 2020.

Discussion:
Dr Dew briefed the Board on the continued implementation of the academic restructuring initiative, including the work of the interim college deans to develop College Strategic Plans and to outline responsibilities of the colleges and faculties; the creation of three offices (research, education, and graduate) within each college to lead and support specific areas of excellence, innovation, and improvement; and the work of the Academic Leaders Task Group (ALTG) to explore opportunities to return professors to the front line mission of teaching and research by reducing the number of academics in leadership positions.

Dr Dew responded to questions from the Board regarding: when the Board would receive an update on College Strategic Plans and the interdisciplinarity metric; concerns from the campus community regarding accreditation and the international standing of faculties, succession plans for senior leaders without junior leaders, and the current number of interim deans; whether the ALTG’s recommendations would achieve the required savings and release some academic leaders to conduct teaching and research; and the importance of the metrics to evaluate the success of the whole college, not its components.
