The following Motions and Documents were considered by the Board Finance and Property Committee during the Open Session of its November 23, 2021 meeting:

---

**Agenda Title: Proposed Non-Credit International Support Fee**

APPROVED MOTION: THAT the Board Finance and Property Committee, on the recommendation of GFC Academic Planning Committee, recommend that the Board of Governors approve the establishment of a new Non-Credit International Support Fee (NCISF), with fees to be indexed to the Health and Wellness Mandatory Non-Instructional Fee currently set at $63.80, to take effect upon final approval.

Final Recommended Item: 4c.

---

**Agenda Title: Disposition of Land, Mattheis Ranch (Nova Gas ROW)**

APPROVED MOTION: THAT the Board Finance and Property Committee recommend that the Board of Governors:

   a) approve, on terms and conditions acceptable to the Vice-President (Facilities and Operations), the disposition via Right of Way of fewer than five (5) acres of land contained within the parcels legally described as SW 8-22-14 W4M and NW 5-22-14-W4M located in the County of Newell within the University of Alberta Mattheis Ranch.

   b) make an application to the Minister of Infrastructure for the required approval via Ministerial Order.

Final Recommended Item: 4d.

---

**Agenda Title: Disposition of Land, Mattheis Ranch (TC Energy ROW)**

APPROVED MOTION: THAT the Board Finance and Property Committee recommend that the Board of Governors:

   a) approve, on terms and conditions acceptable to the Vice-President (Facilities and Operations), the disposition via Right of Way of less than one (1) acre of land contained within parcels legally described as NW 1/4 SEC 5 TWP 22 RGE 14 W4M located in the County of Newell within the University of Alberta Mattheis Ranch.

   b) make an application to the Minister of Infrastructure for the required approval via Ministerial Order.

Final Recommended Item: 4e.
Agenda Title: Disposition of Land, Belcourt-Brosseau House

APPROVED MOTION: THAT the Board Finance and Property Committee recommend that the Board of Governors approve, on terms and conditions acceptable to the Vice-President (Facilities and Operations), the disposition of real property located at 11020 – 84 Avenue, Edmonton, Alberta, and legally described as:

Lot 6  
Block 161  
Plan I23A  
EXCEPTING THEREOUT ALL MINES AND MINERALS

Final Recommended Item: 4f.

---

Agenda Title: Long Range Development Plan Amendment 2021 (South Campus Sector 14)

APPROVED MOTION: THAT the Board Finance and Property Committee, on the recommendation of the GFC Academic Planning Committee and Facilities Development Committee, recommend that the Board of Governors approve the removal of South Campus – Sector 14 (Section 6.3) from the Long Range Development Plan 2002.

Final Recommended Item: 11.

<tr>
<td>The Purpose of the Proposal is <em>(please be specific)</em></td>
<td>To approve the establishment of a Non-Credit International Support Fee (NCISF) and to approve the fee proposal for the 2021-2022 academic year that is indexed to the MNIF Health and Wellness Fee.</td>
</tr>
<tr>
<td>Executive Summary <em>(outline the specific item – and remember your audience)</em></td>
<td>The University of Alberta assesses several mandatory non-instructional fees to all undergraduate and graduate students. One of these fees is the Student Health and Wellness fee. This fee supports the provision of health and wellness services available to students, including medical services, mental health treatment and support, sexual assault services, and health promotion and community building initiatives. This fee is assessed to all on-campus and off-campus graduate and undergraduate students, full-time and part-time. We are seeking approval to implement this fee approach with our international students who are enrolled in non-credit programs in order to comply with the governmental requirements under the Alberta Designation Requirements (ADR) for Designated Learning Institutions (DLI). These new requirements necessitate that we provide students coming on study permit for these non-credit offerings with the services covered by the Student Health &amp; Wellness fee. To ensure proper and equitable support of these services we propose the creation of a new Non-Credit International Support Fee (NCISF) and to set the rate for the first year. The proposed rate will be indexed to the rates for the Mandatory Non-Instructional Student Health &amp; Wellness fee assessed to graduate and undergraduate students enrolled in for-credit programming. It is anticipated that the fee will continue to be indexed to this rate.</td>
</tr>
</tbody>
</table>

**Supplementary Notes and context**

*The motion referenced a non-existent attachment, but was amended at APC to remove the reference (as above).*
**Item No. 4c**

**Increases to Mandatory Non-Instructional Fees are considered by the Joint University Students Mandatory Non-Instructional Fees Oversight Committee. By indexing the NCISF to the Health and Wellness MNIF (currently set at $63.80), any increases to the latter fee will also be applied to the former. BFPC has delegated authority from the Board of Governors to approve increases to existing MNIFs equal to or less than the agreed upon weighted annual inflation with both a ceiling of 5.0% and a floor of 0% (because this is a new fee, its creation will be considered by the Board).**

Details

Office of Administrative Responsibility

Office of the Vice-President (Facilities and Operations)

The Purpose of the Proposal is (please be specific)

The proposal is before the committee to seek approval for the disposition of fewer than five (5) acres of land via Right of Way to Nova Gas Transmission Ltd. for the construction of a cathodic protection facility to prevent corrosion of one or more of their pipelines. Nova Gas requires a Right of Way to construct, repair, and operate the cathodic protection system.

Executive Summary (outline the specific item – and remember your audience)

The lease will have no meaningful impact on teaching or research objectives and will result in a small amount of one time revenue.

Supplementary Notes and context

<This section is for use by University Governance only to outline governance process.>

**Attachments:**
1. Briefing Note (1 page)
2. Site Plan (1 page)
3. Board Resolution (1 page)

**Prepared by:** Craig Moore  
Director, Real Estate Services  
craig.moore@ualberta.ca
Background
In July 2010, the University of Alberta entered into a purchase / sale and donation agreement with Edwin and Ruth Mattheis for a ranch consisting of approximately 12,000 acres. In return for a payment of $2.6 million plus a charitable receipt of $9.3 million, the former Mattheis ranch has become the home of University’s Rangeland Research Institute (RRI).

Issue
Nova Gas Transmission Ltd. is looking to construct a cathodic protection facility to prevent corrosion of their pipelines. Nova Gas requires a Right of Way to construct, repair and operate the cathodic protection system. The required Right of Way involves fewer than five (5) acres of land legally described as SW 8-22-14 W4M and NW 5-22-14 W4M and is located within the University of Alberta Mattheis Ranch in the County of Newell. It is standard practice for utility companies to install their infrastructure within a Right of Way granted by the owner of the land.

Per section 67 of the Post-secondary Learning Act, disposition of land via Right of Way requires the approval of the Minister of Infrastructure in the form of a Ministerial Order.

Recommendation
The Board of Governors approve the disposition by Right of Way of fewer than five (5) acres of land to Nova Gas Transmission Ltd. and, commensurately, seek further approval from the Minister of Infrastructure.

Upon receipt of the Ministerial Order, the University will grant a Right of Way to Nova Gas Transmission Ltd. by way of an agreement signed by the Vice-President (Facilities and Operations).

Disposition of Land, Mattheis Ranch (TC Energy ROW)
Real Estate Services
Facilities and Operations
November 23, 2021

Background
In July 2010, the University of Alberta entered into a purchase / sale and donation agreement with Edwin and Ruth Mattheis for a ranch consisting of approximately 12,000 acres. In return for a payment of $2.6 million plus a charitable receipt of $9.3 million, the former Mattheis ranch has become the home of University's Rangeland Research Institute (RRI).

Issue
Fortis Alberta Inc. is looking to provide power to a TC Energy well site by first tapping off an existing single-phase Fortis structure that is within the undeveloped government road allowance, then installing six poles and two anchors that will lead to a transformer pole at the edge of the TC Energy site. The six power poles involving less than one (1) acre of land, falls within land legally described as the NW ¼ Sec 5 Twp 22 Rge 14 W4M. It is standard practice for utility companies to install their infrastructure within a Right of Way granted by the owner of the land.

Per section 67 of the Post-secondary Learning Act, disposition of land via Right of Way requires the approval of the Minister of Infrastructure in the form of a Ministerial Order.

Recommendation
The Board of Governors approve the disposition by Right of Way of approximately ¼ acre of land to Fortis Alberta Inc. and, commensurately, seek further approval from the Minister of Infrastructure.

Upon receipt of the Ministerial Order, the University will grant a Right of Way to Fortis Alberta by way of an agreement signed by the Vice-President (Facilities and Operations).

<tbody>
<tr>
<td>The Purpose of the Proposal is</td>
<td>To seek approval for the disposition of real property located in Edmonton, Alberta.</td>
</tr>
<tr>
<td>Executive Summary (outline the specific item – and remember your audience)</td>
<td>Built in 1916 and donated to the university in 2003 as a residence for Métis students, Belcourt-Brosseau House is a 2½ story, 6-bedroom detached house located in the residential Garneau neighbourhood.</td>
</tr>
</tbody>
</table>

In the five years before BB House (as it is affectionately known) was closed in response to COVID-19, it was generating less than half of its potential rental revenue (lack of students interested in residing there), while incurring expenses five times greater than the rent collected.

BB House carries a disproportionately high deferred maintenance burden considering the limited number of students it is able to serve. Given the age of the facility, its significant infrastructure deficiencies, and the challenges it presents from a residence design perspective, major investments to resolve building system issues and refresh the facility to modern residence standards are not viable.

BB House is now permanently closed with the students successfully integrated into existing housing options across East Campus Village. There are currently 26 residence spaces specifically designated for First Nations, Métis, and Indigenous (FNMI) students (12 beds in the shared-facilities houses Aboriginal House and Marge’s House plus 14 units in 2-bedroom, 4-bedroom and studio apartments in HUB Mall). Notwithstanding these options, an average of 35 FNMI students select Lister Hall as their residence of choice plus a similar number of upper-year undergraduate and graduate students selecting other apartment-style residences.

100 percent of the proceeds of the sale of BB House will be directed to support the university’s FNMI student population. Although no decisions have been
made, based on consultation with students, First Peoples House envisages three potential vectors for the proceeds of the sale:

- Add to the newly established First Peoples' House Student Living Allowance, which provides rent support directly to FNMI students to live in the campus community best suited to their current needs.
- Allow for increased programming and supports provided to residents by First Peoples’ House.
- Create a large community (~32 beds) in Alder House; a single, large, shared-facilities house.

The Post-secondary Learning Act (s.67) stipulates that disposition of donated land, such as this, does not require approval of the Government of Alberta.

<td>The Purpose of the Proposal is (please be specific)</td>
<td>To amend the university’s Long Range Development Plan (LRDP) by removing Sector 14, located on South Campus.</td>
</tr>
</tbody>
</table>

Executive Summary

(outline the specific item – and remember your audience)

Development of university lands is governed through the Post-secondary Learning Act (PSLA) by means of a Long-Range Development Plan (LRDP). An LRDP guides the planning and development over a 30-year window, directing physical growth at campus sites across the university. An LRDP is derived from, and is responsive to, the university’s strategic directions and is, therefore, a flexible document that is amended as substantial alterations are made to the university’s guiding directions. The PSLA also outlines the consultation process required for amending an LRDP including a defined consultation protocol.

As changes to the LRDP are made over time, the original 2002 document remains physically unchanged, but amendments are posted to the Campus Planning website: [https://www.ualberta.ca/vice-president-facilities-operations/planning/office-of-the-university-architect/campus-planning/index.html](https://www.ualberta.ca/vice-president-facilities-operations/planning/office-of-the-university-architect/campus-planning/index.html)

The university has received approval from the Government of Alberta to transfer Sector 14 to the University of Alberta Properties Trust Inc. (UAPTI) for future development, although such a transfer has yet to occur.

Sector 14 is currently zoned as an Alternate Jurisdiction and planned under section 6.2.2 of the University of Alberta Long Range Development Plan 2002. At the point Sector 14 is transferred to the UAPTI, it would no longer be appropriate for its use to be guided by the LRDP. Rather, it will fall under the municipal zoning regulations and any development will follow the municipal planning and development process. As a result, it is necessary to delete section 6.2.2 of the University of Alberta Long Range Development Plan. This would be the second instance of the University of Alberta removing a parcel of land from its LRDP. The first will be the transfer of Michener Park to the UAPTI.

The Board of Governors has the authority to amend the LRDP. If approved, the Board of Governors will submit a package to the Minister of Advanced Education including details of the consultative process. The role of the Minister is to ensure...
the university has met the obligations of the government’s community consultation protocol; not to approve the amendment itself. A summary of the university’s community consultation is included in Attachments 2 and 3.

Supplementary Notes and context: <This section is for use by University Governance only to outline governance process.>

### Strategic Alignment

**Alignment with For the Public Good**
23. OBJECTIVE: Ensure that the University of Alberta’s campuses, facilities, utility, and information technology infrastructure can continue to meet the needs and strategic goals of the university.

**Alignment with Core Risk Area**
Please note below the specific institutional risk(s) this proposal is addressing.

| ☐ Enrolment Management | ☒ Relationship with Stakeholders |
| ☐ Faculty and Staff | ☒ Reputation |
| ☒ Funding and Resource Management | ☐ Research Enterprise |
| ☐ IT Services, Software and Hardware | ☐ Safety |
| ☐ Leadership and Change | ☐ Student Success |
| ☒ Physical Infrastructure | |

**Legislative Compliance and jurisdiction**
- Post-Secondary Learning Act (PSLA)
- PSLA Land Use Regulation
- GFC Facilities Development Committee Terms of Reference
- GFC Academic Planning Committee Terms of Reference
- Board Finance and Property Committee Terms of Reference
- Taking Care of our Campuses: Integrated Asset Management Strategy

Proposed 2021 LRPD Amendment
Consultation Report

The University of Alberta (U of A) follows the Post-Secondary Learning Act (PSLA), which outlines the consultation process required for an amendment for the Long Range Development Plan (LRDP). The university also follows a consultation protocol outlined in Appendix 18 of the LRDP, which was submitted to the Minister in 2004. An outline of community engagement and how the U of A fulfilled the consultation requirements outlined in Appendix 18 is demonstrated below.

Appendix 18 Processes and U of A Actions

Appendix 18 states:

Long Range Development Planning and Amendments

a) When the University undertakes a new Long Range Development Plan, or amends its existing LRDP, owners of land within 60 metres of the University's land and the host municipality will be notified. Such notification will include date, time and location for an information session to present the conceptual plans, or substantive changes, and an invitation to review, and comment on the planning, in writing 21 days following the presentation.

I. U of A action - The U of A mailed letters of notification to owners of land within 60 metres of the U of A South Campus which contained the date, time and location for an information session (open house) to present the amendment for South Campus – Sector 14 and an invitation to review, and comment on the amendment in writing 21 days following the presentation (open house). The University also e-mailed letters of notification for the open house to the host municipality, The City of Edmonton. The mailing list was identified by the City of Edmonton, Urban Form and Corporate Strategic Development, City Planning, according to homeowner title information. The letters to residents 60 metres of the University of Alberta South Campus and the City of Edmonton were mailed to allow two-three weeks advanced notification.

b) Notification will take the form of a directed letter to each identified stakeholder in a). The planning document will be available through the communications website of the University.
I. U of A action – The notification in section a) indicated where information for the amendment planning document could be found on U of A website. Please note additional communication tools were used to advertise the June 29, 2021 open house:
   i. Portable road signs were placed in two locations two weeks prior to the open houses advertising the open houses.
   ii. An advertisement was placed in the Edmonton Journal newspaper on June 7, 2021 advertising information about the June 29, 2021 open house.
   iii. Information about the open house was placed on the U of A website on the Community Relations website and the main U of A homepage under Events.
   iv. Letters of invitation to the open house were also emailed to:
      • Councillor Michael Walters, City of Edmonton
      • Member of the Legislative Assembly of Alberta for Edmonton – Riverview, Lori Sigurdson
      • Member of Parliament for Edmonton Strathcona - Heather MacPherson

c) Following this presentation the University shall publish, within a newspaper, newsletter or publication circulating in the areas in which the University’s lands are located, notification of the public of its opportunity to review the proposed LRDP, or amendments, and comment upon it (them). The proposed plan/amendments will be available upon the University’s communications website. Comments will be received in writing up to 21 days of the notice.

I. U of A Action - An ad was placed following the June 29, 2021 open house (which presented the amendment) in the Edmonton Journal newspaper on June 30, 2021 inviting the public to review the proposed amendment and provide comments indicating input would be received in writing up to 21 days of the notice/ad. The proposed amendment was made available on the University’s communications website. Portable road signs were placed in two locations on June 30, 2021 for 21 days providing information on where to find the June 29, 2021 open house information and invited the public to view and comment on the materials presented at the open house.

d) University administration will prepare a summary document that they believe accurately reflects the major concerns and comment expressed. This document will be reviewed by the stakeholders identified in a), and will be modified until agreement is reach on accuracy. During the planning stage, these concerns will be considered.
I. U of A action – A summary document from the June 29, 2021 open house (which presented the amendment) that reflected the major concerns and comments expressed from stakeholders was mailed to stakeholders identified in a) on August 6, 2021 with an invitation for stakeholders to send in comments regarding the summary document by August 27, 2021.

e) Recommendations to the Board of Governors with respect to the LRDP and/or its amendments will include the consultation summary documents(s), and a document highlighting how administration has used these comments to develop the Plan and recommendations.

I. U of A action – Attached please find the summary document and information on how administration will use the comments from the June 29, 2021 open house to further develop the amendment.

f) Upon Board of Governors approval, the LRDP and/or amendments will be sent to the Minister for review and confirmation that the contents of the amendment/LRDP comply with the Regulations of the Post-Secondary Learning Act.

I. U of A action – Once the LRDP Amendment is approved by the Board of Governors, the amendment will be sent to the Minister of Advanced Education for confirmation that the consultation process has been followed.
University of Alberta
South Campus – Sector 14
Long Range Development Plan Amendment
Open House

Tuesday, June 29, 2021
5:00 – 8:00 p.m.
Foote Field, Multipurpose Room
11601-68 Avenue

Summary of Comments

Approximately 70 attended the open house

45 comment forms submitted

1. Please identify (circle) which of the descriptions below best portrays you:

   ![Bar chart showing distribution of responses]

   - Faculty: 8
   - Staff: 5
   - Student: 3
   - Neighbour: 25
   - Alumni: 10
   - Other: 2

2. If you chose “Other” above, please tell us about yourself.

   Resident of Grandview Heights, BPE '64 - currently love to walk on the farm
3. Please check the age category that describes you.

![Bar chart showing age categories and counts]

4. How did you hear about this open house?

![Bar chart showing various sources of information and counts]
5. Are you familiar with the purpose of the South Campus - Sector 14 Long Range Development Plan Amendment?

6. Did the material that was presented explain the purpose of the South Campus - Sector 14 Long Range Development Plan Amendment?

7. Please provide comments regarding Board #2. Board #2 contained information regarding the purpose for the June 29, 2021 open house and an explanation of what a long range development plan (LRDP) is.

Open house logistics, communication:
- Map is inaccurate and therefore misleading. Unsure which one is board #2. Not really a question - the board states what is being proposed. Obvious and process. LRDP's are seemingly meaningless as amendments and amendment to amendment are always available.
• Explains that the amendment is to transfer the West 240 to the UAPTI. Clear, good explanation. Clear and concise.
• Usual vague description with no real details.

Do not approve of transferring Sector 14 to UAPTI:
• Sector 14 needs to remain a U of A asset, or be turned over to the City of Edmonton to be held in its inventory of parkland. Protect the majority of the 240 acre of land for agricultural use. The purpose of Section 14 was always educational. Sad to witness the slow demise of this unique resource over the past decade. The process to repurpose Sector 14 seems very rushed and unimaginative. The community leagues should be appointments to the UAPTI Board.

Financial:
• It is clear the process that needs to be followed to move forward and the importance of balancing the needs of the neighbourhoods with the need for the university to create revenue. The TRUST will only answer and account to U of A. Money/profit first. Interesting to know how much the land is worth.

Faculty of ALES and research:
• Why does it need to be transferred after all these years? Where will the things currently taking place on this land be moved to? Although research activities can be transferred to other areas they will not be near the University.

8. Please provide comments regarding the proposed South Campus – Sector 14 LRDP Amendment on Board #4. Board #4 highlighted 3 maps of Sector 14: map of Sector 14 from the 2002 LRDP, map showing the boundaries of Sector 14, map of the proposed LRDP amendment demonstrating that Sector 14 would be removed from the LRDP.

Positive move for the U of A:
• Great to hear that progress is being made to remove this sector and transfer this parcel to the UAPTI which hopefully will develop this land in a respectful manner that meets the needs of all stakeholders.

Presented information, communication:
• Map is inaccurate and therefor misleading. The community leagues should be appointed to the UAPTI Board. The Board does not explain why lands being used for a purpose central to the University's academic mission is intended to be transferred to an entity to development lands not central to the University's academic mission. There is no context provided about why sector 14 is being transferred to the UAPTI.
• Very clear. Very helpful. Vague on detail, though understandably so. Was reassured by attending staff.

Financial:
• You’re selling out pristine land for capital gain due to poor government support. The entire project is focused on generating income for the U of A - no vision. Premature - other options for generating liquidity should be considered. Very disappointed to see that the university is driven by money rather than preserving green space and a unique environment. Why not just say "we want to sell the land and realize $$".
Faculty of ALES and research:
- I think the University is being short-sighted in its plan to allow developers to take over this property. It is prime farmland and should be used for agricultural purposes. It is close to the University and therefore easy to access for students and professors working on the farm. I'm sure the Faculty of Agriculture has objected to your plans. Please reconsider this move. We need to preserve the best farmland in the area. Isn't the University supposed to be environmentally friendly? Don't really understand why all the research buildings are not part of the research land, e.g. poultry research is academic land. If these agricultural things aren't part of research, what is the classification for the Sector 14 land?

9. Please provide any further general comments you may have:

Loss to community:
- The loss of this parcel is going to be very hard on the surrounding communities who have grown to love and embrace the farm.
- I find value in having this beautiful peaceful farm as part of our U of A history and in our community. I come to walk and ski here as an alumni.

Financial, UAPTI, Michener Park development:
- Ideally Sector 14 would remain part of the LRDP as the university may ultimately regret the lack of land for expansion in the future.
- The amount of money the University expects to gain from selling this land was not disclosed. This is a one of a kind area within the city. It is disappointing the university's only plan is to replace it with yet more real estate development.
- The UAPTI was incorporated “to develop or re-develop lands deemed by U of A as not central to its academic mission of teaching and research.” The transfer of Michener Park from the University to the UAPTI was consistent with creation of the UAPTI. At the time of that transfer, Michener Park was being used for housing, which is a purpose not central to the University’s academic mission. Since continuing to use Michener Park for housing or to redevelop for another purpose would require substantial capital investment, the transfer was consistent with the purpose of the UAPTI and sensible as the alternative would have been to leave the property derelict.
- It is not explicitly clear how this is ‘for the public good’. This should be the overriding principle in this development, rather than ‘university bottom line $$’.
- Setting aside the inconsistency of the amendment with the purpose of the UAPTI, the decision to amend the LRDP is premature. The intention of the amendment is to permit Sector 14 to be developed for the same purpose as Michener Park. However, as Sector 14 is a greenfield site and Michener Park requires demolition, including environmental remediation, there is a substantial risk that the development of Sector 14 will proceed in advance of the redevelopment of Michener Park.

Sustainability
- All of south campus needs to focus on how can community groups be supported to explore, practice and teach various approaches to tackling food insecurity and the related poverty that goes along with it. I realize the U of A is facing major cutbacks,
but during this time it must realize it needs to play a leadership role in the preservation of areas of the city that are easily accessible for activities that improve the common goal of building community.

- My whole life I have lived beside the University. I have seen many University schemes come and go— including the takeover of Windsor Park (thwarted by professors and doctors who worked for the U) and the expropriation of North Garneau (which still has not been developed). Instead of developing Section 14 into residential homes, I think you would do better to develop some of your other property which is less arable.

Other:
- Very much in favour of this - having a world class, property funded University is a tremendously positive thing for Edmonton and Alberta
- Looking forward to vision and planned development documents.

Response from neighbours residing within 60 meters of South Campus regarding the June 29, 2021 Open House Summary of Comments document:

Two responses received:

- Thanks for the information that I received in today's post. I think your Office continues to do a good job in holding Open Houses and in communicating with the relevant Community Leagues and neighbourhoods. It is hard to address the problem facing all open houses of receiving a wide range of input (positive alongside negative) and then appearing to proceed with the original intention. Many local residents have considerable sympathy for the economic plight of the UofA given the extensive cutbacks imposed by the provincial government. However, I believe there is suspicion of the UAPTI. This suspicion seems partly based on:
  - its role "developing university land for the public good" without much clarity in defining the public good.
  - the make-up of its Board with developers appearing to play a more explicit role than those potentially representing "the public good".
  - mixed responses regarding the University of Calgary's Properties Trust (I believe used as a model for the UofA) concerning accountability in its "arms length" distance from the University itself.
  - some rumours of turnover in board membership or dissatisfaction concerning the role they are expected to play.

Overall, many residents seem to have welcomed the delay in Westcorp's development of a high rise on Golflands, and are happy that derelict buildings in Michener Park have begun to be removed. LRT parking issues seem to have subsided in Lendrum (although the move to online classes may have played a role in this), but there continues to be disappointment that Sector 12 is not as based on "green" and smart growth principles as was originally proposed—especially regarding parking (both the actual surface lots around the Saville Centre and the proposed lots for the yet-to-be-funded ice arenas).

Several residents continue to express the belief that some of the University Farm land was donated with the expectation that it was to be used for educational purposes, but
no-one seems to have come up with concrete evidence of this. There is also concern for
the future of the Faculty of ALES with land for agricultural research becoming more
remote from campus.

Sector 14's current use is certainly valued by local communities. I feel residents do
understand the tug-of-war between the need for green space versus the need for urban
infill. I would echo the views expressed regarding the significant need to balance the
need of the UofA to obtain revenue with the community expectations regarding our
environment. There are various examples in Edmonton of projects which mention
sustainability and 21st century designs at the outset, but end up capitulating to
developers seeking to continue 20th century ideas in terms of square footage, parking
allocations, etc.

- **Response from the City of Edmonton:**

  Good morning,

  I have been asked by the City Manager's Office to provide you with the City's
  response to your August 13, 2021 email (University of Alberta Long Range
  Development Plan Amendment Summary of Comments).

  We thank the University for providing the City with information and a summary
  regarding the June 29, 2021 Long Range Development Plan (LRDP) amendment open
  house. The City does not object to the proposed removal of Sector 14 from the
  LRDP. We look forward to early conversations about any development proposed for
  this area.

  Kent Snyder RPP, MCIP
  BRANCH MANAGER
  PLANNING AND ENVIRONMENT SERVICES
  URBAN PLANNING AND ECONOMY

**University of Alberta response to comments from the June 29, 2021 open house and
comments regarding the June 29, 2021 summary of comments:**

All comments regarding the South Campus – Sector 14 amendment have been documented and
will be forwarded to the Board of Governors for future considerations and decisions.

Once the South Campus – Sector 14 Long Range Development Plan amendment is approved
by the Board of Governors and the consultation for the amendment is confirmed by the
Minister of Advanced Education, the Board of Governors will consider a motion to transfer
Sector 14 to the UAPTI.

Proposed next steps for Sector 14

• It is anticipated that Sector 14 will be transferred to the University of Alberta Properties Trust Inc. (UAPTI) for future development.

• Sector 14 is currently zoned as an Alternate Jurisdiction and planned under section 6.3 of the University of Alberta Long Range Development Plan 2002.

• When transferred to the UAPTI, Sector 14 will fall under the municipal zoning regulations and any development will follow the municipal planning and development process.
Anticipated plans for Sector 14 with UAPTI:

• Proposed development:
  • Residential development in all forms – single-family attached and detached, multifamily and low-rise town homes.
  • Commercial/Office – May include retail and neighborhood commercial mixed-use opportunities integrated to support both residents and the surrounding communities.
  • Park/Recreation – Space will be allocated to allow for green space and include park and recreation space, pedestrian and bicycle connections, trails, parks and other open spaces.

• Proposed timeline:
  • July 2022 – UAPTI may begin area development plan.
  • Late Winter 2022 – UAPTI may being engagement process with stakeholders.
  • 2022 – 2025 – Planning and community/stakeholders engagement continues.
  • 2025 – Possible first parcel development.
