GSA Council Member Announcements
4. GSA Council Member Announcements

Action Items
5. 2020-2021 GSA Board Strategic Work Plan
   Marc Waddingham (GSA President) presented the item.
   
   MOTION BEFORE GSA COUNCIL: That GSA Council RECEIVE FOR INFORMATION the 2020-2021 GSA Board Strategic Work Plan.

   M Waddingham provided members with a brief overview of the document before them, including that the format mirrored that of recent years’ GSA Board Strategic Work Plans (SWP) and that a number of priorities built on achievements and developments from last year. It was also noted that, while not explicitly mentioned in the SWP, the upcoming academic restructuring plan would likely shape much of the work of 2020-2021.

   Members raised a number of questions in the ensuing discussion, including, among others: how the GSA intended to balance its priorities with the limited budget the University was expected to operate under (some of the GSA’s strategic priorities are remedied by institutional centralization, which is expected to be a side effect of the limited budget and the academic restructuring); what steps the GSA was taking to show support for and collaboration with with the Black Graduate Students’ Association (BGSA) and the Indigenous Graduate Students’ Association (IGSA) (the GSA has consulted with both groups prior to releasing its 12 June 2020 statement in support of Black, Indigenous, and People of Colour graduate students, found here, and is expecting to meet soon with both groups to discuss their key strategic priorities); and whether the GSA intended to consider creating a committee to address issues of equity, diversity, and inclusion to help its initiatives in the aforementioned vein (feedback on this matter was welcome and it would also be discussed with the BGSA and the IGSA).

   MOTION: That GSA Council RECEIVE FOR INFORMATION the 2020-2021 GSA Board Strategic Work Plan. J Kennedy MOVED; B Stark SECONDED.
   Motion PASSED unanimously

Elections
6. GSA Council Elections
   Radim Barta (GSA Nominating Committee (GSA NoC) Chair) presented the items.

   R Barta explained to members that the Speaker would recuse herself from this agenda item, as it pertained to the election of GSA Speaker and Deputy Speaker. R Barta asked the nominees the following question: “Taking 45 seconds, please tell us why you would like to serve as GSA Speaker/GSA Deputy Speaker?” All nominees were present and given the opportunity to respond in front of GSA Council members. R Barta then opened the floor for questions. Members posed a series of questions and nominees were given the opportunity to respond.

   a. GSA Speaker (1 vacancy):
      Pranidhi Baddam (Dentistry)
      Michael Trites (Physiology)
R Barta concluded the item by clarifying the role of Deputy Speaker. Members were then provided with the link for electronic voting.

Standing Committees

b. GSA Appeals and Complaints Board (1 vacancy):
   Janine Tine (Elementary Education)

R Barta and Taghian Dehaghani (Mechanical Engineering representative and GSA Nominating Committee (GSA NoC) member) outlined the role of the GSA Appeals and Complaints Board (GSA ACB) in hearing and deciding on complaints against GSA Officers and hearing appeals of Chief Returning Officer (CRO) decisions in GSA elections. R Barta also explained that GSA Policy related to filling vacancies on this committee stipulated that the GSA NoC interviewed and vetted nominees prior to GSA Council holding an election.

R Barta asked the nominee the following question: “Taking 45 seconds, please tell us why you would like to serve on the GSA Appeals and Complaints Board?” The nominee was present and given the opportunity to respond to in front of GSA Council members.

Reports

7. President
   i. President’s Report:
      Members had before them a written report, which had been previously distributed on 12 June 2020. The report stood as submitted. In addition, M Waddingham noted that the GSA released a statement in solidarity with Black, Indigenous, and People of Colour (BIPOC) and that this was only a first step in supporting BIPOC graduate students and combating racism.

      M Waddingham also noted that campus was re-opening and some graduate student may be returning to regular activities; he stressed that, if a graduate student did not feel uncomfortable safe, they could anonymously contact the Office of Environment, Health, and Safety who could provide a walk-through to ensure safe working conditions.

      He also noted that he hoped to invite the new University President and the Provost to GSA Council to consult with graduate students and advised that the GSA would update members about any town halls or round tables the new President might host.

      M Waddingham next noted that the Alberta government’s roll-out of the new performance-based funding system had been postponed until next year, along with expenditure targets as the proposed metrics are not feasible in the midst of a pandemic. However, he cautioned that this victory may be short lived and the Ministry may initiate further cuts. He also noted that, with the Alberta Vision 2020 sector-wide review, there was a new front for advocacy in the provincial context and student involvement was critical.

      D Ashley asked, in light of the offered seat on the Public Health Response Team (PHRT), did the GSA get any seats on other committees? M Waddingham explained that the GSA now had a few seats under this umbrella: one seat on the subcommittee related to infrastructure that S Parasharamathan sat on and one seat (with a second offered) on the Academic Impacts Working Group (AIWG). Additionally, the Dean of the Faculty of Graduate Studies and Research (FGSR) sat on the AIWG and the GSA would continue to work closely with her at bi-weekly meetings.

      ii. GSA Board
         Members had before them a written report, which had been previously distributed on 12 June 2020. The report stood as submitted.

      iii. GSA Budget and Finance Committee
         No written report at this time.

      iv. GSA Governance Committee
         No written report at this time.

8. Vice-President Academic
   i. Vice-President Academic’s Report:
      Members had before them a written report, which had been previously distributed on 12 June 2020. The report stood as submitted. In addition, S Reddy outlined the items in his report, including ongoing meetings with the Dean of the Faculty of Graduate Studies and Research (FGSR), discussions around dual degree program requirements and the Public Health Response Team (PHRT) at the Faculty of Graduate Studies and Research (FGSR) Council, an open discussion about COVID-19 related challenges at the Dean of
Students’ Retreat, changes to Mandatory Non-Instructional Fees (MNIFs) discussed by the Joint Student/University Oversight Committee, and the possibility of re-opening gym facilities and the costs involved.

N Daniel asked S Reddy to elaborate on the issues students are facing during this time, as discussed during the Dean of Students retreat. S Reddy responded that they discussed both undergraduate and graduate issues, cancellation of some fall courses, and the difficulties and differences associated with remote delivery. M Waddingham added that the retreat split participants into breakout groups and the discussions within his group focused on how associations are dealing with the transition to remote delivery of services. It was noted that the Dean of Students, André Costopoulos, was well aware of most issues facing students.

S Reddy further noted that some issues related to the Athletics and Recreation fee still needed to be resolved in terms of whether it would be applied and if exemptions would be permitted. M Huang asked if there was consideration to allow students to opt out of gym fees. S Reddy stated this was something that was yet to be confirmed. M Waddingham added that there would be new registration codes with different stipulations (involving residence requirements for graduate students), and that it was still unclear but possible that the Athletics and Recreation fee might be waived for certain types of students. The only fee that the GSA knew would likely be waived for Fall 2020 was the Physical Activity and Wellness (PAW) Centre fee. P Chaudhuri Basu asked what other specific changes to MNIFs were discussed in S Reddy’s meetings and he responded that there could be separate fees for those physically present in comparison to those attending remotely but this was not confirmed yet and more information would be forthcoming.

9. Vice-President External
   i. Vice-President External’s Report
   Members had before them a written report, which had been previously distributed on 12 June 2020. The report stood as submitted. In addition, A Fassih highlighted the work of Graduate Students of Canada, a grassroots advocacy and activism network focusing on COVID-19-related tuition fee reductions, the Canadian Alliance of Student Associations (CASA) digital conference, at which the GSA was an observer, the continued strategic work of the Alberta Graduate Provincial Advocacy Council (ab-GPAC) with respect to a survey on student housing, the ongoing and challenging Michener Park transition, and the success of the open letter sent by Public Interest Alberta (PIA) to the Minister of Advanced Education.

   ii. GSA Awards Selection Committee
   No written report at this time.

10. Vice-President Labour
   i. Vice-President Labour’s Report
   Members had before them a written report, which had been previously distributed on 12 June 2020. The report stood as submitted. In addition, U Nimmathi highlighted recent work on the Joint Workplace Health and Safety Committee (JWHSC) pertaining to procedures for a safe return to on-campus work, as well as workplace harassment and violence. He also noted that negotiations for the GSA Collective Agreement were underway and that the GSA Negotiating Team expected to receive the University’s proposal shortly. He reminded Academically-Employed Graduate Students (AEGSs) to watch for the GSA’s dedicated AEGS newsletter for detailed updates.

   Members raised a number of questions, including: whether graduate students could refuse to return to work if they serve as carers or guardians for family members (U Nimmathi assured that he would look into it) and whether personal protective equipment would be provided to graduate students (this would be provided by employment supervisors).

   ii. GSA Labour Relations Committee
   No written report at this time.

11. Vice-President Student Services
   i. Vice-President Student Services’ Report
   Members had before them a written report, which had been previously distributed on 12 June 2020. The report stood as submitted. In addition, S Parasharamatham highlighted recent work regarding the U-Pass program as the current four-year term was ending soon, with the next agreement expected to span 2021-2025. He also highlighted with work of the Mandatory Non-Instructional Fee (MNIF) Oversight Committee, the Days of Action Committee, and the Campus Food Bank Board.

   Members raised a number of questions, including: what graduate students could expect in terms of options for the Fall U-Pass (the U-Pass program is an all-or-nothing program (as established by referendum), and while discussions are ongoing, all parties mindful of students’ reliance on the U-Pass for transportation to jobs or for essential errands) and when negotiations regarding the 2021-2025 U-Pass agreement term are expected to commence (right away, as negotiations typically last 4-5 months, after which the GSA will hold a referendum).

   i. GSA Nominating Committee Report
      Members had before them a written report, which had been previously distributed on 12 June 2020. The report stood as submitted. In addition, R Barta urged members to consider the vacancies for GSA Councillors on the GSA Appeals and Complaints Board (GSA ACB), and jointly on the GSA Board (GSAB) and GSA Nominating Committee (GSA NoC). For the joint position on the GSAB and GSA NoC, he noted that this position enabled GSA Council to hold the executive team accountable by participating in their weekly meetings. R Barta himself served in this capacity for a number of years and he encouraged members to consider the benefits of such a position to their professional development. Lastly, vacancies remained for graduate students who wish to serve as the Chief Returning Officer (CRO) or Deputy Returning Officer (DRO).

Question Period

18. Written Questions
   None submitted.

19. Oral Questions
   P-C Ifeonu raised the question of why the University did not collect data on its population of racialized students. M Waddingham admitted that he was not equipped to answer the question at that time, he would be happy to raise it in upcoming conversations with Dr. Milne, Vice-Provost and Faculty of Graduate Studies and Research (FGSR) Dean. A Fassih added, for information, that the University might have the capacity to collect such data as it collected intersectionality data concerning staff.

Adjournment

The meeting was adjourned at 8:10 pm.
Dear GSA Council Members,

10 July 2020

It goes without saying that the COVID-19 pandemic and associated prevention measures will have a profound effect on the GSA’s budget, something that was, of course, not anticipated when the 2020-2021 GSA operating budget was prepared and approved by GSA Council. While the current situation will result in savings in some areas (for example, in costs associated with event hosting, orientation delivery, and advocacy travel costs for Directly-Elected Officers, among others), it will also adversely impact the GSA’s main revenue stream: the number of enrolled graduate students who are levied the GSA membership fee.

While we do not yet have a reliable projection of fall 2020 enrollment levels, in preparing this budget and expenditure report, the financial team (consisting of the Financial Manager, Accountant, Executive Director, and Associate Director, in consultation with the GSA Budget and Finance Committee) has been conservative and estimated a 9% decrease – this number is based on the 5-7% estimate that was previously mentioned by University administration and then increased due to the higher percentage of international student registrations in graduate rather than undergraduate studies (as international students may defer their program start dates in light of current travel restrictions). After taking this revenue loss into consideration, as well as the revenue lost by the current non-collection of rent for the Chopped Leaf food venue in the PAW Center (a portion of which is distributed to the GSA) and the decreased interest levels associated with our investments as the markets respond to the pandemic, we have looked for areas of savings to offset these losses so that we can present a balanced budget at the end of the fiscal year.

It should be noted that, since we are only working with two months’ worth of data related to our revenue and expenses, it is too early to be definitive as to how the GSA’s budget will look by the end of the fiscal year. That said, the financial team is reasonably confident in this forecast and will readjust accordingly in future budget and expenditure reports as circumstances shift. Being mindful of that, I have highlighted a few areas to draw your attention to below.

**Operating Budget**

*Revenue Losses (total projected loss of $158,615 in revenue from the 2020-2021 GSA budget as approved by GSA Council)*

Projected 9% enrolment decrease, resulting in $105,261 less in revenue through the GSA membership fee. This is coupled with our investment revenue decreasing by $20,539 and a projected loss of $5,000 in external committed funding (specifically, the funding we request annually from the Faculty of Graduate Studies and Research for orientation and other outreach programming as in-person events are cancelled for the foreseeable future). We have developed this report with the assumption that we will receive no payments related to our lease agreement with the Students’ Union over Chopped Leaf until January 2021, resulting in a projected revenue loss of $27,815.

*Areas of Saving (total projected savings of $122,307 in revenue from the 2020-2021 GSA budget as approved by GSA Council)*

**Advocacy:** Projected savings of $18,765 owing to opportunities involving travel being put on hold and events moved online (necessitating we pay only moderate registration costs but not travel costs), and reduced in-person meetings with University administration.
Services: Projected savings of $34,550 as a result of cancelled events and associated hosting costs, reduced demand for GSA Graduate Student Group Grants, and reduced demand for external grants.

Governance: Estimated savings of $15,451 owing to not needing to provide food for GSA Council meetings and GSA standing committee meetings, savings associated with Early Call programming being moved online, reduced costs for Directly-Elected Officer (DEO) training expenses as a result of sessions being offered online, and reduced DEO expenses owing to decreased in-person meetings with University administrators and others.

Human Resources: Projected savings of $27,723 as a result of savings in contract hourly employment and budgeted funds for staff transition/overlap between staff appointment terms, reduced professional development opportunities in the current fiscal year, and other small areas (parking associated with work activities, office recognition, etc).

Office Administration: Estimated savings of $6,679 as a result of suspending all planned computer and hardware purchases as per the GSA’s evergreening schedule for the current year (the Executive Director has assessed IT needs with all staff and is confident that this can responsibly be done) and some small savings in other areas (office supplies, etc).

Professional: Estimated reduced need for consultant services in 2020-2021, resulting in a surplus of $7,001. The costs of the labour lawyer from Chivers Carpenter, currently being utilized as a member of the GSA Negotiating Team for collective bargaining, will be paid from the “Legal Fees” line.

Operating/Contingency: Estimated reduced need to potentially utilize the contingency line in 2020-2021, resulting in a surplus of $12,138.

Restricted Budget
We are forecasting reduced ad sales in the GSA Planner as a result of current economic realities. We are planning for a limited print run and will use funds already budgeted for in the “Engagement” line to offset the costs of printing.

In closing, through reconsideration of various budget lines and looking for savings where we can, as well as taking into consideration the original projection of a ~$40,000 surplus at the end of the fiscal year, we are projecting an overall positive bottom line of $4,736. This is down from the originally estimated positive balance of $41,043 but also, importantly, not a deficit (please note that the budget approved by GSA Council in February 2020 noted a projected surplus of $95,978, this was an addition error that has been amended in this current report). The financial team will continue to monitor this situation closely and adjust the budget as needed to address the challenges that arise from this unanticipated event. I look forward to discussing this further with you when we meet in July.

Marc Waddingham, President and Chair of the GSA Budget and Finance Committee, 2020-2021
Outline of Issue

GSA 2020-2021 Spring/Summer Term Budget and Expenditure Report

Suggested Motion for the GSA Council:

That the GSA Council RECEIVE FOR INFORMATION the GSA 2020-2021 Spring/Summer Term Budget and Expenditure Report.

Background:

These regular financial reports ensure year-over-year tracking and monitoring into the GSA’s financial systems, and allow greater control over budget. In addition to yearly comparisons, regular reporting allows for better forward planning and illustrates the GSA yearly financial cycle. This is the first budget and expenditure report on the 2020-2021 GSA’s fiscal year.

The Financial Team (Executive Director Courtney Thomas, CPA and Accountant Shirley Ball, Financial Manager Dorte Sheikh, as well as Associate Director Erika Heiberg) recognize that, while a balanced budget is currently still possible, COVID-19 prevention measures will have a deep impact on the GSA’s budget (for example, savings associated with events being cancelled and decreased grant applications, offset by costs associated with moving meetings and services online, and, most importantly, revenue losses due to projected decreased enrollment levels in the coming months and depressed interest rates on the GSA’s investments). More information can be found in the attached cover letter.

The GSA BFC received, for information, and forwarded to the GSAB the GSA 2020-2021 Spring/Summer Term Budget and Expenditure Report at their meeting of 22 June 2020 and it will come before GSA Council, to be received for information, on 20 July 2020. GSA BFC members have been invited to attend both this meeting of the GSA Council meeting. The GSA Board, likewise, received the GSA 2020-2021 Spring/Summer Term Budget and Expenditure Report and forwarded it to GSA Council at its meeting of 8 July 2020.

Jurisdiction:

GSA Bylaw and Policy, Section K: Finances, GSA Policy, Budget Principles and Procedures, Section K.POL.3.4.a:

“The Accountant and Financial Manager will regularly (in the fall, winter, and spring/summer terms) prepare a Budget and Expenditure Report which will first be submitted to the Executive Director (ED) (or delegate), then the GSA President and then to the GSA BFC, the GSAB, and to GSA Council for information. It is suggested that these reports be organized by budget divisions and lines, with the following information in easy-to-follow columns: current budget; actual year-to-date expenditure, forecast to the year end, total forecast, balance remaining, percent remaining, informative comment on any variance or approved reallocation, and comment on significant comparisons from previous years. All such reports will be compliant with Alberta’s Personal Information Protection Act and other applicable laws.”

GSA Bylaw and Policy, Section K: Finances, GSA Policy, GSA Standing Committees, GSA Budget and Finance Committee, Section K.POL.5.7:

“The GSA BFC will receive for information and forward to the GSAB reports on expenses and revenues in the fall, winter, and spring/summer terms; these reports will present comparative information from previous years in a way that shows, in transparent fashion, the percent of the annual budget spent to date, by budget division.”

Prepared by C Thomas for GSA Council 20 July 2020

### Explanatory notes:
Under the variance column red numbers indicates less revenue received than budgeted. Black numbers indicate an expense savings. 0% means no variance at this point, budget is on target.
Variances:
- for Revenue the variance is the total for the 2020-2021 year subtracted by the approved budget amount.
- for Expenses the variance is the approved budget amount subtracted by the total for the 2020-2021 year.

Projected surplus funds will be applied to the Financial Stabilization Fund.
1. Projected decrease in GSA Fees revenue due to anticipated decrease in graduate student registrations due to COVID-19.
2. Projected decrease in Interest Income revenue due to drop in bank interest rates.
3. Projected decrease in External Committed Funding due to expected loss of funding from the Faculty of Graduate Studies and Research.
4. Projected decrease in Revenue from Commercial Activities due to closure of Chopped Leaf outlet in the PAW Centre due to COVID-19.
5. Projected savings in Advocacy as a result of less travel due to COVID-19.
6. Projected savings in Services due to lower events expenses (such as orientation).
7. Projected savings in Governance due to lower DEO expenses and council expenses due to COVID-19.
8. Projected savings in Human Resources due to decrease in contract hourly expenses and lower expenses in the Professional Expense Allowance line.
9. Projected savings in Office Administration and Operational costs due to lower expenses for Capital Items and Office Supplies and Maintenance.
10. Projected savings in Professional due to lower expenses in the Consultants line.

Since only two months of actuals are being reported the budget variances are very preliminary.

| GSA Fees (annual membership fee) | $1,064,297 budget reduced from approved $1,169,558 budget | ● The Graduate Students’ Association (GSA) is supported by graduate student annual membership fees which are levied by GSA Council and collected by the University. The fees received are based on the number of full-time and part-time graduate students attending the University. Following approval of the fee amount by GSA Council, the annual fees are submitted to the University Board of Governors to provide for collection.  
● Based on the three-year funding agreement signed between the GSA and the University on February 6, 2019, the GSA will receive:  
  o 40% advance in May based on the projected fall/winter enrollment;  
  o 90% (of fall term fees) in October based on the assessed fees for the fall/winter terms, after the fall term 100% withdrawal deadline in October;  
  o 90% (of winter term fees) in February based on the assessed fees for the fall/winter terms, after the winter term 100% withdrawal deadline in February;

Outline of Issue

Recommended Changes to GSA Bylaw and Policy, Section H: Performance, Conduct, Responsibilities, and Attendance, and the GSA Appeals and Complaints Board, GSA Policy, GSA Standing Committees, GSA Appeals and Complaints Board

Suggested Motion for GSA Council:

That GSA Council, on the unanimous recommendation of the GSA Governance Committee, APPROVE recommended changes to GSA Bylaw and Policy, Section H: Performance, Conduct, Responsibilities, and Attendance, and the GSA Appeals and Complaints Board, GSA Policy, GSA Standing Committees, GSA Appeals and Complaints Board, as shown in the attached track changes document and effective upon approval by GSA Council.

Background:

As part of the GSA’s regular review of GSA Bylaw and Policy, a few changes to the section on the GSA Appeals and Complaints Board (GSA ACB) (Section H) are recommended. Substantive changes include:

1. Changes to Section H.POL.7.3 to note that the Chair and Vice-Chair will be elected by the other members of GSA ACB (on the recommendation of the GSA Nominating Committee (GSA NoC)), rather than the Chair and Vice-Chair being elected by GSA Council. The thinking behind this was to a) free up some time in terms of GSA Council’s workload, b) to better align with the terms of reference for other GSA standing committees and c) because GSA ACB members who have received training in procedural fairness might be better equipped to elect their Chair and Vice-Chair than members of GSA Council who will not have had that training.

2. Changes to Section H.POL.7.4 to remove the stipulation that, where possible, terms for GSA ACB members will run from October to September. Vacancies on the GSA ACB are perennial and these sort of set terms tethered to specific months have never been aimed for, nor is it felt that there is a compelling reason that they should be.

These recommended changes, alongside several editorial ones, are noted in the attached track changes document.

As these recommended changes also affect GSA NoC processes, the Chair and Vice-Chair of that committee have reviewed and are supportive of them. Likewise, the recommended changes were also circulated to the members of the GSA ACB, and no concerns were raised. Finally, the GSA Governance Committee voted to recommend the changes to GSA Council via email vote on 26 June 2020 and the GSA Board reviewed the recommended changes prior to onward transmission to GSA Council at its meeting of 8 July 2020.

Jurisdiction:

Section F: Standing Committees, GSA Policy, Standing Committees, Section F.POL.4.2.a
The GSA GC will “advise GSA Council on matters of GSA Bylaw and Policy not in the purview of any other GSA Standing Committee, or other governance issues, and recommend changes to GSA Council.”

Section A: Authority, GSA Bylaw, Authority, Section A.BYL.2.2
“GSA Policy is under the jurisdiction of GSA Council and may be amended by a simple majority vote of GSA Council at any meeting of GSA Council.”
6.1

GSA Policy: GSA Standing Committees, GSA Appeals and Complaints Board¹

H.POL.6 Jurisdiction and Mandate

H.POL.6.1 The GSA Appeals and Complaints Board (GSA ACB) is responsible for hearing and deciding appeals of GSA Chief Returning Officer (CRO) decisions and complaints about GSA Officers and Councillors-at-Large (CALs) as allowed by Section 94(3) of the Post-Secondary Learning Act.

H.POL.6.2 The GSA ACB hears and decides on the following matters through Hearing Committees:

CHIEF RETURNING OFFICER

Michael Huang

Statement of Interest

The office of the Chief Returning Officer requires a candidate with a mindset of neutrality and impartiality, a keenness for collaboration, and a practice of effective time management to carry out his/her duties. While this will be my first time leading the administration of an election, I believe that I have the necessary qualifications and experience to play a role in ensuring democratic representation in the GSA is carried out through elections and referenda.

As an undergraduate student, I volunteered in and was elected to various positions, through which I played an active role in representing the voice of my peers, and by which I was introduced to the structures of administration in the University of Alberta. My experience in the Canadian federal government helped me develop professional working skills in collaborating with my colleagues across the country towards carrying out national campaigns within sensible timelines.

Furthermore, my experience in the Canadian federal elections highlighted to me the importance of the electoral process at all levels of democratic institutions. As a U of A graduate student, I wish to contribute my skills and experiences towards ensuring fair, representative elections to the GSA, as your 2020-2021 CRO.

Bio

I was born in Shanghai, China, and I’ve had the pleasure of calling Edmonton home for much of the past 22 years. My academic and professional life has taken me across the country, from Manitoba to Quebec to Nunavut, and abroad in France. As a graduate student, I am working towards a thesis on the economic aspects of wildfire suppression in Alberta, towards my Master in Science in Agricultural and Resource Economics (Faculty of ALES).

My favourite summer activities include backcountry camping and long road trips with no real destination in mind; however, this summer, I will stick a bit closer to home, looking forward to explore some of the hidden gems of Edmonton by bike. When I’m not doing a literature review on forestry sciences or experimental economics, I try to improve my Spanish and French through reading — usually comics and graphic novels, but currently, I’m also enjoying Colombian novelist Gabriel Márquez’s Cien años de soledad (One Hundred Years of Solitude).

Summary Resume

As an undergraduate student at the U of A, I was actively involved in student life as a Campus Sustainability Volunteer (2012-2014), VP Academic for the Environmental Sciences Students’ Association (2013-2014), and General Faculties Councillor for the Faculty of ALES (2014-2015). In the respective roles, I was responsible for engaging the campus community with environmental education programs, creating academic resources for my cohort, as well as bringing concerns from students in my faculty to the university’s decision-making body. These experiences helped me better understand the culture of the university, as well as its administration.

In my professional life as a Compliance Promotion Officer for Environment and Climate Change Canada (2015-2019), I was responsible for gauging feedback from thousands of Canadian individuals and companies who report to environmental regulations. Towards that mandate, I designed and distributed information and registration packages, as well as anonymous online public surveys, in both official languages. My role as a public servant required both impartiality and professionalism in carrying out public administration, in coordination with our national headquarters, and in collaboration with our
regulated community. As well, towards meeting expected service standards, I was challenged to effectively manage my work hours to carry out national mailout campaigns, and to develop responses to questions from the public.

Further, I have had first-hand experience in election administration, as a Poll Worker for the voting day of the 2011 Canadian federal elections. As an Elections Canada staff, I was responsible for ensuring proper voter registration, clarifying the voting process to voters, and ensuring that political neutrality and voter privacy was maintained at the polling station.

In 2020-2021, I hope to carry out the role of Chief Returning Officer with the professionalism that this office demands, and the enthusiasm to carry it through a year of unprecedented circumstances.

Statement of Interest

During my undergrad days in India, I was an executive member in the local chapter of Enactus and Rotaract at my college. I was also part of the organizing committee for annual events during all four years at my college, such as Biotechcellence, a national conference and “War of words”, an event conducted by the English literary club of my college. My responsibilities included, public relations, marketing, account handling and organizing events. I consider myself to be a great team player with good professional and communication skills. Although I have had no formal experience in conducting elections in the past few years, I have had the opportunity to coordinate a student election for house captains and school pupil leader during my high school days. In addition, I was also a part of the selection committee, where we interviewed and recruited over 50 members for Enactus. I believe that my ability to grasp information quickly, adapt to any unforeseen circumstance and good organizational skills will help me work well under pressure and make me a suitable candidate for this position.

Bio

Being born and raised in India, I recently moved to Edmonton in Fall 2019 to pursue my Master’s in Pediatrics. I am currently working with Dr. Yager and Dr. Unsworth on developing a nano-based drug delivery system for treating brain injury in newborns. I aspire to become a neuroscientist and contribute towards the advancements in science. Since this is my first-time outside home and halfway across the world, I did face a lot of challenges owing to the novelty of the situation. Nevertheless, I have overcome the difficulties and learnt to make the best use out of it. I am an ambivert and an advocate for mental health. On the other hand, I am also passionate about singing and dancing and would love to travel the world once I have saved up adequately.

Summary Resume

Having done my undergrad in Biotechnology, I worked as a project associate at a computational neuroscience lab for a couple of years before my advent into the University of Alberta. I worked as an executive member in Enactus and Rotaract during my undergrad days where I was responsible for marketing, sponsorship, and recruitment process. For each organization, we interviewed approximately 150 candidates and selected 50 of them based on their interest and qualifications. Furthermore, I was involved with the research and development team, where we created new business ideas and successfully implemented them. I was selected to represent my college at the Enactus Nationals competition in 2016. With the Rotaract, I was actively involved in organizing fundraiser events and blood donation camps. As mentioned previously, I had not been exposed an electoral duties over the past few years, but if given an opportunity at the GSA, I assure you that I would do the needful in an unbiased, fair and respectful manner.

**Statement of Interest**

The experience I gained as the CRO (Chief Returning Officer) during the general elections in 2020, would help me in performing the duties of CRO for the general elections in 2021, effectively. Moreover, the experience I gained as the DRO (Deputy returning Officer) for the general elections in 2019 and as a member of GSA ERC in 2018 would be an asset to my role as a CRO. As one of the adjudicators, in the GSA ASC, I have acted fairly in every aspect of its work. Moreover, the numerous leadership and volunteer roles I took during my undergraduate studies developed my fair decision-making abilities and has given me plenty of experience in conducting and coordinating different kinds of events which would be beneficial for the organization of the events pertaining to the GSA elections.

**Bio**

I am from Delhi, India. I am fluent in English and in some other regional languages of India. I did my B. Tech in Biotechnology at Vellore Institute of Technology, Tamil Nadu, India. During my undergraduate years, I was actively involved as a participant, volunteer and organizer in clubs, fests and in other extra curricular activities. I love travelling and playing badminton. I am always interested in pursuing new things. At University of Alberta, I have been involved in student governance bodies like GSA ERC, GSA ASC, ALES GSA and AFNS GSA since 2017. I am currently serving as VP Student Life with ALES GSA.

**Summary Resume**

I am a fourth year Ph.D. candidate at the Department of Agricultural, Food and Nutritional Science. I am working in the food safety engineering lab under the supervision of Dr. Roopesh Syamaladevi. At University of Alberta, as the CRO during the general elections in 2020, I came across many situations that involved quick decision-making and leadership qualities. Also, as the DRO during the general elections in 2019, I got the opportunity to manage and preside over majority of the work due to the unavailability of the CRO. I was also involved with the GSA as a member of ERC and ASC in 2018. I was elected as VP External with AFNS GSA for two consecutive terms, which further honed my interpersonal skills. These roles gave me bulk of experience on how university governance functions and would help me in making fair decisions and work productively as the CRO for the upcoming year. My schedule is flexible to incorporate the works related to the events and affairs pertaining to the GSA.

**Statement of Interest**

I have planned and managed two municipal elections with the City of Wetaskiwin (the 2017 general election and the 2019 by-election), and am currently planning my third municipal election for the City of St. Albert (the 2021 general election) where I currently work. While municipal elections undoubtedly have their differences to GSA Elections, I hope I can bring my elections experience to a new and exciting challenge.

**Bio**

I am a proud native Albertan who not only had the privilege to take my undergraduate studies at the University of Alberta, but my graduate studies as well. I have an undergraduate degree in political science and certificates in International Learning, Global Citizenship, and the National Advanced Certificate in Local Authority Administration Level I.

During my second year of my undergraduate degree I started volunteering with Safewalk, with the undergraduate students’ union where I became familiar with the importance of student’s unions and their work for students.

Upon graduation from my Political Science degree I entered the work force where I quickly became immersed in a new breed of governance, municipal governance. I started my career in municipal governance because I wanted to make a difference in my community which through my work in coordinating elections, or in developing and rolling out initiatives such as the City of Wetaskiwin plastic bag ban, I believe I have done.

**Summary Resume**

My experience working in a Students’ Union previously, as well as my extensive experience working in municipal government has giving me strong understanding and appreciation for governance, its importance, and the importance of good and honest elections to facilitate democracy.

**Statement of Interest**

I worked in an International FSAE team during my under graduation. I was a member of vehicle dynamics department of the team and eventually went on to become the treasurer and garage head of the team. I have very good experience of working in a team and how to face various challenges that comes along the way. I was also a member of the Rotaract Club of the University and eventually went on to become the Treasurer and then served as the Vice-President of the club. Working as DRO requires extreme planning, hard work and impartiality which I developed while working in the Rotaract club and FSAE team.

**Bio**

I am an individual who grew up in a family with a lot of values and which respects culture. I was always oriented to studies since my childhood and eventually secured a seat in of the top colleges in India for my under graduation. During my studies I not only performed well academically but also made sure that I grow as an individual. However, I felt that there is much more to learn and that made me pursue my Master’s in University of Alberta. The aim of my life is to solve the problem of unemployment in the
society by creating jobs for talented youth. I have set this as my life goal and I am working towards it step by step.

Summary Resume

My current GPA in University of Alberta is 3.8/4.
I secured a CGPA of 9.70/10 in B.Tech in Mechanical Engineering from Vellore Institute of Technology, India.
I did my Internship from NTPC Ltd. in India and worked on the project assigned by the company. I was a part of International FSAE team of my university and worked as a team member and went to work as garage head and treasurer of the team.
I served as the Treasurer and Vice-President of the Rotaract club of Vellore Institute of Technology.
Organized 2 blood donation camps as the Vice-President of the Rotaract club.
Started the go-green initiative by organizing plantation drive in the university during my term as the Vice-President of Rotaract Club.
Organized a series of multicultural events as the Vice-President of the club with an aim of uniting people of different cultures and backgrounds and to make people aware of various cultures.
Organized a donation camp to help the needy people and orphans.
I also worked as volunteer for Women Development Cell of the university and organized various events and programs which were focused on the upliftment of the women in the society.
President Report to GSA Council for the 20 July 2020 Meeting

To: GSA Council
From: Marc Waddingham
Date: 17 July 2020

To my colleagues in Council,

Although an uncharacteristically rainy summer, I trust that you have taken the opportunity to unwind outdoors now that we find ourselves at something of a rest-point in the midst of the pandemic. I would recommend that we all take the time to recharge after a severely stressful season, given that our Fall 2020 semester will be uniquely challenging with a new online learning environment. If you are interested, the Center for Teaching & Learning will be hosting clinics for those teaching in the fall, which may be of interest to your respective memberships.

I had the opportunity to meet with the Indigenous Graduate Students’ Association executive for our kickoff conversations regarding their organization, upcoming events, Indigeneity on campus, as well as an overview of their advocacy routes and campus stakeholders. We had an active discussion regarding the GSA striking an ad hoc subcommittee/task force on Equity, Diversity, and Inclusion (EDI), to which they were receptive. Although we still have some work to do regarding the scope and goals of such a group (and it is something that I’d like to also discuss with the Black Graduate Students’ Association (BGSA) executive), I believe it important that the GSA take the lead and give voice to those who can help us to preserve the diversity of our organization.

Although my meeting with the BGSA is still forthcoming, I have been working with campus stakeholders regarding specific calls to action from the BGSA, specifically the ability of the University to collect data concerning racialized graduate students. While you can imagine this is a highly sensitive subject, the rationale that progress on EDI initiatives is difficult to determine without cohort data showing that these principles are being upheld. Members of University administration are in agreement that this type of data would be helpful, but they are wary of the social and legal hurdles that would need to be cleared in order to begin collection of the data. This process has already been completed for faculty and staff, with data being collected and subsequently anonymized, indicating that the same process could be applied to students. My conversations on this remain ongoing.

The University of Alberta for Tomorrow project continues to make headway, between the dual-prong approach via the Academic Restructuring Working Group (ARWG) and the Service Excellence Transformation initiative. There have been townhalls for both items, with University community members invited to share their input in real-time through the ThoughtExchange platform, which proved successful in encouraging discussion on a variety of topics. GSA Council consultation on these matters remains a high priority, and we are currently finalizing details for a presentation from President Flanagan and Provost Dew in September. This event will be an important milestone for the ARWG on the graduate education front, and if you have colleagues from your units interested in attending, they are welcome to join as members of the public and submit questions in advance to their respective Councillors.
Ongoing consultation with graduate students will be essential going forward, and we are investigating the best avenues to gauge graduate student opinion on this important initiative. We are considering small group sessions and town halls to collect feedback from our constituents, and I would like to hear your recommendations on your preferred method of outreach in consideration of the rather ambitious timeline the transformation project is on.

The Students’ Union President Joel Agarwhal and I are collaborating on the issue of Campus Sexual Violence (CSV), and will be sitting on a high level University task force to address the incongruities of the current reporting framework. While the specific terms of reference and outcomes need to be set, we are taking the issue extremely seriously, and it should be noted in the case of graduate studies that CSV intersects with many factors, including steep power differentials and occupational safety. I will keep Council updated as the task force sets out on its mission, and I am seeking to have a comprehensive update on the project by September.

As always, I look forward to your comments or questions on these matters and other topics.

Kind regards,

Marc Waddingham, President 2020-2021

GSA Budget and Finance Committee  
Report to GSA Council for the 20 July 2020 Meeting

To: GSA Council  
From: Marc Waddingham  
Date: 17 July 2020

Dear Council Colleagues,

The GSA Budget and Finance Committee (GSA BFC) met on 22 June 2020 to review the GSA’s 2019-2020 draft audited financial statements as presented by our Auditor, Tom Gee (RSM). The GSA is required by the Post-Secondary Learning Act (Section 97(1)) to have an annual audit, which is ultimately presented to the University Board of Governors.

At this meeting, we also reviewed and discussed the draft Spring/Summer Term Budget and Expenditure Report prepared by the GSA’s Financial Team (Courtney Thomas (Executive Director), Shirley Ball (Accountant), Dorte Sheikh (Financial Manager), and Erika Heiberg (Associate Director)). This item was also reviewed by the GSA Board at their 8 July meeting and is now presented to GSA Council for information.

Since the 22 June 2020 meeting of the GSA BFC, RSM (our audit firm) identified that some changes were needed to the way in which funds related to the GSA Health and Dental Plan were presented. As a result of this being identified, the audited statements now need to be reviewed and reconfigured in this area, meaning that they will now proceed to GSA Board and GSA Council in the fall, following another review by the GSA BFC when completed. Please note that this relates to the presentation of the statements and not to any issues with the GSA’s financial position or audit overall.

Sincerely,

Marc Waddingham, President and Chair of the GSA BFC

These recommended changes will be before GSA Council on 20 July 2020.

Dear Council Colleagues,

I hope you all are doing great in these sunny and rainy days. I have attended several meetings in the past month, and I am happy to share a few updates from those.

- GSA President Marc Waddingham and I met on multiple occasions with Dr. Brooke Milne, Dean of Faculty of Graduate Studies and Research (FGSR). She spoke about the budget cuts the University is facing and mentioned that FGSR is committed to supporting graduate students. We also spoke about synchronous and asynchronous teaching methods. The Academic Impacts team is working on this, as well as matters related to online assessments. The add/drop deadline and the course withdrawal deadline remain the same. There could be some changes if more concerns are raised.

- I attended the University Research Policy Committee (URPC) meeting. The Office of the Vice President, Research and Innovation (VPRI) received a 12.8% cut to its 2020/2021 operating budget. For the VPRI, this cut equates to almost a $2 million reduction in their operating budget. Due to this, there will most likely be a reduced number of positions in their office. This has not yet been implemented; they are working to keep disruptions minimal and manageable. They are going to develop a new structure of the VPRI that consolidates and aligns the portfolio’s services/ functions to better serve the University’s research community. Priorities are to optimize services and service delivery, and create efficiencies in compliance related tasks within the Research Administrative Service. That office will work closely with the research community and offer services like a dedicated help desk, research application development help, and provide reports, analyses, data and information to faculties on specific research application activities and provide enhanced support to postdoctoral fellows. They are trying to categorize essential research and accommodate those people working remotely. The Deans and Associate Deans of different faculties are accepting registrations regarding on-campus research. They are working on exceptions for those researchers who need to take care of their children.

- I attended the General Faculties Council (GFC) meeting, in which Dr. Milne, Dean of FGSR spoke about the student supervisory relationship. The Office of the Vice-Provost and Dean of FGSR began discussions across campus to develop concrete administrative approaches that can tangibly shift our institutional culture as it relates to graduate student supervision. This initiative focuses on fostering strong, positive student-supervisor working relationships through consistent, transparent processes that will monitor student progress, and ensure constructive and timely feedback. Further, they will inspire and facilitate conversations aimed at establishing clarity and agreement on Student-Supervisor expectations, responsibilities, financial support, and goals, which can then be revisited year over year, and adjusted as needed. At this meeting, University Provost Steven Dew announced that the University is committed to prioritizing and sustaining student, faculty, and staff health, wellness, and safety by delivering proactive,
relevant, responsive, and accessible services and initiatives, and mentioned that they are trying their best to ensure that the University of Alberta’s campuses, facilities, utility, and information technology infrastructure continues to meet the needs and strategic goals of the University.

- We had a meeting with C Swindlehurst, Interim Vice-President (University Relations). We spoke about our priorities for the upcoming year and mentioned a few of the problems faced by graduate students.

- I have attended a couple of meetings concerning Indigenous-Engaged Research and Scholarship in Education. The speakers spoke about their experiences as Indigenous people and some of the challenges they have faced with relation to access to academia. It was a great learning opportunity.

If you have any concerns about this report/concerns regarding any academic related issue feel free to reach me at gsavpaca@ualberta.ca. I will be more than happy to answer your questions.

Regards,
Sachiketha Reddy Paspula, Vice-President Academic 2020-2021

To: GSA Council  
From: Anas Fassih  
Date: 17 July 2020

Dear Council members,

I trust all is well. I am delighted to share a few highlights from the meetings I attended this month:

- On 17 June, I attended an Alberta Provincial Advocacy Council Meeting (ab-GPAC) Board Meeting where both the Governance and Outreach committees presented their reports. As both committees are still in their early formation, the first meeting was about providing an overview or our goals and strategic plan for the year with regard to priorities and expected tasks, and kick-off of individual GSA presentations. Each member GSA has to appoint at least one representative to make a presentation twice a year. On 5 July, Athabasca GSA started; others will follow. Further, Chris Bell, ab-GPAC Executive Director, presented his monthly report which highlighted some actions to fight racism that move beyond the issuing of statements. Then he talked about how ab-GPAC will react to external events. With a focus on how can we ensure, as a provincial council representing 16000 students, that we are proactive rather than reactive. He also talked about media engagement and how ab-GPAC deals with the media as an important stakeholder.

- On 22 June, I attended a Public Interest Alberta (PIA) Post-Secondary Education Task Force meeting on behalf of ab-GPAC. In this meeting, we discussed the task force campaign and the financial contribution of each individual organization to this campaign. From our end in ab-GPAC, we have yet to decide what we are able to contribute. The second part of this meeting focused on campaign messaging and whether we will weigh in more on online or physical advertising. Messaging will center on performance-based funding, the government’s review of the post-secondary sector (Alberta 2030), and the situation around COVID-19.

- On 23 June, I attended an ab-GPAC meeting with the Ministry of Advanced Education. We discussed our top priorities and how can we ensure that engagement with government is constant, rather than intermittent. The Office of the Ministry said they are happy to schedule meetings with us any time and are willing to engage in matters of interest to post-secondary.

- On 24-30 June, I attended the ab-GPAC Board Retreat. The retreat started with a presentation on government relations and how to help ab-GPAC find opportunities to engage in provincial advocacy rather than look for someone to do it for them. The presentation centered on the main pillars of government relations: issue identification, identifying the circle for potential alliance and collaboration, and being aware that the box to change government decision is always very small. The second session of the retreat was a Land Acknowledgement Workshop led by ab-GPAC Board Chair Evan Wong. He talked about the definition of a land acknowledgement and its importance, ending the session with each ab-GPAC director writing their own land acknowledgement and sharing it with the group. The third part of the retreat was on ab-GPAC’s policy priorities, which include promoting impact, attainability, knowledge creation, and foundation for the future. Advocacy priorities include professional development, indigenization, public relations, scholarships and funding (incl. for mental health), housing, and affordable post-secondary education.

- On 30 June, ab-GPAC hosted a special board meeting to approve a motion on an extra-budgetary expenditure not exceeding $ 2,650,00 CAD for the purposes of obtaining media training for ab-GPAC representatives. The purpose is to support ab-GPAC members to work effectively with the media. We also
agreed that each member GSA can introduce other executive members for media training and ab-GPAC will pay for it.

- On 3 July, my fellow executives and I had a meeting with C Swindlehurst, Interim Vice-President (University Relations) regarding GSA initiatives. We discussed our key priorities for this academic year. For my part, I mentioned the Michener Park transition, affordable housing for all graduate students, post-graduate work permits and immigration for international students, increase of funding for student caregivers, provincial responses to the COVID-19 crisis in post-secondary education, and funding for mental health as top priorities for my external and internal advocacy this year. When asked about our vision for the University of Alberta Tomorrow, I mentioned two key things that senior administration should heed in collaboration with us. First, we need to ensure that courses designed by individual professors are compatible with students’ needs for the market, rather the professoriate’s research interests as it is the case now. Second, there is a strong correlation between the enrolment of international students and immigration. International students go where there is a flexible and ‘easy’ immigration system, and thus it is probably in the best interests of the University to push the government to introduce immigration streams alongside student advocates.

- On 6 July, I attended the Michener Park Transition Advisory Committee (MPTAC) meeting. 31 residents are still in the building. They continue to offer virtual check-ins as an alternative to door-to-door check-ins, and offer social support based on individual needs. Since 31 July, the deadline to move-out, falls on the Friday of the long weekend, they are offering a flexible move-out deadline, and residents can have until the Tuesday (2 August) to move without any penalty.

- On 9 July, I met with K Huising, Associate Vice-President of Ancillary Services, to further discuss move-out plans for Michener Park residents. I followed up on the student parent whose partner still stuck outside of Canada and if they provided any alternative lodging for her as promised. K Huising said she will continue to ensure that no one is stuck. For now, the decision is that everybody has to move out by the end of July, even if only to another residence on campus temporarily. Again, if you know anyone stranded with no accommodation, connect them to me directly and I will connect them to K Huising to find an alternative for them. K Huising is willing to work with us to help these individuals.

- On 9 July, I had a meeting with the ab-GPAC Advocacy and Outreach Committee, in which we agreed on outreach and advocacy priorities. Since some policies of the governance committee and outreach committee dovetail each other, we needed someone from the Outreach Committee to sit in on the Governance Committee to review a one-page policy draft. Marc Waddingham volunteered to sit on that committee as he chaired it last year.

- On 9 July, I had my first meeting as part of the Search Committee to hire a new Vice-President (Finance and Administration). We went through the job description and other details of the discussion are strictly confidential.

- On 10 July, President Marc Waddingham and I had a meeting with the ab-GPAC Chair, Evan Wong, ahead of his meeting with the Council of Post-Secondary Presidents of Alberta (COPPOA) to discuss our key priorities for Evan to bring up in the meeting. We mentioned funding for graduate students who are key for universities to function in terms of the literature they generate, their support for faculty to bring funding, and their TAship contributions. Also, we talked about immigration and how post-secondary presidents can play a role to push the government to heed that seriously.

- On 13 July, I had a meeting with the Edmonton Students’ Alliance (ESA), in which we voted for our three key priorities, namely transportation, student employment, and affordable housing. As for the latter, I suggested that individual organizations/associations should consider conducting research around student housing. We can use this data to lobby the city, government and province. I also mentioned that we are in
the process of discussing the adoption of a research survey on student housing in among the ab-GPAC member universities, and asked if they would also be interested to adopt the same survey.

That concludes my monthly report. Should you have any question, please do not hesitate to ask in our Council meeting or reach out to me directly at: gsa.vpexternal@ualberta.ca.

Cheers,

Anas Fassih, Vice-President External 2020-2021

Vice-President Labour
Report to GSA Council for the 20 July 2020 Meeting

To: GSA Council
From: Umesh Nimmathi
Date: 17 July 2020

Dear Council Colleagues,

I hope you are keeping safe and enjoying this summer by continuing to maintain social distancing. Here are some of the highlights of the meetings that I have attended in the last month.

Meeting with Alberta GSA Labour Relation Roundtable:
Alberta Graduate Provincial Advocacy Council (ab-GPAC) hosted the first meeting of Alberta Graduate Student Associations (GSAs) to discuss labour-related matters and share information. Christopher Bell (ab-GPAC Chair) also briefed attendees on the labour relations research that ab-GPAC will be undertaking. This research will provide a common baseline for how universities and GSAs in Alberta manage their labour relations. It will be useful information to aid GSAs in advocating for what is best for Academically Employed Graduate Students (AEGSs). The was followed by each GSA providing an update on their labour activities. This meeting went well and it is useful to share knowledge, strategies, and resources.

Collective Agreement Negotiations Meeting:
Negotiations for the next GSA Collective Agreement with the University are ongoing and regular updates are being sent. Please note that only those who are currently members of the bargaining unit (i.e., hold a current Graduate Assistantship contract) receive these updates, but any graduate student who wants information about the negotiations process, or the Collective Agreement in general, is welcome to contact me.

Additionally, In accordance with the current Collective Agreement (Article 11.04), the award component of the stipend for Graduate Teaching Assistants and Graduate Research Assistants is a fixed rate based on any change in the graduate fee index. Accordingly, I would like to report that with the 7% increase to tuition for course-based students for the 2020-2021 year, all AEGSs (both those in thesis- and course-based programs) will receive a 7% increase to the award portion of the stipend, starting effective 1 September 2020.

As most classes are going to be online for Fall 2020, resources have been added to support Teaching Assistants (TAs) with remote delivery at the Centre for Teaching and Learning. Please share this with your peers.

As always, if you have any questions or concerns about the Collective Agreement or any general comments or questions, please don’t hesitate to reach out to me at gsa.vplabour@ualberta.ca.

Best wishes,
Umesh Nimmathi, Vice-President Labour 2020-2021

To: GSA Council  
From: Sridhar Parasharamatham  
Date: 17 July 2020  

Dear Council Colleagues,

I hope you all are doing well. I have attended some important meetings since the last Council meeting. Firstly, I attended the Athletic and Recreation Fee Policy Advisory Committee (ARFPAC) meeting, in which there was discussion regarding the fact that 90% of student athletes coming back to campus in the fall for training and the scholarships that they receive to offset tuition costs will still be honored irrespective of their participation. As travel outside the city is not possible, Athletics’ travel budget has been restricted. Athletics has laid off six people temporarily and eliminated six people’s contracts. Also, there was a discussion regarding the start of summer camps, possibly in mid-July.

Secondly, I attended the Infrastructure and Fall Planning Group meeting. David Turpin, former President of the University, joined this meeting and thanked all the sub-committee members for their work. We discussed the “return to campus” course, which is available on eClass (5,000 certificates of completion have been issued so far). Environmental Health and Safety is very prepared with supplies for the return to campus (PPE, sanitizer, etc) for staff. Messaging around individual responsibility for handwashing and having personal sanitary tools (masks, hand sanitizer) has been developed, and contact tracing is being promoted through the tracing app, as well as recording individuals’ attendance on campus.

I attended a U-Pass Advisory Committee meeting and an Administrative U-Pass Committee meeting. In the Administrative meeting, there were a lot of inquiries regarding the Summer and Fall U-Pass program and a discussion around a possible opt-in option for the Fall semester. The Smart Fare project will not be happening this fall and has been postponed until Winter. In the U-Pass Advisory Committee meeting with Edmonton Transit Service (ETS), there were discussions on moving forward with the U-Pass contract negotiations for the next agreement that would run 2021-2025. Also, ETS announced that they are not interested in an opt-in U-Pass for the Fall semester. All the student associations who have a U-Pass agreement with ETS have gathered to discuss possible options and are trying to broker some solution. Also, each student association has put forward one representative to the city-wide negotiation team, and we will be moving forward with the negotiations for the next U-Pass agreement starting in 2021.

Next, I attended the Public Health Response Team (PHRT) Action Team 4 meeting, which is specifically for Student Services and Accommodations. There were some updates on sourcing a vendor for transcription services (live transcription, asynchronous transcription, etc), as well as a discussion regarding student housing, including maximum on-campus limits, how to prioritize self-contained units, etc.

Finally, I attended working group meetings for World Suicide Prevention day and World Mental Health Day, where we are working on how to plan, promote and organize these days for the campus community in these unprecedented times.

As has been mentioned previously, there is some uncertainty about the future of the Graduate Student Assistance Program (GSAP), as the cost of the service will be increasing in April 2021. Graduate students...
currently pay $12 a year for the program (as set by referendum) and the University offsets a portion of the costs. While we are discussing this with various parties (most recently the Dean of Students) and have a meeting with the Vice-Provost upcoming, the budgetary pressures of the University mean that they may be unable to increase their sponsorship of the program and, indeed, may need to decrease the amount of funding the provide. All this entails that we may need to prepare for a referendum to see if graduate students are willing to pay ~$20 a year, rather than ~$12, to maintain the program. I will keep you informed as this develops and welcome any feedback you may have.

Feel free to reach me out for any comments/concerns regarding this report or any other specific issue you want to discuss regarding services to students at gsavpsse@ualberta.ca.

GSA Nominating Committee
Report to GSA Council for the 20 July 2020 Meeting

To: GSA Council
From: Radim Barta
Date: 17 July 2020

Dear Council Colleagues,

The report from the GSA Nominating Committee (GSA NoC) this month is a summary of discussions/decisions the committee has made since its last report, together with a list of all vacancies filled and those which will be filled shortly.

GSA Policy governing the GSA NoC is located in GSA Bylaw and Policy, Section E: Nominating. As provided for in its Terms of Reference, the GSA NoC has been conducting business via e-mail.

Sincerely,
Radim Barta, Chair of the GSA NoC

Memorandum to GSA Councillors

There are a number of vacancies, both currently being advertised and which will be advertised in the coming weeks, on GSA Standing Committees for GSA Council Members (Departmental Councillors and Councillors-at-Large). These positions play a pivotal role in the GSA’s ongoing efforts to keep its processes transparent and itself accountable, since GSA Councillors on these committees help maintain clear and consistent connection between GSA Council and GSA Standing Committees. Long-term vacancies adversely impact these efforts and so GSA Council members are encouraged to consider serving on these committees when vacancies are advertised to you. For example, advertising for a GSA Departmental Councillor position on the GSA Appeals and Complaints Board (GSA ACB) has been ongoing since October 2019 with no nominations coming forward. This position will be advertised again in the fall; I encourage you to please consider serving on this board. Likewise, the current joint vacancy on the GSA Board (GSAB) and GSA Nominating Committee (GSA NoC) has been repeatedly advertised and it is critical that it be filled.

It is important to note that the time commitment for all of these committees varies greatly. While some meet regularly throughout the year (usually every two (2) to three (3) months – with the GSA Board meeting weekly), others meet less frequently and some do most of their work over email. Additionally, there is an appreciation of people’s schedules and other commitments and accommodations are routinely made for those who cannot attend all meetings.

Service on these bodies is an excellent way to make sure your voice is heard and a great opportunity to add to your CV/resume!

On behalf of the GSA NoC, GSA NoC Chair Radim Barta strongly encourages GSA Councillors to consider the next round of vacancies, which will be circulated to GSA Council electronically. In particular, the position on the GSA Board and the GSA NoC itself is critical and applications would be greatly appreciated – this vacancy will be re-advertised shortly. Questions can be directed to GSA NoC Chair Radim Barta at radim@ualberta.ca or GSA Elections Coordinator Monica Brzak at gsa.nomcomm@ualberta.ca.

Executive Director

Report to GSA Council for the 20 July 2020 Meeting

To: GSA Council
From: Courtney Thomas
Date: 17 July 2020

Dear GSA Council Members,

The big projects for the office staff over the past month have been the GSA’s annual audit (see the GSA Budget and Finance Committee report to GSA Council for more on this) and modifications to the GSA's operating budget, made in the course of developing the fall term financial report, in light of COVID-19 prevention measures and their anticipated impact on the GSA's budget (both in terms of lost revenue and projected savings). More information about this is available in the materials for Item 5 that are before you; I am very pleased that we are on track to maintain a balanced budget and am thankful to the other members of the Financial Team for their hard work in this area and continued vigilance with respect to our finances.

Additionally, we are also working with the Vice-President Labour to support the collective agreement bargaining process with the University, with the Vice-President Student Services on upcoming U-Pass negotiations for the next contract (and ongoing negotiations concerning the fall 2020 U-Pass), and with the two aforementioned Directly-Elected Officers and the President on issues related to the Graduate Student Assistance Program (the cost of the program will be increasing in 2021 and we need to work with the University to assess whether they can assist with offsetting these costs or if a referendum to increase the cost will be needed – a meeting with the Vice-Provost will occur next week). We are also analyzing the recent changes to the Labour Relations Code and the Post-Secondary Learning Act enacted by Bill 32, and how they will impact the GSA’s work as a labour union for academically-employed graduate students.

Finally, and as noted last month, the office staff are actively engaged with exploring online means to deliver the GSA’s fall orientation programming (both our large-scale orientation event and the approximately 40 departmental orientation presentations that we provide each fall). We have initiated some software purchases that will enable this and are also continuing to collaborate and share information with other University units that are working to deliver online orientations, including the Faculty of Graduate Studies and Research.

My weekly reports to the GSA Board are attached (pages 18.1-18.4) and, as always, I am happy to answer any questions.

Best,

Courtney Thomas, Executive Director
Management Report to the GSA Board, 24 June 2020

Management has been engaged with the following issues since the last GSA Board meeting on 17 June 2020:

**Strategic**

- Meeting with the GSA’s auditors, finalizing the GSA’s audit and Spring/Summer Term Financial Report, and supporting a meeting of the GSA Budget and Finance Committee.

- Preparing an electronic vote for the GSA Governance Committee concerning a proposal for amendments to GSA Bylaw and Policy on the GSA Appeals and Complaints Board.

- Planning for a U-Pass referendum in 2021 and supporting the current U-Pass negotiations processes and planning for a possible referendum in 2021 concerning the cost of the Graduate Student Assistance Program (awaiting a meeting with the Deputy Provost to get more information about the future of the program).

- Work associated with the Collective Agreement, including supporting negotiations processes (initial discussion meeting on 22 June following receipt of the University’s bargaining proposals and an associated caucus of the GSA Negotiating Team to prepare), circulating an update to members of the bargaining unit, participating in a labour roundtable with other Alberta GSA’s (hosted by ab-GPAC), and planning to research best practices with respect to strike fund establishment, maintenance, growth, and utilization (have received no responses from possible consultants so now reassessing how best to move forward – project temporarily on hold as the upcoming cycle of bargaining unfolds).

**Operations**

- Designing a page of the GSA website for sharing resources for, and work by, Black, Indigenous, and People of Colour graduate students and allies.

- Preparing for the opening of a new GSA grants period.

- Ongoing work associated with remote delivery of GSA orientation (utilizing Articulate to build presentations in eClass, etc and working with the Faculty of Graduate Studies and Research to contact graduate program coordinators about departmental orientations).

Management Report to the GSA Board, 8 July 2020

Management has been engaged with the following issues since the last GSA Board meeting on 24 June 2020:

Strategic

- Since the 22 June 2020 meeting of the GSA Budget and Finance Committee, at which the GSA’s audited financial statements for 2019-2020 were presented in advance of their submission to the GSA Board, GSA Council, and (ultimately) the Board of Governors, RSM (our audit firm) identified that some changes were needed to the way in which funds related to the GSA Health and Dental Plan were presented in order to align them with generally accepting accounting principles. As a result of this being identified, the audited statements now need to be reviewed and reconfigured in this area (for example, the comparative financial information from the previous year will also need to be restated). This means that the audited financial statements will now proceed to GSA Board and GSA Council in the fall, following another review by the GSA Budget and Finance Committee. Please note that this relates to the presentation of the statements and not to any issues with the GSA’s financial position or audit overall; it has no impact on the financial status and health of the GSA.

- Planning a moderate revamp of the GSA newsletter (switching over to a new platform that will allow for the collection of data on readership and adding “Did You Know” features to focus on major GSA advocacy and services work to better connect members with the organization and illustrate the GSA’s work on their behalf).

- Planning for a U-Pass referendum in 2021 and supporting the current U-Pass negotiations processes, and planning for a possible referendum in 2021 concerning the Graduate Student Assistance Program.

- Work associated with the Collective Agreement, including supporting negotiations processes (preparing for negotiation meetings and associated caucuses in July), circulating an update to members of the bargaining unit, and planning to research best practices with respect to strike fund establishment, maintenance, growth, and utilization (have received no responses from possible consultants so now reassessing how best to move forward – project temporarily on hold as the upcoming cycle of bargaining unfolds but is being discussed with other GSAs at the ab-GPAC hosted labour roundtables).

Operations
- Ongoing work associated with remote delivery of GSA orientation (utilizing Articulate to build presentations in eClass, etc and working with the Faculty of Graduate Studies and Research to contact graduate program coordinators about departmental orientations) and thinking about how to set up a virtual front desk for the fall.

- Ongoing work with First Peoples’ House and the Office of Advancement concerning the creation of a recognition award for an Indigenous graduate student, as well as drafting GSA Bylaw and Policy associated with another new GSA Recognition Award.

- Supporting the work of the GSA Elections and Referenda Committee and the GSA Nominating Committee; vacancies on the GSA Elections and Referenda Committee (1 GSA Councillor – currently being advertised), the GSA Governance Committee (2 GSA Councillors – to be advertised in September), the GSA Appeals and Complaints Board (1 GSA Councillor – to be advertised in October), the GSA Board and the GSA Nominating Committee (1 GSA Councillor – currently being advertised), the Chief Returning Officer and Deputy Chief Returning Officer (2 GSA members – currently being advertised), and the Dean of Students Review Committee (2 GSA members – currently being advertised), and preparing for the upcoming replenishment of graduate student seats on the Faculty of Graduate Studies and Research Council.

- Facebook = 1,459 likes (up 2 from 24 June) and 1,560 followers (up 4 from 24 June); Facebook posts reached 826 users last week and our “post engagement” count was 68. Instagram = 473 followers (up 6 from 24 June); our posts earned 539 “impressions” over the past week.

- GSA Academic Travel Grants = new funding period started 1 July (not accepting applications for travel outside the province; online costs accepted); GSA Child Care Grants = new funding period started 1 July; GSA Emergency Bursaries = no funding periods for GSA EBs; GSA Graduate Student Group Grants = new funding period started 1 July.
