Re: **2023-2024 Western Association of Graduate Schools (WAGS) & ProQuest Awards: Innovation in Technology Award**

FGSR is pleased to announce this year's WAGS-ProQuest Innovation in Technology Award. This award is given for the development of innovative technology in a thesis or dissertation and its utilization for the creative solution of a major problem. This award recognizes distinguished scholarly achievement at the master's or doctoral level. The 2023-2024 recipient will receive \$1,000, a Certificate of Award, and travel expenses for the recipient to attend the WAGS Annual Conference and Awards luncheon (date and location is TBD).

### **Eligibility**

The nominee must have successfully defended and submitted the final copy of their thesis or dissertation towards the master's or doctoral degree within the **period of July 1, 2022, through June 30, 2023**.

### **Nomination Process**

Each eligible department may submit **one** nomination for this award to FGSR via the GSMS Awards Portal by **Thursday, September 14, 2023**. Departments with no nominees are not required to notify FGSR; if nothing is submitted by the deadline we consider them as no nominee. The following documents are required; nominations with materials exceeding the page limits as indicated will not be adjudicated by the FGSR Graduate Scholarship Committee (GSC) and will be removed from the competition:

1. A non-technical summary prepared by the nominee (1000-1500 words) describing the research and how it demonstrates or resulted in the development of innovative technology in the conduct of scholarship. This summary should be directed to a general academic audience of non-specialists.

2. An abstract of the nominee's research (not to exceed 10 double-spaced pages). Appendices containing nontextual material, such as charts or tables, may be included as additional pages. All pages should be numbered, and each should bear the name of the nominee.
3. Two nomination letters (not to exceed 1 page per letter). One from the department head or major professor and one letter from additional faculty member. The letters should include information regarding the significance of the study, the contribution of the study to the program of the degree granting unit, and the broader impact of the innovation on the knowledge base of the discipline.
4. The nominee's CV or resume (not to exceed 5 pages).

**Evaluation Criteria:**

- Originality of the study
- Scope and significance of the study
- Contribution to the discipline and/or profession
- Overall quality of the summary and abstract of the thesis or dissertation.

Finalists will be asked to provide an electronic copy of the complete thesis/dissertation.

The FGSR GSC will adjudicate all nominations received. FGSR is eligible to submit one nomination for the Innovation in Technology Award to the WAGS National Office by their deadline of October 6, 2023. Successful nominees will be notified directly by WAGS.
