

Faculty of Graduate Studies and Research, University of Alberta

Course-Based Tuition Guarantee Rates for International Graduate Students, Fall 2022 Cohort

Following are the approved tuition guarantee rates for international students entering a course-based master's program at this University in the **Fall 2022 Cohort** (Fall 2022, Winter 2023, Spring 2023 and Summer 2023 terms).

For information about other types of programs, see [this page](#). Please note that **none of these lists is comprehensive**. Rates for some programs, including some with non-standard fees, may not appear.

The terms of the guarantee will depend on the kind of program to which you are admitted. If there is a difference between the rates stated below and the rates in the guarantee received with your offer of admission, the **offer of admission will take precedence**.

All rates are in Canadian dollars. Guaranteed rates for Fall 2023 and beyond will be posted at a later date.

Incoming international students who choose to defer their admission from the Fall 2022 cohort to a new start date of Fall 2023 or beyond should be aware that they will change to a new cohort and receive a new guaranteed tuition rate.

Please note:

- For critical information on how to read these tables and how the guarantee works, please see the tab "For international students admitted to course-based master's degree programs" on this page: <https://www.ualberta.ca/graduate-studies/prospective-students/international-student-tuition-framework/index.html>
- The length of the guarantee (that is, the maximum time students have to complete their program before incurring additional instructional fees) varies by program; please contact grad.mail@ualberta.ca for assistance with this question.
- The minimum instructional cost of a program is the figure provided in the "total guarantee" column. **Note, however, that some programs, such as the Master of Science in Internetworking, include an additional non-refundable program fee that is not reflected in this figure. Please consult your official offer of admission for more information.**
- The following are not covered under this guarantee:
 - Courses that need to be repeated due to withdrawal or failure
 - Other fees, including mandatory non-instructional fees
 - Cost of living
- For information on the cost of additional courses not covered by the guarantee within the period of time covered by the guarantee, or on the cost of additional courses taken after the guarantee expires, please contact grad.fees@ualberta.ca. Note that the cost of additional courses taken after the guarantee expires will be assessed according to the rates approved for that year.

List of Guaranteed Rates (not including additional non-refundable program fees, where applicable) [BoG June 2021](#); [BoG Source March 2022](#)

Department	Program	Specialization	Annual Fee	Total Guarantee
