The Summary of Undergraduate Award Statistics represents information compiled by the Office of the Registrar and Student Awards for the period, 1 May 2008 – 31 August 2009. It includes awards received by University of Alberta undergraduate students as they entered, continued their studies, or graduated from this institution. The data excludes all funds received by University of Alberta undergraduate students where the primary criterion of selection was "financial need."

**DEFINITIONS:**

**Award Year**

The award year was changed to September 1 – August 31 from May 1 – April 30. The 2009-2010 Summary of Statistics data represents awards given out from May 1, 2008 – August 31, 2009.

**Reporting Year**

The statistics reported in this 2009-2010 Summary of Statistics are actually for the year 2008-2009. At the time of the printing of the Summary, the selection of many 2009-2010 awards recipients is still in progress and reporting them at this time would be imprecise.

**U of A Administered Funds**

Funds distributed directly to students from a University of Alberta account. This category of funding is primarily made up of annual donations or investment interest received from permanent endowments created by donors.

**Other Funds**

Funds received by University of Alberta students but not from a University of Alberta Account. This category of funding is primarily made up of awards offered by Provincial and/or Federal award agencies. Although the University of Alberta is usually directly responsible for the nomination of award recipients in this category, the award funds are frequently distributed directly to recipients, and not via a donation to the university.

Suggestions and comments should be directed to the Assistant Registrar, Student Awards Office, (780)-492-3221.
