

Cannabis Impairment in the Workplace

Presented by Dr. Brendan Adams

Are you looking for accurate information on cannabis impairment in the workplace?

The university is responsible for providing a safe, healthy and productive work environment for all faculty and staff. Many aspects of the university workplace require mental and physical alertness, accurate and quick reflexes along with sound judgement and decision making. Impairment to these abilities can introduce unnecessary workplace hazards.

Human Resource Services in partnership with Homewood Health Inc. is pleased to present Cannabis Impairment in the Workplace. Dr. Adams will utilise his extensive experience as both an addiction physician as well as an occupational health practitioner to address the complex issues of cannabis in the workplace. Dr. Adams will discuss scientific studies, their outcomes and impact on the private sector as well as the development of corporate policies with particular attention to safety sensitive work.

We are pleased to offer the following two sessions:

JUNE 15, 2018 | 10:30 AM - 12:00 PM | GLACIER ROOM | LISTER CENTRE | UALBERTA

The session material will speak to managers, supervisors and those in a leadership capacity.

JUNE 15, 2018 | 1:00 PM - 2:30 PM | GLACIER ROOM | LISTER CENTRE | UALBERTA

The session is a general offering and is open to all interested faculty and staff.

Registration: www.learningshop.ualberta.ca

Please note that the location is subject to change and will be confirmed in the session reminder.

Dr. Brendan Adams M.D. M.Sc. C.C.F.P. F.C.B.O.M. A.B.A.M. is an occupational physician from Calgary, Alberta, Canada.
