Info Required:

First/Last Name

Date of Birth

Gender

Alberta Mailing Address

Phone Number

****Enter your Alberta Health Care Number or check the box saying you do not have one.**

Then upload your vaccination record

The Alberta Health Services System can take two to three weeks to see your submission.

If you have an Alberta Health Care Number:

After waiting for two weeks, get your QR code from [COVID Records Alberta](#). You need your Alberta Health Care Number, Date of Birth, month and year of last vaccine).

If you do not have an Alberta Health Care Number:

After waiting for two weeks, call 8-1-1. Navigate the buttons, searching the option for Vaccine Information or Immunization.

Tell them you are an international student without an Alberta Health Care Number, but that you submitted your records on (specific date) and require a Request for COVID-19 Vaccine Record QR code.

This code will be posted to your Alberta address in three - five business days. We suggest taking a photo of it with your phone; you need to present it to access various businesses and restaurants.

Note: While waiting for your card to be processed, with or without an Alberta Health Care Number, you can use your Vaccine Record, along with your passport, and your ArriveCan confirmation to enter businesses requiring proof of vaccine.

If you need help with this or getting your Alberta Health Care Number, please make an appointment with an advisor at I-Advise.
