EQUITY, DIVERSITY, AND INCLUSION SEMINAR

RACE-BASED DATA COLLECTION: Opportunities and Challenges in Addressing Health Disparities

Jaspreet K. Khangura, MD, MSc, FRCPC

Clinical Assistant Professor & Research Scientist in Health Equity,
Department of Emergency Medicine, University of Alberta

**Thursday | 6 April 2023
12:00 - 13:00 MDT**

WEBINAR Presentation via Zoom; [Click to Register](#)

Health equity is a critical issue facing healthcare systems today. Race-based data collection has been gaining traction as an important tool to address health disparities among racial and ethnic minorities. However, the collection and use of race or ethnicity-based data raises complex issues. This talk will explore the implications of race-based data collection; the limitations and challenges of using race as a category and best practices for the ethical and responsible collection of race-based data.
