

Visiting Speaker Dr. Ganesh Suntharalingam

The Department of Critical Care Medicine is pleased to announce Dr. Suntharalingam has accepted our invitation to visit prior to the CCM conference in Whistler.

He is the President-Elect of the UK Intensive Care Society. His area of special interest is clinical trials and disaster management, and he became famous - which included coverage by the New England Journal of Medicine as well as the National and International Media - after his ICU was forced to deal with the major fallout from a clinical trial gone wrong.
