I engage with the public on a wide range of health and science policy issues by working closely with the popular media, providing public lectures and tweeting daily to a growing number of followers (<http://twitter.com/#!/caulfieldtim>). I now do well over a 100 interviews (regional, national and international) annually with radio, TV and print media, and have been featured in *Reuters*, *The Guardian*, *Time*, *Newsweek*, *USA Today*, *The Washington Post*, *The New York Times*, *Spiegel*, *The Atlantic*, *Vanity Fair*, *Slate Magazine*, *Maclean’s*, *The National Post*, *The Globe and Mail*, and *The Daily Beast*, and on *The Discovery Channel*, the *CTV* and the *CBC National News*, and *The Current*, among others media outlets. I have been the guest host for the well-know CBC science show, *Quirks and Quarks*. As well, I regularly contribute essays and op-eds to a variety of sources including *The Atlantic*, *The Walrus*, *The Globe and Mail*, *The National Post*, and *The Ottawa Citizen* (to name a few), as well as deliver numerous public lectures on an annual basis, and contribute regularly to the digital magazines *Policy Options* and *Healthy Debate*. Lastly, I co-write, co-produce and host the television documentary series *A User’s Guide to Cheating Death* (premiered in Fall 2017, picked up in 67 countries, and acquired by Netflix), winner of the 2019 RealScreen Award in the category of Non-Fiction: Science & Technology.

Over the past ten years Professor Caulfield has supervised countless law students who were hired to work on health law projects. Many of these students have become members of the health law community or have pursued an academic career. An example is Dr. Tania Bubela, who is now Dean, Faculty of Health Sciences, Simon Fraser University. Professor Caulfield continues to work closely with Dr. Bubela.
