Mathematical Biology Seminar

Monday, November 20, 2023

3 pm MST - 457 CAB (in person)

Join Zoom Meeting

https://ualberta-ca.zoom.us/j/98497695684?pwd=SG5pcUVRS0xucW5xd0xBTm1VVCtEUT09

Meeting ID: 984 9769 5684
Passcode: 32123

Thomas Hillen

**Department of Mathematical and Statistical Sciences
University of Alberta**

How the Tulips get their Stripes

Tulips have captivated human interest for centuries, with their vibrant colors and unique shapes. Particularly striped tulips have been highly popular, leading to the "tulipomania" in the Dutch Golden Age. But how do the tulips get their stripes? Maybe Turing can help?

COLLABORATIVE MATHEMATICAL BIOLOGY GROUP

*MATHEMATICAL & STATISTICAL SCIENCES
UNIVERSITY OF ALBERTA*
