Testimonials

“Particularly enjoy the Emerg aspect of the rural rotation as it is much faster paced than clinic and get to see a lot of things in a short amount of time. For example, have not had much exposure to MSK injuries and have been able to see more in emerg”.

“I am really enjoying my time in Athabasca. Dr Esterhuizen is a great preceptor who is supportive and allows me to do everything I am comfortable doing. There is a lot of autonomy but support and backup is always there when I need it. All of the hospital and clinic staff in Athabasca are also collegial and fun to work with. The town is beautiful and having a Multiplex keeps me busy during off hours. I would definitely come back for another rotation and strongly recommend to other students”. Warren Sun, Class of 2018
