

Professor Pages Overview

Created by Daniel Sanabria, last modified by Travis Lee on Nov 03, 2017

All professor pages within the Faculty of Medicine and Dentistry (FoMD) will populate from data contained in the Faculty Administration Resource Manager (**FARM**) system. This will allow for the creation of a web page on the University site and take advantage of the optimized search engine capabilities leveraging off the University-wide pages, making it easy to find online.

<https://farm.med.ualberta.ca>

The screenshot shows the login interface for the Faculty Administration Resource Manager (FARM) at the University of Alberta. At the top left is the University of Alberta logo. To the right, there are navigation links: "Find a Person", "Bear Tracks", "Apps@UAlberta", "eClass", and "Libraries". Below this is a green header bar with the text "FACULTY OF MEDICINE & DENTISTRY" and "Faculty Administration Resource Manager (FARM)". Underneath the header is a "Help and Support" link. The main content area has a "Home > Login" breadcrumb. The "Login" section includes the instruction "Please login with your CCID and password." and two input fields: "Campus Computing Identifier (CCID)" and "Password". A "Login" button is positioned below the password field. At the bottom of the page, the "University of Alberta" logo is repeated.

Through this system, FoMD-specific business rules will be applied to the uploading of pages, as well as removing web pages from the public view if an appointment ends.

A user needs to have at least **two** pieces of information associated with their profile in FARM:

- Name
- Public Office Information (preferred address and preferred phone)

Having a strong digital presence is important, and this business rule will help improve the quality of the professor page. It is highly recommended that you have as much information as possible uploaded into FARM, and follow the approval process so that it may be posted on the public site.
