Health Professions Educational Research Certificate

The Teaching Scholars Program (TSP) is a series of nine courses aimed primarily at clinicians in health professions education (HPE). The courses provide scholars a knowledgebase and skills set in educational theory, curriculum development, evaluation, and educational research.

The TSP Health Professions Educational Research Certificate will be offered after the completion of 3 TSP courses. The goals of TSP are: (1) develop educational leaders and scholars; (2) complete mentored projects; and (3) participate in a community of HPE scholars.

To be rewarded the Certificate, participants must: (1) participate in 2 TSP research courses plus TSP 001; (2) attend ~ 80% of the course sessions; (3) complete each required course project; and (4) present their project to the other members of the course and the course faculty

The Certificate requires completion of 2 of the TSP research courses, plus TSP 001, which is a pre-requisite for the other courses.

TSP 001: Introduction to Health Professions Theory & Practice; 1 session/week, 2 hrs/session for 12 weeks.

TSP 004: Introduction to Quantitative Health Professions Educational Research; 1 session/week, 2 hrs/session for 12 weeks

TSP 006: Introduction to Health Profession Educational Qualitative Research; 1 session/week, 2 hrs/session for 12 weeks

TSP 009S (summer): Writing a successful Health Professions Educational Grant; 5 sessions/week, 6 hrs/session for 1 week

TSP 009A (academic year): Writing a successful Health Professions Educational Grant; 1 session/week, 2 hrs/session for 12 weeks

Scholars will need to register for the certificate program. Once registered, they can enroll in required courses. For registrants, there will be a non-refundable $150 + GST: $ 157.50 /course fee for each course (trainees can apply for a reduced fee if they cannot receive reimbursement from their department).

Courses can be audited for free, but if the participant wishes to later apply for the certificate based on completion of the courses, they will have to pay a one-time fee of $750 + GST for the certificate and pay $150+ GST /course for any course beyond three.

If someone has already completed the TSP 001 course or has a Master's degree in medical or health sciences education, they can apply that to the certificate requirement and will be only required to complete two of the research courses.
