Theoretical Framework:

Objectives (Research Questions):

## Factors

Factors Affecting HM use of RF for management practice:

Factor (1)

Factor (2)

Factor (3)

Factor (4)

Factor (5)

## Sample

Random Sampling

Random Assignment

Final Sample n:

Report of Response Rate:

Response Rate (%)

Refusal Rate (%)

Refusers' Reasons

Sampling

Age

Number of Males

Number of Females

Professional

Group/Occupation

Years of Professional

Experience

Education Level

Income Level

Ethnic/Cultural Background

Drop Outs

## Methods

Data Collection

Study Design

Study Design Details

Method of Data Analysis

Data Analysis Strategies: Data Cleaning

Data Analysis Strategies: Imputation of Missing Data

Data Analysis Strategies: Addressing Sources of Bias

Data Analysis Strategies: Data Exclusion

Data Analysis Strategies: Other

## Instruments

Instrument (1)

Instrument (2)

Instrument (3)

Instrument (4)

## Interventions

Intervention Type:

Intervention  
Provider

Intervention  
Recipients

Intervention  
Intensity

Intervention  
Duration

Fidelity of  
Implementation

## Outcomes

Main Outcome Description:

Time-frame of outcomes

Effects:

Effect Size:

Significance of Results:

Qualitative Outcomes:

Quantitative Outcomes:

Study Limitations

Conclusion
