Conclusion
• Recap of precepting the patient care process

• Providing feedback to the Office of Experiential Education – online survey

• Non-accredited learning
  • Sample Learning Records
  • Sample Implementation Record
Precepting the Patient Care Process

This module was developed to guide and support you, the preceptor, in coaching, supporting and assessing your student in the Patient Care Process.

Remember:

• Your student is gaining experience by joining you in your patient care practice
• Socializing your student to your patient care practice is important
• Repetition of the process leads to greater competence and confidence
How did we do? Feedback please!

Your feedback is very valuable to our Office; it helps shape future programming for preceptor development.

• Did this module improve your understanding of precepting the patient care process?

• What have you learned that will influence the way you precept your next student?

• Please provide your feedback by filling out the online survey that accompanies this Module.
  • Link located at bottom of this page: https://www.ualberta.ca/pharmacy/preceptors/preceptors/training-and-resources/patient-care-process-module
• Documentation of learning within your annual professional portfolio is encouraged.

ACP Continuing Competence Program Resources

Participation in Preceptor Workshops and completing other learning activities to improve your precepting skills are examples of continuing education and can be recorded on one or more Learning Records. Furthermore, implementation of the precepting skills you have learned into your practice can be documented in your CCP Professional Portfolio using an Implementation Record. Below are two examples of Learning Records and one Implementation Record to assist you in documenting your learning activities and implementation activities related to precepting.

LEARNING RECORD - UBC E-Tips

LEARNING RECORD - Preceptor Workshop Level 1 - Setting You and Your Student Up for Success

LEARNING RECORD - Preceptor Workshop Level 2 - Precepting Your Student - Tailoring Supervision and Assessment

IMPLEMENTATION RECORD - Implementation of precepting and precepting skills into your practice
Any questions or comments? We are committed to listening to your ideas to help improve our program.
