

Prof. William Flanagan
President and Vice-Chancellor
University of Alberta

September 2, 2020

Dear Prof. William Flanagan,

On behalf of Wenzhou Medical University, I am delighted to hear your wonderful news and wish to offer our congratulations on your installation as the fourteenth president and vice-chancellor of the University of Alberta. I believe that under your leadership, the University of Alberta(UAlberta), as one of the global leaders in research and education, will become more creative, vibrant, and diversified.

As one of the top independent medical universities in China, Wenzhou Medical University(WMU) is immensely proud to be an international partner of UAlberta. We enjoy close friendship and collaboration. Thanks to the support from UAlberta, we have successfully launched the Alberta Institute(AI), WMU this year and deepened our collaboration in education, research, faculty and students exchange, etc. The AI has a brilliant start and the students admitted will begin their study this upcoming fall. I am confident that they will enjoy their university life here at the AI and our collaboration will be full of vigor and potential.

I look forward to seeing our two universities share a bright future together and would like to wish you again a heartfelt congratulations on this appointment and a successful tenure!

Yours Sincerely,

Li Xiaokun
Academician of Chinese Academy of Engineering
President of Wenzhou Medical University
