### Podcast Episodes

**Speaking of Psychology: Does diversity training work?**
https://www.apa.org/research/action/speaking-of-psychology/diversity-training

(Episode 120) In our increasingly diverse country, many workplaces have implemented diversity training programs aimed at fostering cohesion, mutual respect and understanding among employees of different backgrounds. Calvin Lai, PhD, an assistant professor of psychology at Washington University in St. Louis, discusses what we can learn from psychological research about whether diversity training works and what makes for effective training.

**Quirks & Quarks 20 Sept 2019 Glass Obstacle Course: Why so few women hold top STEM spots**

https://youtu.be/YnlvnfHaBg

Writing Effective EDI Statements – Dr. Lisa Willis
https://www.youtube.com/watch?v=4L65lIlc1Vo&t=1s&ab_channel=OfficeofResearchandInnovationServicesUWindsor (2 hrs) Writing effective EDI statements workshop – EDI statements are now required for Tri-Council funding applications but most scientists do not know what goes into one. Additionally, scientists who are used to working with facts and figures cannot adequately write these statements without knowing what the literature says about EDI in science. Join Dr. Lisa Willis from the University of Alberta for a session which will provide researchers with the knowledge to write outstanding EDI statements, all based on the scientific literature. It includes information about the rationale for working with diverse scientific teams, the current numbers for diversity in Canadian STEM, and the controlled studies demonstrating bias in STEM. We will also discuss mechanisms for integrating good EDI principles with the daily lab environment and how to incorporate this information into effective EDI statements.
