

7th Annual Karin Greaves Memorial Education Seminar

Complications following Total Joint Arthroplasty *A discussion about infection management and revision surgery*

PRESENTERS

Dr. Marcia L. Clark is an Orthopaedic Surgeon at Foothills Medical Centre and Clinical Assistant Professor at the University of Calgary. She completed her undergraduate degree at the University of New Mexico (Albuquerque) and her medical degree at the University of Calgary followed by Orthopaedic Residency training at the University of Alberta. Marcia completed two Fellowships. Firstly, a Hip and Knee Reconstruction Fellowship at the Wakefield Clinic and University of Adelaide in Adelaide, South Australia and secondly, a Fellowship at the University of Calgary in Surgical Education and Revision Joint Arthroplasty where she earned a Master of Science in Medical Education. Marcia's clinical interests involve complex primary and revision hip and knee surgeries. Additionally, she is an active member of the Canadian Alpine Ski Team Medical group, providing care for athletes and support staff at the training and international level as well as international motor sports events. She recently earned her Diploma in Sports and Exercise Medicine. She has an active role in post-graduate surgical education assisting in curricular change of the Surgical Foundations program at local and National Levels.

Dr. Guy Lavoie, MD, B.Sc, FRCS(C) Faculty of Medicine and Dentistry, Division of Orthopaedic Surgery. Dr. Lavoie is an orthopaedic surgeon with a specialty practice in joint arthroplasty surgery. He received fellowship training in arthroplasty and revision joint arthroplasty and has extensive experience with complex joint arthroplasty surgery.

Dr. Richard Mcleod, MD, FRCS(C)

Candace Kenyon is an RN, BScN, ONC(C) with a specialty interest in Orthopaedics. Candace has been the Clinical Manager at the Edmonton Musculoskeletal Centre since its inception in 2006, and takes a lead role in the day to day functioning of the Clinic.

Dr. Lauren Beaupre is an Associate Professor in the Department of Physical Therapy and Adjunct Assistant Professor in the Division of Orthopaedic Surgery. Her primary interest areas is outcome research in large orthopaedic patient populations (total joint arthroplasty, geriatric hip fracture and trauma) focusing on functional recovery, health-related quality of life and health service utilization following a surgical intervention. Secondly, she is also interested in how knowledge gathered in research can be effectively disseminated to health care professionals and decision-makers to encourage ongoing adoption of evidence-based practice.

Susie Torrance is a UK trained PT working partly in acute care orthopaedics and primarily in the Bone and Joint Clinic at South Health Campus. Susie brings many years of experience in outpatient orthopaedic rehabilitation from the UK and since moving to Canada has also worked in acute care orthopaedics at RGH in Calgary and in Edmonton on the arthroplasty unit at RAH plus with the outpatient Hip Arthroplasty Programme. She has always held a particular interest in lower limb rehabilitation and lumbopelvic instability.

Yvonne Foreman, BScPT is a physical therapist and team leader for the Arthroplasty team at the Royal Alexandra Hospital. She was a member of the Arthroplasty Implementation Group for the Pilot Arthroplasty Project, and has developed inpatient protocols and assisted with the roll-out of arthroplasty protocols to UAH, CRP, Grandview, Misericordia & East Central Health District.

Teresa Peters, BScPT is a physical therapist and the Rehab Lead at the Edmonton Musculoskeletal Centre. She is responsible for screening potential joint arthroplasty patients, preparing patients for the surgery and monitoring recovery following surgery.
