

REMO Upgrade Notes

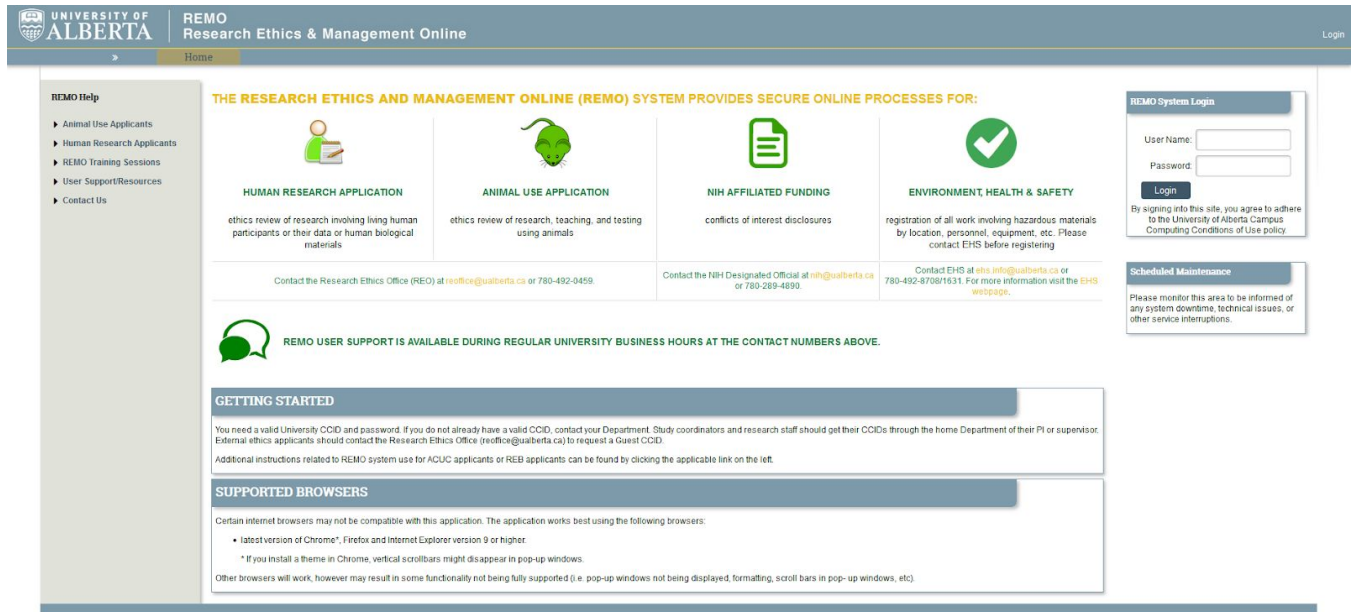

Global Cosmetics - Renewed look and feel throughout the application (fonts, tabs, images, borders, etc.) Does not impact the functionality of controls but contributes to an overall more modern aesthetic.

Old Home Page

The screenshot shows the old REMO home page. At the top, there is a green header with the University of Alberta logo and the text "RESEARCH ETHICS & MANAGEMENT ONLINE (REMO) OFFICE OF THE VICE-PRESIDENT (RESEARCH)". Below this is a navigation menu with links like "Home/Help", "Animal", "Human", "Meetings", "EHS", "Profiles", "Reports", "Support", and "Administration". A sidebar on the left contains a "REMO Help" section with links to "Animal Use Applicants", "Human Research Applicants", "REMO Training Sessions", "User Support/Resources", and "Contact Us". The main content area features a "GETTING STARTED" section with instructions on how to use the system, including contact information for the Research Ethics Office (REO) and the NIH Designated Official. There is also a "SUPPORTED BROWSERS" section listing compatible browsers like Chrome, Firefox, and Internet Explorer. On the right side, there are two boxes: "REMO System Login" with a "Log Off" button, and "Scheduled Maintenance" with a warning to monitor for system downtime.

New Home Page

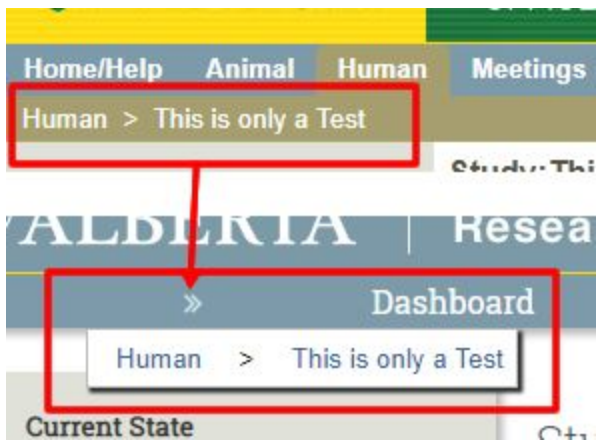

The screenshot shows the new REMO home page. It features a clean, modern design with a blue header containing the University of Alberta logo and the text "REMO Research Ethics & Management Online". A navigation bar below the header includes a "Home" link. The main content area is divided into several sections. On the left, there is a "REMO Help" sidebar with links to "Animal Use Applicants", "Human Research Applicants", "REMO Training Sessions", "User Support/Resources", and "Contact Us". The central part of the page is titled "THE RESEARCH ETHICS AND MANAGEMENT ONLINE (REMO) SYSTEM PROVIDES SECURE ONLINE PROCESSES FOR:" and contains four columns, each with an icon and a description: "HUMAN RESEARCH APPLICATION" (ethics review of research involving living human participants), "ANIMAL USE APPLICATION" (ethics review of research, teaching, and testing using animals), "NIH AFFILIATED FUNDING" (conflicts of interest disclosures), and "ENVIRONMENT HEALTH & SAFETY" (registration of all work involving hazardous materials). Below these columns are contact details for the REO, the NIH Designated Official, and EHS. A "REMO USER SUPPORT IS AVAILABLE DURING REGULAR UNIVERSITY BUSINESS HOURS AT THE CONTACT NUMBERS ABOVE." message is displayed. The bottom section includes "GETTING STARTED" instructions and "SUPPORTED BROWSERS" information. On the right side, there is a "REMO System Login" box with fields for "User Name" and "Password", a "Login" button, and a "Scheduled Maintenance" warning box.

My Home has been renamed to **Dashboard**, and has been moved to the main navigation bar.

The **Breadcrumb** has been redesigned as a double arrow on main menu and need to be clicked to view.

Update Date Picker in product - The current date picker is not really user friendly. It is now replaced with a jQuery equivalent that has a much cleaner UI making the date formatting easier than before.

2.1 Study Objectives and Design

1.0

Provide planned start and end date of human participant research.

Start Date

7/1/2009

End Date:

12/1/2017

2.0

* Provide a lay summary of your proposed research which would be understandable to general public

2.0

and research which would be understandable to general public

current standard of care - current standard of care is medical treatment with either

SmartForm button bar UI - Changes are made to ensure the SmartForm look is consistent with the rest of the site. The jump to menu is now modified to have the drop layout look.

Change to selection controls - This allows the user to click on labels to check their corresponding radio buttons or checkboxes instead of having them click on these radio buttons and checkboxes precisely. This change does not impact any functionality of the views.

3.0 * Select the appropriate Research Ethics Board (Detailed descriptions are available at <http://www.reo.ualberta.ca/Human-Research-Ethics/Research-Ethics-Boards.aspx>):

Board Name	Description
<input type="radio"/> Health Research Ethics Board - Health Panel	REB3: All NON-invasive health research involving patients, health information, AHS (Edmonton Region) or Covenant Health facilities and should be reviewed by the HREBA-CC (click here for more information)
<input checked="" type="radio"/> HREB Biomedical	All invasive health research involving patients, health information, AHS (Edmonton Region) or Covenant Health facilities and researchers e reviewed by the HREBA-CC (click here for more information)
<input type="radio"/> Research Ethics Board 1	Research primarily involving in-person interviews, focus groups, ethnographies, or community engagement and instructor-led course-based
<input type="radio"/> Research Ethics Board 2	Research primarily concerning privacy, data-sharing, confidentiality, questionnaires, survey methods and internet research.
