Additional Academic Restructuring Scenarios - Addendum

Based on submissions October 22 - November 5

Submitted to ARWG / November 2020
Since the release of the Interim Report of the ARWG, we have heard valuable feedback from the University of Alberta community, including many suggestions for other restructuring scenarios. To ensure that everyone has a chance to review the suggested alternatives and see the thinking of our colleagues, we have taken the input received in text and created a series of slides which visually captures all of the ideas that have come from the community. **To be clear, these suggestions have been submitted TO the ARWG and are not being proposed BY the ARWG.** The ARWG will, however, be considering these, along with all of the feedback received, and returning to the community with refined scenarios in mid-November.
Legend for reviewing suggested alternative scenarios:

- Solid black boxes represent unchanged faculties
- Solid red boxes represent consolidated faculties
- Dashed red boxes represent divisions which provide common leadership and shared services across the faculties
- Red bullets represent schools (or similar) within a faculty
- Rounded red boxes represent university-level schools (or similar) - largely autonomous, but with some modifications from the current faculty model
Current State: 16 Faculties (excl. FGSR, Extension)
