

U OF A CAREER CENTRE

Recruitment starts with **engagement.**

Engaged employers hire top talent.

Our services go beyond recruitment to help you find unique and meaningful ways to engage with U of A students and alumni.

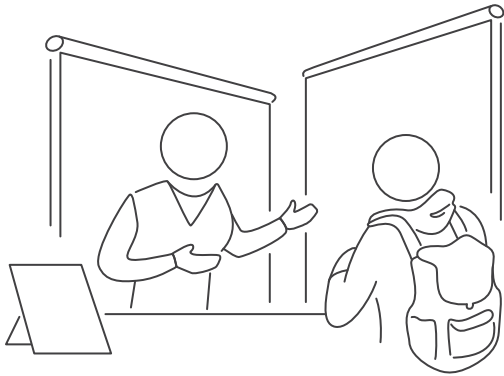

We help small, medium, and large employers—local, national, and international—connect with U of A undergraduate and graduate students, postdoctoral fellows, and alumni from all faculties and levels of study for the purposes of recruitment and hiring. We seek to provide employers and the talented people at U of A with opportunities to connect through activities that go beyond traditional recruitment events and job postings.

We encourage employers and alumni to take action and get involved in students' career development. Action that involves a campus presence, meaningful engagement with students, and support of student services.

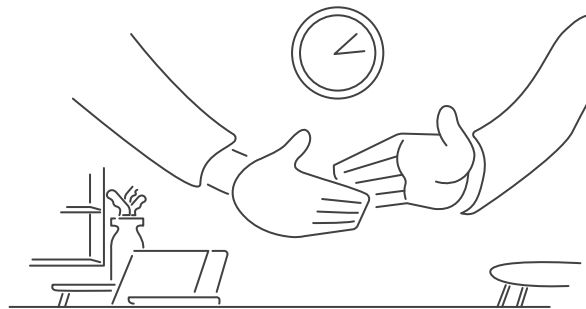

The Career Centre is your source for career and employment information and expertise at the University of Alberta.

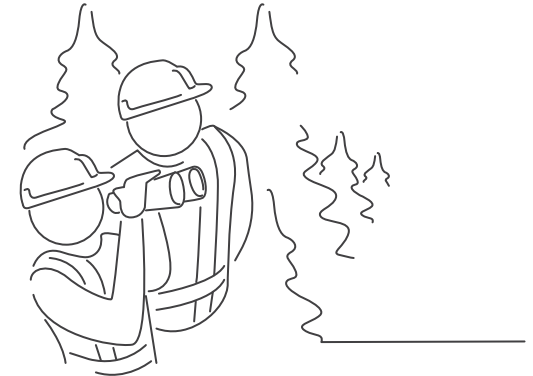

Take Action

- **Post jobs** at our free online job board, campusBRIDGE
- **Connect with candidates** through our career fairs and host employer information sessions

- Hire a student through our **work experience programs** and contribute to your future workforce
- **Consult with our experts** on effective campus recruitment strategies
- Access our employer resources and subscribe to the **Employer Newsletter**

- Help **fund opportunities** for students to participate in high impact professional development opportunities
- Take part in our virtual **Career Exploration Interviews** and provide new professionals with the support you had (or wish you had) when you started your career
- **Mentor a student**

The Career Centre is your source for career and employment information and expertise at the University of Alberta.
